Welcome

South Gippsland Shire Council is committed to transparent reporting and accountability to its community. This Annual Report provides a detailed account of Council's achievements, challenges and performance measures for the 2015/16 financial year.

In accordance with the Victorian *Local Government Act 1989*, all councils are required to present an Annual Report to the Minister of Local Government by 30 September each year.

This report also demonstrates the breadth of Council's operations and the diversity of services provided to the community. A copy of the report is available on Council's website at www.southgippsland.vic.gov.au.

Year in Review

A Prosperous Shire (pages 38 - 49)

To achieve our objective of a Prosperous Shire, we will work with the business community to support existing businesses, diversify employment opportunities and attract new businesses, we will raise the awareness of local and regional issues with State and Federal decision makers and we will improve the sustainability of the local and regional environment.

Our achievements

- The Black Spur section of the Great Southern Rail Trail (70km) officially opened in March 2016 and the development of promotional material and trail signage was completed. Signage installation to be undertaken during August 2016.
- 857 kilometres of roadside weed spraying completed, well above target of 200 kilometres.
- Nine shovel ready projects and six footpaths have been designed and approved for construction.
- 7,113 properties serviced for kerbside green waste collection.
- 7,814 tonnes of garbage, recyclables and green waste collected, compared to 6,172 tonnes in the previous year (26% increase).
- 16,770 tonnes of waste managed at the Koonwarra landfill.
- 6,400 cubic metres of landfill airspace saved through the use of a landfill tarp cover system, rather than daily soil cover.
- Agricultural Resilience project implemented with almost 400 people attending seven workshops throughout the year.
- Resource Smart Schools program implemented at 14 schools through Council's hosting and support of a Resource Smart Schools Facilitator.

COUNCIL PLAN INITIATIVES ACHIEVED

80%

OF COUNCIL'S OBJECTIVES

- 77% of planning applications were decided within 60 days.
- Successful request for funding for the Long Jetty, Port Welshpool submitted to the Commonwealth Government in March 2016.
- The final Seasonal Population Impacts in Coastal Towns Plan and recommendation was endorsed by Council in December 2015.
- Council adopted the Domestic Wastewater Management Plan 2016-2020 in May 2016.
- Five priority projects adopted by Council in February 2016 for advocacy activities with State and Federal government.
- Entered shared service arrangements with Baw Baw Shire Council to support our Risk Management and People and Culture teams.

Closely Connected Communities

(pages 50 - 58)

To achieve our objective of Closely Connected Communities we will engage and work collaboratively with our community.

Our achievements

- Commenced planning for the Active Ageing Plan 2017-2021.
- Community Planning Forum held in March 2016 with 16 community participants from seven different communities.
- Twelve projects are listed in the Community Directions Statement, with funds allocated in the 2016/17 Annual Budget.
- 1,880 vaccines administered.
- A 95% average immunisation rate for children 0-6 years. This is a 4.8% increase compared to the previous year.

COUNCIL PLAN INITIATIVES ACHIEVED

91%

OF COUNCIL'S OBJECTIVES

- A Municipal Precinct Study was completed.
- Hosted the Deadly in Gippsland Cultural Event which was attended by 253 participants. Nineteen local organisations were directly involved in this successful Indigenous cultural event.
- Extensive community consultation resulted in a \$430,000 new Leongatha Skate Park project, completed in May 2016, to meet the growing needs of local young people in the area.
- Successful community education forum - Plan Grow Thrive held on 25 June 2016 with 60 participants representing 40 South Gippsland community groups.
- FreeZa Committee planning a free music event to be held in one of our dairying towns.
- Arts and Culture Policy review completed by the working group (anticipate adoption at the 27 July Council Meeting).

Integrated Services & Infrastructure (pages 59 - 65)

To achieve our objective of Integrated Services and Infrastructure we will deliver affordable modern community services and facilities through an integrated approach to planning and infrastructure development.

Our achievements

- 92% of the Capital Works Civil Program has been completed, well above the target of 80%.
- 44% of grant applications submitted to State and Federal program funding were successful, above our target of 30%.
- A Municipal Early Years Plan – Children and Families - 2016-2021, was developed with key stakeholders and adopted by Council in June 2016.
- \$4.7M Federal Government funding for the 'Roads to Recovery Program' for 2015/16 has been implemented to improve Grand Ridge Road, Trida, Carmodys Road, Leongatha, Station and Princes Street, Korumburra. The remainder of the funds is allocated to the Re-sheet Program budget (\$500,000) and the Rural Road Rehabilitation Program (\$296,410).
- Responded to the May 2016 severe weather event with Contractors engaged to assist in the clean-up and follow-up work.

COUNCIL PLAN INITIATIVES ACHIEVED

81%

OF COUNCIL'S OBJECTIVES

Karmai Community Children's Centre

- Construction of the Karmai Community Children's Centre in Korumburra commenced.
- Shelter constructed at Mossvale Park and seating installed.
- Tree and safety works undertaken at Mossvale Park and Korumburra Botanic Park.
- As part of the Leongatha Tree Replacement program, trees were removed on Turner and Peart Street, Leongatha and replaced with appropriate plant species.

A Leading Organisation

(pages 66 - 73)

To achieve our objective of a Leading Organisation we will improve the financial sustainability of Council, including diversifying revenue streams and pursue best practice in organisational development and operations of the organisation.

Our achievements

- The 2016/17 Annual Budget, containing the Annual Plan initiatives and the Long Term Financial Plan, was adopted by Council on 22 June 2016.
- \$20.81M has been allocated to major capital works.
- The Long Term Financial Plan is financially sustainable.
- There were 98 public presentations and 107 speakers presented to Council.
- Risk management services shared with Baw Baw Shire Council has achieved cost efficiencies.
- 2,300 (12%) of ratepayers elected to pay rates using the new nine monthly instalment option.
- 75% of IT Capital projects have been completed, slightly below the target of 80%.
- Progressing the Strategic Review of Landholdings Project with 18 properties identified for sale in the 2015/16 Land Sales Program.

