Works beginning soon on Canterbury Road, Venus Bay

South Gippsland Shire Council will be conducting road reconstruction works on Canterbury Road, Venus Bay between Jupiter Boulevard and Centre Road.

The works are being conducted now with the aim to complete the most disruptive works before the Christmas holiday season.

The works include:

- Renewing road pavements.
- Widening the sealed road surface.
- Installing traffic calming measures in conjunction with the Safe Local Roads and Streets Project.

Road closures will take place at key points throughout the works, but property owners will continue to have access to their properties.

Quotes attributable to South Gippsland Shire Council Chief Executive Officer, Allison Jones:
"These works will help increase the safety and quality of Canterbury Road, and I thank the community for their patience as we complete this important project."
