If your query cannot be answered during your first contact with us, it will be recorded in our Customer Request System, together with your name, contact details, and date the enquiry was made. The nature and date of any subsequent conversations or investigations will also be entered against this record, including how and when we resolved your enquiry.

Council is committed to providing excellent customer service and to developing and maintaining a good relationship with all of our customers. However, we recognise that despite our best efforts and intentions, there may be times when you think we have fallen short or have missed something. We always welcome your feedback as it will assist us to improve our service to the community.

How you can help us

If you need extra support to talk with us, please let us know and we will do our best to provide the assistance you require.

If your request or issue is urgent, please tell us when you first contact us. We will do our best to meet expectations, however it is important to note that we deal with a large volume of enquiries on a daily basis. There may be times that we cannot respond to you by your deadline. The sooner you contact us, the sooner the issue can be resolved.

If the reason you are getting in touch is confidential or sensitive, please let us know when you first contact us so we can do our best to protect your privacy. If it is not possible for us to investigate your enquiry while also protecting your privacy, we will discuss this with you before deciding how to proceed.

While we appreciate that sometimes when you contact Council it is because something has upset you, we ask that you treat our people the same way you expect to be treated. Please do not shout or use abusive, threatening or intimidating language and gestures. We certainly do not condone violence or other physical provocation. It is important to remember that our people are doing their best in sometimes difficult circumstances.

As well as supporting the health and wellbeing of our community, we have a duty of care towards the people who work for and with Council. If a member of staff, a Councillor or a Council contractor is intimidated, threatened or abused, our obligations under this Charter will not apply and we will end communication.

In cases involving serious or repeated inappropriate behaviour, the police may be notified and further contact with the Council may be restricted.

Responding to you

We have set ourselves high performance standards for responding quickly and appropriately to your enquiries and issues.

Our target response times to routine enquiries are detailed in the Service Levels document attached to this Charter.

We will strive to acknowledge receipt of your written enquiries within the timeframes set out in our Service Levels – although it may take longer to fully investigate and respond in detail to your query or concern.

We may need further information from you when investigating your query. Sometimes we might need to consult other people or agencies. In such cases, it can take time to receive replies to your questions. If an issue is taking longer than usual to investigate or resolve, we will do our best to keep you informed of our progress. You can also request an update at any time.

While we commit to doing our best to meet Service Levels, there will be times when we need to prioritise issues. At busy times we will prioritise dealing with safety hazards before, for example, doing roadside weed inspections. We will try to let you know when there is an unavoidable delay dealing with your issue and provide you with a reason for the delay.

During emergencies, for instance in the event of a bushfire, response times may be unavoidably extended until the danger has passed.

Complaints

Council is committed to providing excellent service and maintaining a good relationship with all members of our community. Council recognises a community member's right to make a complaint and welcomes feedback on the standard of service provided. Council encourages people to notify us if that standard is ever unsatisfactory.

Council's Complaints Handling Policy (available on our website) aims to ensure that community members are able to raise their concerns easily and have confidence that Council will be responsive, handle complaints in an open and transparent manner and remain independent at all times. Council's complaints form is attached to this Charter.

If you remain unhappy about our decision or how we dealt with your issue, there are outside agencies who may be able to review your case. They can advise you whether you have grounds for a further complaint.

“Be known for being customer focused.”