COUNCIL PLAN INITIATIVES ACHIEVED

89%

OF COUNCIL'S OBJECTIVES

The following community engagement activities took place and informed the 2016/17 Annual Budget and future Council Plan:

• **2016/17 Annual Budget and Annual Plan**

- online forum, community workshop conducted in October 2015 and individual public presentations to Council;
- S223 hearing of submissions to the Proposed 2016/17 Annual Budget;
- Community consultation and a workshop held in February 2016 to consider the proposed Community Budgeting initiative.

Our Challenges

- The Minister for Local Government announced a 2.5% cap to the rate increase for the 2016/17 financial year. A rate cap is likely to remain in place for the foreseeable future.
- Due to this change in legislation, Council will receive \$38.9M less in rates and charges revenue over a 14 year period in comparison to the previously adopted 2015/16 Budget and Long Term Financial Plan.
- Council's focus on improving productivity and achieving efficiencies will, in part, assist the anticipated loss of revenue in future years. The community will be invited to provide suggestions on the priorities for future investment, given this restriction in funding.
- Continuing cost savings initiatives, endorsed by Council for Coal Creek Community Park and Museum in August 2015.
- Strategic planning for Council's caravan parks.
- Providing the level of support necessary to assist with Section 86 Committee responsibilities.
- Managing the community's expectations of funding for new infrastructure, such as building upgrades, as higher service levels are sought from Council.
- Addressing community concerns with the Strategic Review of Landholdings Project in order for them to develop an understanding of the project's objectives and benefits.
- Knowledge and management of non-council assets on Council land.
- Costs associated with managing a large property and aged building portfolio.
- Managing social media and communications.
- Competing with other regional councils for State/Federal Government grant funding for Council projects.
- Planning for the digital environment.
- Considering how best to manage the responsibility of seawalls.
- Recognise climate change and adapt to meet this challenge.
- Planning for the reduction of Roads to Recovery Funding from 2017/18 onwards.
- Reviewing the Recreation Strategy, Open Space Strategy, and the Paths and Trails Strategy.

Our Future

- Council has restructured the organisation to position itself for the future. The use of technology to support service delivery is a key element of the restructure aimed at increasing the efficiency and effectiveness of service delivery.
- The future funding arrangement of the Home and Community Care Service by the Federal Government has been reviewed. Council will need to consider the best way to respond to the government changes planned for this service.
- Slight but steady population growth is expected in future years for the Shire. The Nyora and Poowong areas are anticipated to have the greatest levels of growth, once reticulated sewerage is provided and subdivision completed.
- The Gippsland Local Government Network is undertaking a regional benchmarking project of internal services that will allow us to compare information, collaborate on better ways to work together and pursue best practice improvements to the delivery of services.
- Commencement of the Port Welshpool Long Jetty redevelopment project.
- All Section 86 delegations will be reviewed to streamline processes and to provide the level of support necessary to assist with Section 86 responsibilities.
- Transition into a paperless office environment.
- Review and adoption of the Asset Management Policy and Strategy, including updating the Asset Management Plans by 30 June 2017.
- Consider the recommendations from the Municipal Precinct Study, which includes a new library and community centre.

Overview

MESSAGE TO THE MINISTER

Dear Minister,

We would like to take this opportunity to commend this document to you. The Annual Report on the activities of Council for the 2015/16 financial year is a worthy measure of our achievements.

South Gippsland Shire Council continues to deal with the pressures of balancing community needs and our capacity to raise the revenue required to meet those needs. With a small population in a large geographical area, the reality is that we are always challenged to manage the asset renewal gap, particularly as we framed the budget for the 2016/17 year in the context of your government's Fair Go Rates policy. As a rural Council we only have one substantial revenue source: rates.

While we have been able to successfully frame a budget for 2016/17, the implications for our community and its assets will be more pronounced the longer the policy endures. As a result of the policy we are forecasting a cut to our revenue by \$38.9M between now and 2030.

As a consequence of Councils no longer being able to levy sufficient rates to provide the services and asset maintenance their communities expect without seeking an exemption through the Essential Service Commission, competition for grants will intensify. Thus far we have been quite successful in attracting funding to our municipality, but we fear that this may not be the case into the future.

Over 2015/16 we advocated on behalf of our community for a number of projects, particularly the key priority projects as identified by Council. Three of the five key priority projects had been committed to by 30 June, namely the Long Jetty rehabilitation at Port Welshpool; the Northern Towns Connection project to secure a potable water supply to Korumburra and surrounds; and the Black Spur re-alignment at Koonwarra (Federal commitment only).

At the end of June 2016, Council's financial position remained strong with over \$500M of community assets under Council's stewardship. The operating result of \$4.23M was in line with the forecast outcome of \$2.50M.

A significant restructure of the organisation was implemented at the beginning of the financial year, as we adapted the way we work to meet the challenges of an ever-changing economic and political environment. We will continue to undertake further service reviews and to implement new systems and processes to improve our responsiveness to community needs, including taking up further opportunities for shared services.

I would like to thank all staff and volunteers who work for our organisation on behalf of their community. They have, as always, done an outstanding job. As mentioned above, a significant restructure came into place at the start of 2015/16 and it is a reflection on the professionalism and commitment of the staff that there was no diminution of service levels. The highlights within this Annual Report are a true testament to the work achieved.

