

Focus on Health and Wellbeing

South Gippsland Shire Council adopted the South Gippsland Health and Wellbeing Plan 2017-2021 at its meeting yesterday.

The plan provides direction for a range of key stakeholders to support health and wellbeing in South Gippsland.

Four priorities for the plan were identified as Community Wellbeing; Lifestyle; Built and Natural Environment and Health Protection.

The plan is the result of extensive consultation with the community and health service providers.

Implementation planning is currently underway between Council and health service partners to identify actions necessary to achieve the outcomes in the plan.

South Gippsland Shire Mayor, Councillor Ray Argento was pleased to see the plan finalised and ready for action.

“It is in all of our interests to ensure that health and wellbeing is continually improved in South Gippsland.

“The South Gippsland Health and Wellbeing Plan will be the guiding document for Council and health service partners to work towards a common goal.

“This collaborative approach ensures that we create the best quality of life possible for our community,” said the Mayor.

Individuals wishing to view the South Gippsland Health and Wellbeing Plan can visit Council’s website www.southgippsland.vic.gov.au/strategies.