FINANCIAL OVERVIEW

Financial Overview

Council's financial position continues to remain sound. A summary of our performance is outlined below. Detailed information relating to Council's financial performance is included within the Financial Statements and Performance Statement sections of this Report.

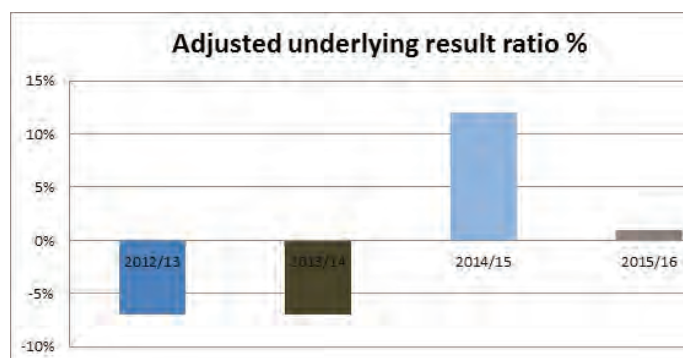

Operating Position

Council achieved a surplus of \$4.23M in 2015/16. This surplus compares unfavourably to the prior year surplus of \$9.98M. As per the Comprehensive Income Statement in the Financial Report, the unfavourable variance is mainly due to the Australian Accounting Standard requirement to recognise \$4.27M Victoria Grants Commission allocation for 2015/16 as income in 2014/15 because it was received in advance.

The adjusted underlying surplus of Council, after removing non-recurrent capital grants, cash capital contributions and non-monetary capital contributions, is a surplus of \$0.59M or (1)% when compared to adjusted underlying revenue. This compares favourably to the expected target of >0%.

The ratio compares unfavourably to the prior year result of 12%. Again, this indicator is impacted by the Australian Accounting Standard requirement to recognise grant income as revenue when Council receives the grant. Sustaining an adjusted underlying

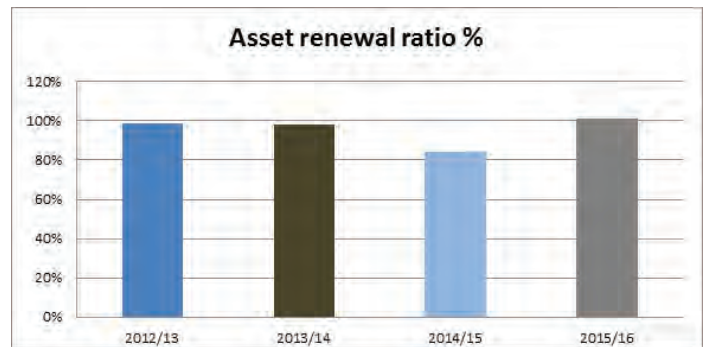

surplus is a critical financial strategy that provides capacity to renew over \$500M of community assets under Council's control.

Liquidity

Cash (this includes 'cash and cash equivalents' and 'other financial assets') has decreased by \$1.48M from the prior year. The working capital ratio which assesses Council's ability to meet current commitments is calculated by measuring Council's current assets as a percentage of current liabilities.

Council's result of 240% is an indicator of satisfactory financial position and within the expected target band of 100% to 300%.

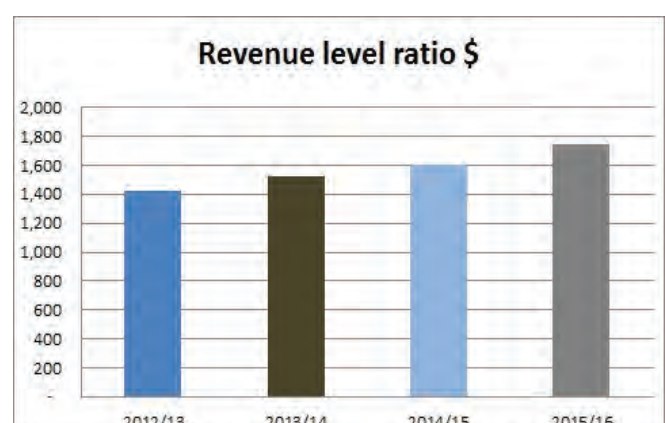

Obligations

Council aims to ensure that it is able to maintain its infrastructure assets at the expected levels, while at the same time continuing to deliver the services needed by the community. To bridge the infrastructure gap, Council invested \$10.71M in renewal works during the 2015/16 year.

At the end of the 2015/16 year, Council's debt ratio which is measured by comparing interest bearing loans and borrowings to rate revenue was 9% which indicates that Council has no concern over its ability to repay debt. Council's asset renewal ratio, which is measured by comparing asset renewal expenditure to depreciation, was 101% which was within the expected target band of 90% to 110%. Council carried forward \$2.54M capital works funding into 2016/17 for projects that had not been completed by 30 June 2016.

Stability and Efficiency

Council raises a wide range of revenues including rates, user fees, fines, grants and contributions. Council's rates concentration which compares rate revenue to adjusted underlying revenue was 65% for the 2015/16 year which is in the mid-range of the expected target band of 40%-80%. This indicator has again been impacted upwards by the Australian Accounting Standard requirement to recognise grant income as revenue when Council receives the grant. The average rate per residential assessment is \$1,741.

Economic Factors

Council was faced with a financial challenge following the Federal Government announcement that it would freeze the indexation on Victoria Grants Commission allocation to councils for three years to 2016/17.

Major Changes

In the last three months of the of the 2014/15 financial year, the Chief Executive Officer coordinated a restructure of the organisation as a means to establish a strong foundation for the future. The restructure became effective on 1 July 2015.

The Rating Strategy 2014-2018 provides a more equitable distribution of the rates. The Municipal Charge was removed and a new differential rating structure for land types developed. The changes resulted in increases for higher valued properties and decreases for lower valued properties. The strategy has been implemented over two years, as the changes were considered too significant to implement in one year.

Description of Operations

South Gippsland Shire Council is responsible for more than 100 services, from family and children's services, traffic regulation, open space, youth facilities, waste management and community buildings; to matters concerning business development, planning for appropriate development and ensuring accountability for Council's budget.

This broad range of community services and infrastructure for residents supports the wellbeing and prosperity of our community. Council's vision, strategic objectives and strategies to further improve services and facilities are described in our Council Plan 2013-2017 and the associated Annual Budget 2016/17 and reported upon in this document. Refer to the section on Our Performance for more information about Council services.

The delivery of services, facilities, support and advocacy to achieve the Strategic Objectives is measured by a set of service performance indicators and measures. Council also has a wide range of responsibilities under Victorian and Australian legislation.

- Reconstruction of gravel trail from Welshpool to Port Welshpool including drainage upgrade, fencing, gates, vegetation clearing and the construction of an asphalt shared path along the foreshore at Port Welshpool from the foreshore toilets to the Long Jetty Caravan Park.

Leongatha Skate Park

- Demolition and construction of a new skate park in the Leongatha Recreation Reserve.

Nyora Hall Refurbishment

- Successfully completed renovations which included re-roofing and damp proofing to prevent 'rising damp' on external walls of the hall. Improvements were also made to the court yard and meeting room areas.

Waste Management

Four projects

\$1.5M spent including:

Koonwarra Landfill - Cell 4 construction

- New landfill cell which will accommodate approximately five to six years' worth of waste.

Leongatha CBD Recycling Project

- Successfully completed the replacement of litterbin infrastructure with new public place recycling bin enclosures with the aim to divert waste from landfill and recover materials for recycling (grant funded project).

SHIRE AT A GLANCE

South Gippsland Shire Council is located in coastal south eastern Victoria, approximately 100km south-east of Melbourne. It is made up of three wards (Tarwin Valley, Strzelecki and Coastal-Promontory), each represented by three Councillors.

South Gippsland is named for the southern part of Gippsland, which honoured Sir George Gipps, the then Governor (1838-1846). The original inhabitants of the South Gippsland area were the Gunnai, Bun Wurrung and Wurundjeri Aboriginal people. South Gippsland Shire Council was formed in 1994 from the amalgamation of four municipalities.

The Shire is bounded by Cardinia and Baw Baw Shires to the north, Latrobe City and Wellington Shire to the east, Bass Strait to the south, and Bass Coast Shire to the west.

The Shire is a rural, residential and tourist area. It encompasses 3,308 square kilometres, including extensive coastal areas and the spectacular Wilsons Promontory National Park. Much of the rural area is used for forestry and agriculture; with dairy, beef, sheep, and snow pea farming being the main agricultural pursuits. Fishing, viticulture and tourism are also important industries that contribute economic diversity to the region.

Other major attractions of the Shire include Cape Liptrap Coastal Park, Strzelecki Ranges, Coal Creek Community Park and Museum, the Great Southern Rail Trail, Grand Ridge Rail Trail, Nyora Speedway, Stony Creek Racecourse, Agnes Falls and specialist wineries.

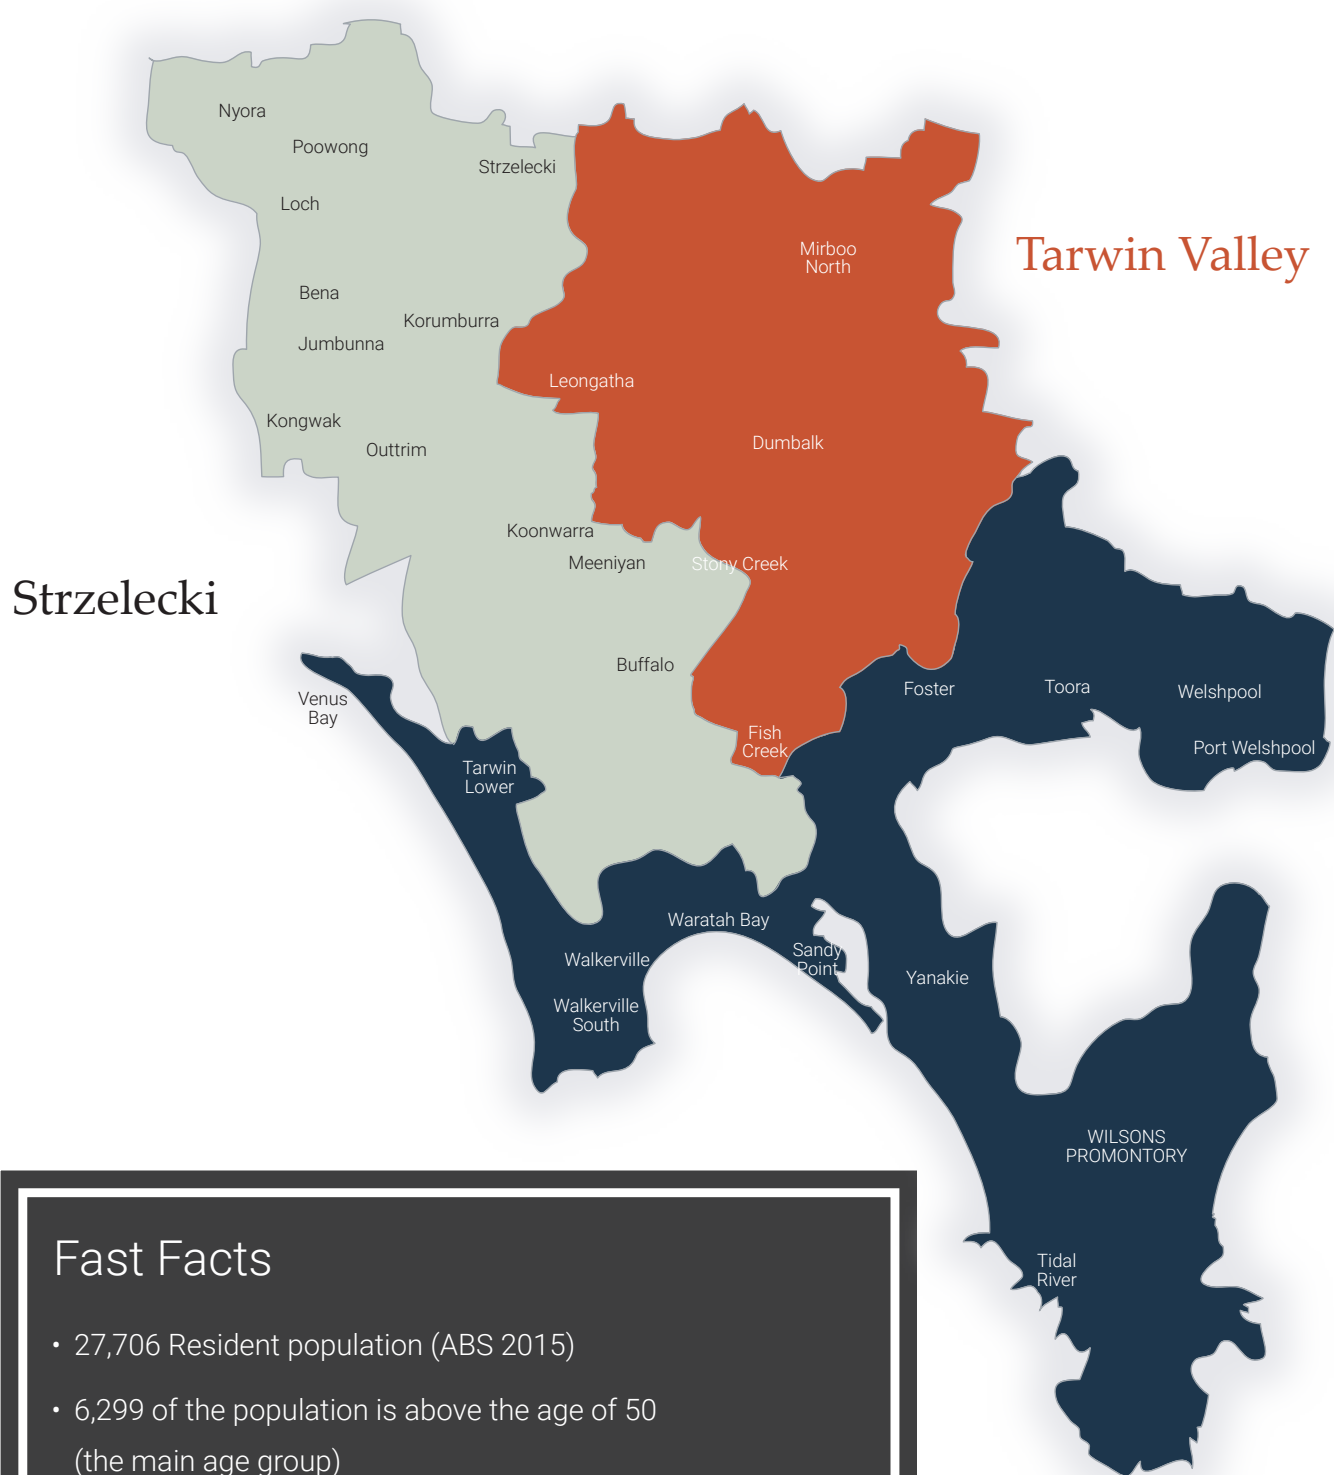

The major towns in South Gippsland are Leongatha, Korumburra, Mirboo North and Foster. Other townships include Dumbalk, Fish Creek, Loch, Meeniyar, Nyora, Poowong, Port Welshpool, Sandy Point, Tarwin Lower, Toora, Venus Bay and Welshpool. There are also many other small rural hamlets.

Coastal Promontory

Purpose

Council's role is to provide leadership for the appropriate governance of the Shire and its local communities. Council undertakes its responsibilities in accordance with the Local Government Act 1989 (the Act) and other Acts for the peace, order and good government of the Shire.

Council's Vision 2020, developed in 2006/07, represents the aspirations of our diverse communities and articulates a vision of what South Gippsland should be like in the year 2020. The vision has been refined slightly by the current Council to reflect changing community needs and expectations.

This vision still aspires to achieve a number of key outcomes with the aim of creating South Gippsland as a place which has:

- A caring community where people feel safe and secure.
- A wide range of recreation and leisure amenities.
- High grade transport links.
- Appropriate infrastructure to meet community needs.
- Respect for the environment by being clean and green.
- Sustainable economic growth.
- Coordinated health services.
- Youth who are valued and participate in the community.
- A sustainable agricultural industry, including direct and indirect support for businesses.
- A sustainable thriving tourism industry.

Restructure

From 1 July 2015, Council adopted a new organisational structure, which resulted in a reduction from four Directorates, to three Directorates. Greater functional alignment, through streamlining the management structure, has resulted in a reduction of FTE, and greater operational efficiency and effectiveness throughout the 2015/16 financial year.

Professional Development

Through a strong commitment to professional development of all staff, Council is creating a workforce with the necessary skills, qualifications and expertise to undertake roles to deliver effective and efficient services to the South Gippsland community, now and into the future.

Leadership Development

Leadership Development Program for Supervisors

This program increased leadership capacity to facilitate behavioural change through establishment of clear performance expectations through effective coaching, development, performance management, communication and recognition of our people.

Community Engagement

Selected Council staff participated in a Certificate in Engagement by IAP2 course, aimed at improving the practice of public participation and community engagement. This was offered in partnership with a neighbouring council. This program also resulted in strengthened professional partnerships and engagement practice across municipal borders.

Corporate Training and Development

A diverse range of corporate training programs were delivered throughout 2015/16, across the following broad categories;

- Safety and Wellbeing
- Financial and Information Management
- Management and Leadership
- Diversity and Inclusion
- Personal Development
- Systems and Process
- Employee Performance Development.

Employee Performance Development

A new approach to employee performance development was developed for implementation in 2016/17. The new approach seeks to provide the various areas of Council with greater flexibility in how they approach staff development, through customisable plans under an established best practice framework. This program was developed collaboratively by a cross- organisational team drawn from staff at various levels.

Training & Development

As part of developing health and safety knowledge and capability, a wide range of training has been provided including:

- Drug and alcohol awareness
- Occupational Health & Safety (OH&S) for Leaders
- Manual Handling
- AgVet Chemical Handling
- Confined space entry
- Chainsaw operation
- Working at heights
- Conflict resolution.

This complements ongoing internal education sessions, OH&S inductions for new staff and equipment specific training that is provided.

Equal Employment Opportunity (EEO) Program

South Gippsland Shire Council is dedicated to providing a workplace that is free from all discrimination, bullying and harassment in which each employee is treated with dignity, courtesy and respect.

Council is committed to achieving and maintaining high quality working relationships within the organisation. It recognises that this is essential for the well-being of all people in the workplace to maximise individual employee skills and abilities, achieve business objectives and maximise productivity.

The organisation adopts a proactive approach towards prevention of discrimination, through initiatives such as the EEO Contact Officer and employee training opportunities. A number of measures are also in place to effectively manage any arising issues, including the embedding of contemporary workforce policies and procedures, employee support programs and grievance mechanisms within the organisation.

Enterprise Agreement

Council's current Enterprise Agreement has a nominal expiry date of 30 June 2016, however it remains in effect until such time that a new agreement is approved. Council has worked with staff and the relevant unions to deliver a new enterprise agreement that will continue to take us forward in the years to come. The new Enterprise Agreement seeks to facilitate successful organisational delivery of the Council Plan, within the dynamic pressures and opportunities of the changing Victorian Local Government landscape. The Enterprise Agreement has been submitted to the Fair Work Commission for consideration.

Preventing Violence against Women

Enshrined within Council's Workplace Health & Wellbeing Plan, prevention of violence against women has been identified as a strategic priority for the organisation and has brought about the establishment and implementation of a range of violence prevention initiatives, activities and events, driven by the internal working group.

The key highlight was the White Ribbon Breakfast attended by a large number of employees and Councillors. Speakers from Victoria Police and Gippsland Women's Health highlighted the link between gender equity and family violence. Staff and Councillors made pledges to the 'Make the Link' campaign and the event was strongly promoted to all staff.

Reporting

VICTORIAN PLANNING & ACCOUNTABILITY FRAMEWORK

The Local Government Act 1989 requires Council to prepare the following planning and reporting documents:

- A Council Plan within the six months after each general election or by 30 June, whichever is the later;
- A Strategic Resource Plan for a period of at least four years and include this in the Council Plan;
- A Budget for each financial year;
- An Annual Report in respect of each financial year.

The following diagram shows the relationship between the key planning and reporting documents that make up the planning and accountability framework for local government. It also shows the opportunities for community and stakeholder input and feedback at various stages of the planning and reporting cycle.

COUNCIL PLAN 2013 - 2017

The Council Plan is a legislative requirement where each local government must adopt a four-year strategic plan. The Council Plan provides guidance and direction by setting organisational goals, outcomes, strategies, actions, resource requirements and performance measures for the four year term of Council. The following are the four strategic objectives as detailed in the Council Plan 2013-2017:

Outcome 1: A Prosperous Shire

Objective 1.1
Work with the business community to support existing businesses, diversify employment opportunities and to attract new businesses.

Objective 1.2
Raise the awareness of local and regional issues with State and Federal decision makers.

Objective 1.3
Improve the sustainability of the local and regional environment.

Outcome 2: Closely Connected Communities

Objective 2.1
Engage and work collaboratively with our community.

Outcome 3: Integrated Services & Infrastructure

Objective 3.1
Deliver affordable modern community services and facilities through an integrated approach to planning and infrastructure development.

Outcome 4: A Leading Organisation

Objective 4.1
Improve the financial sustainability of Council, including diversifying revenue streams.

Objective 4.2
Pursue best practice in organisational development and operations of the organisation.

The following section provides a report of Council's performance against each strategic objective in the Council Plan 2013-2017. Performance has been measured as follows:

- Results achieved against the strategic indicators for each objective in the Council Plan;
- Progress against the Major Initiatives and the Initiatives set out in Section 3 of the 2015/16 Annual Budget;
- Services funded in the 2015/16 Annual Budget by Department supporting the achievement of each objective;
- Results against the prescribed service performance indicators and measures.

STRATEGIC OBJECTIVE 1

A PROSPEROUS SHIRE

Major Initiatives

The following statement reviews the progress of Council in relation to major initiatives identified in the 2015/16 Budget for the year:

No.	Major Initiatives	Action/Target	Progress
1.1	In July 2014 Council adopted a new green waste kerbside collection to commence in July 2015, in response to growing community requests. The service will be provided to residential properties in towns where Council based waste collections exist.	Establish a baseline for the collection of green waste volumes by weight.	<p>Target Achieved</p> <p>The contractor has provided monthly data on quantities collected and the number of green waste bins put out for collection. This will be used as a baseline to evaluate future year's collections.</p> <p>1,700 tonnes of green waste collected through the service in the 2015/16 year. This is more than was projected when planning for the service.</p>
	Sustainable Communities	Cost of the kerbside green waste bin collection service recorded based on the direct cost of green waste collected divided by the number of kerbside green waste collection bins.	<p>Target Achieved</p> <p>Total cost for the kerbside green waste collection service for 2015/16 was \$531,999 with 7,113 properties serviced. This cost is fully recovered through service charges.</p>
1.2	Building on Steep Slopes planning control guidelines will be established to ensure appropriate subdivision and development on steep slopes.	The planning control guidelines will be presented to Council for adoption by 30 June 2016.	<p>Target Achieved</p> <p>A report, including planning control guidelines, was presented to Council and adopted in May 2016.</p>
	Planning		
1.3	The Environmental Significance Overlay (ESO 5) for areas subject to erosion will be reviewed and accurate area mapping established to reduce the number of planning permits that are triggered by the current controls.	The revised Environmental Significance Overlay will be developed and presented to Council for adoption by 30 June 2016.	<p>Target Achieved</p> <p>A report, including planning control guidelines, was presented to Council and adopted in May 2016.</p>

Governance

COUNCIL'S GOVERNANCE

South Gippsland Shire Council is constituted under the Act to provide leadership for the good governance of the municipal district and the local community. Council has a number of roles including:

- responsibly taking into account the diverse needs of the local community in decision making;
- providing leadership by establishing the policy direction of Council, setting strategic objectives to be achieved and monitoring progress;
- achieving good governance through delegations of authority and establishing frameworks for the management of advisory portfolio committees and formally appointed Section 86 Committees of Council;
- advocating the interests of local communities to other communities and governments, including external funding to supplement Council and Community funded projects;
- ensuring resources are managed in a responsible, accountable and sustainable manner; and
- fostering community cohesion and encouraging active participation and engagement in civic life and decision making.

Council is committed to effective and sustainable forms of democratic and corporate governance as the key to ensuring the Council and its administration meets the community's priorities. The community has many opportunities to provide input into Council decision making processes including community consultation and engagement activities, public presentations to Council, community workshops/forums and the ability to make formal submissions to major

strategic documents. Community members and groups are also able to speak directly to Councillors, submit petitions and ask questions in public question time at Council Meetings.

Council's formal decision making processes are conducted through Ordinary and Special meetings of Council. Council delegates the majority of its decision making to Council staff. Council has also delegated decision making for specific facilities/reserves through Section 86 Committees.

Council Meetings are held on the fourth Wednesday of each month and are open to the public.

Public presentation sessions are held on the third Wednesday to allow Councillors fair consideration of the issues before the next meeting. Public presentation sessions are also available on the fourth Wednesday of the month. Meeting dates may change if the meeting falls on a public holiday. All meetings are advertised each week in local newspapers under Council Noticeboard and on the Council's website.

Code of Conduct

Improved governance was the focus of the State Government’s 2015 amendments to the Local Government Act 1989. Under the Act, Council was required to review and amend its Councillor Code of Conduct policy by 30 June 2016.

At a Special Meeting of Council held on 25 May 2016, the revised and amended Councillor Code of Conduct policy was adopted by Council and signed by all Councillors. This policy is designed to:

- Assist Councillors to maintain the highest standards of conduct and behaviour as well as provide a means to deal with problems they may encounter;
- Attract the highest level of confidence from Council’s stakeholders; and
- Assist the Mayor and Councillors to discharge the responsibilities of their public office appropriately.

In addition to setting out the Councillor Conduct principles, the Code also outlines:

- Other conduct definitions under the Act, such as those relating to misuse of position, improper direction, breach of confidentiality and conflict of interest;
- Roles and relationships; and
- Dispute resolution procedures.

Two Councillor Conduct Panels were requested by Councillors in 2015; with both Panel hearings being held in January 2016. A report on the findings and recommendations of the first Councillor Conduct Panel was presented to the 27 April 2016 Council Meeting and the second at the 22 June 2016 Council Meeting. Both Councillor Conduct Panel Reports were provided to the Minister of Local Government.

Conflict of Interest

Councillors are elected by the residents and ratepayers to act in the best interests of the community. This is a position of trust that requires Councillors to put aside personal interests to make decisions in the public interest.

A conflict of interest occurs when a personal or private interest might compromise the ability to act in the public interest. A conflict of interest exists even if no improper act results from it. Declaration of a conflict of interest is a standard agenda item for all Council and Committee meetings.

A register is maintained to record all disclosed conflict of interests for Councillors and staff. The following table provides a summary of the conflict of interest disclosures made by Councillors’ during 2015/16.

Conflict of Interest	Number of Declarations
Indirect Interest	27
Direct Interest	5
Total	32

Council Meetings

Council aims to ensure its decision making is informed; having considered the legislative requirements it must meet and the diverse needs and opinions of the community. Assemblies of Councillors are held in open and closed briefing sessions to provide the background information Councillors require to consider matters being brought before Council. The topics covered and Councillors attending these sessions are reported in the Ordinary meetings to provide transparency.

Public participation sessions are Assemblies of Councillors that provide an opportunity for community members to present issues of interest to Council. These sessions allow community members affected by potential decisions of Council to present their viewpoint to assist and inform Council's decision making processes. These sessions are held on the third and fourth week of the month, prior to each Ordinary meeting.

Council conducts open public meetings, known as Ordinary meetings on the fourth Wednesday of each month. Members of the community are welcome to attend these meetings and observe from the gallery. Council meetings also provide the opportunity for community members to submit a question to Council.

In 2015/16, Council held the following meetings:

- 11 Ordinary Council meetings
- 4 Special Council meetings
- 1 Special Committee meeting
- 153 resolutions were determined

Councillor Allowances & Expenses

In accordance with Section 74 of the Act, Councillors are entitled to receive an allowance while performing their duty as a Councillor. The Mayor is entitled to receive a higher allowance.

Each Council must determine the precise annual amount to be paid to the Mayor and Councillors by way of a Council resolution. This must be done by 30 June in the year following a general election. The amount must be within the limits of the Council Category set by the Victorian Government, and will apply and remain in effect from the day of resolution until the time of the next election.

In accordance with Section 75 of the Act, Council is also required to reimburse a Councillor for expenses incurred whilst performing their duties as a Councillor and adopt and maintain a policy in relation to this. The Councillor Support and Expenditure Policy adopted 25 March 2015, provides guidance for the payment of reimbursements of expenses and the provision of resources, facilities and other support to the Mayor and Councillors to enable them to conduct their duties.

The following table contains a summary of the Councillor allowances and expenses for 2015/16:

*Cr Harding (Mayor) from July 2015 to 4 November 2015. Allowance includes \$440 Remoteness Allowance.

*Cr Newton (Mayor) from 4 November 2015 to July 2016.

*Cr Hill Mobile/iPad costs include \$645 for phone, fax and modem support service to improve remote connectivity purposes.

*Training & professional development expenses of Cr Kieran Kennedy include \$2,400 for completing a Diploma of Local Government. Cr Harding expenses include interstate travel and accommodation to support her appointment as the Chair of the South Eastern Australian Transport Strategy Inc. (SEATS)

Expense Categories

Training & Professional Development

This category covers registration fees associated with attendance by Councillors generally held within Victoria at one-off or short-term conferences, training and professional development courses held by local government related organisations, professional bodies or institutions. These include accommodation, conference, parking-related expenses and airfares where applicable. Cr Harding has attended interstate events associated with her appointed position on the South East Australian Transport Strategy Inc. (SEATS).

Travel Expenses & Car Mileage

Council's Councillor Support and Expenditure policy and Councillor Vehicle policy provide for the reimbursement of car mileage, depreciation, insurance and/or use of private vehicle while conducting Council business. Councillors' use of private vehicles is at the prescribed rate of reimbursement. Reimbursements also include parking fees and public transport costs.

Councillor Allowances & Superannuation

The Victorian Government sets the upper and lower limits for all allowances paid to Mayors and Councillors. Councils are divided into three categories based on the income and population of each Council. In this instance South Gippsland Shire Council is recognised as a Category 2 Council and allowances are paid at the top level within this category. Allowances are paid in accordance with Section 74 of the Act.

IT & Communication Support

Councillors are supplied with mobile devices, iPad, laptop and 4G Wireless internet service and/or modem support. The cost of providing these services is paid by Council.

Printing, Sound Recording & Transcript Request

Council provides access to fax, photocopying and printing which is made available at Council offices. Printing and audio recording transcription costs have been included in the report from the Quarter ended 30 June 2016.

Councillor Discretionary Grants

Councillors provided discretionary funds to individuals and community groups to undertake smaller activities that do not generally fit within the guidelines for the Community Grants Program. The provision of Discretionary Grants ceased, following changes made in the Act in October 2015. The Discretionary Grants allocated prior to the legislation change by Councillors for 2015/16 are outlined below:

MANAGEMENT FRAMEWORK & AUDITING

Council has implemented a number of statutory and better practice items to strengthen its management framework. Having a strong governance and management framework supports better decision making by Council. The Act requires Council to undertake an assessment of its governance against the prescribed Governance and Management Checklist and include this in its Annual Report. The following items have been highlighted as important components of the management framework.

Audit Committee

The Audit Committee is an independent advisory committee of Council established under Section 139 of the Act. The role of the Audit Committee is to oversee and monitor Council's effectiveness in carrying out its responsibilities for accountable financial management, corporate governance, maintaining an effective system of internal control and risk management, and fostering an ethical environment.

The Audit Committee consists of three independent members, Dr Irene Irvine (Chair), Dr Craig Nisbet, and Dr John (AJ) Purcell, and two Councillors, who from the 30 November 2015 meeting were Cr Newton (Mayor) and Cr Brunt. Independent members are appointed for a three year term, with a maximum of two terms. The chair is elected from amongst the independent members.

The Audit Committee met four times in 2015/16. The Internal Auditor (HLB Mann Judd), Chief Executive Officer and Director Corporate & Community Services

attended all Audit Committee meetings. Other management representatives attended as required to present reports. The external auditors attended the September 2015, March 2016 and June 2016 meetings to present the audit plan and independent audit report.

Internal Audit

Council's internal audit function provides independent and objective assurance that the appropriate processes and controls are in place across Council. This function is outsourced to HLB Mann Judd, which was appointed, following a public tender in June 2011, for an initial term of three years which concluded in 30 June 2014. Council subsequently exercised its two, one year extension options; the second extension expired on 30 June 2016.

An internal auditor will be appointed for a three year term with a three year extension option from 1 July 2016 following a public tender process.

A risk based Internal Audit Program (IAP) is revised annually to ensure the audit resources remain focused on the appropriate areas. The review process considers Council's risk framework, the Council Plan, the impact of any change on operations, systems or the business environment, prior audit coverage and outcomes and management input. The IAP is reviewed and approved by the Audit Committee annually.

The Internal Auditor attends each Audit Committee meeting to report on the status of the IAP to provide an update on the implementation of audit recommendations and to present findings of completed reviews. The responsible Director for each area reviewed attends the Audit Committee meeting to respond to questions in relation to the review. All audit issues identified are risk rated. Recommendations are assigned to the responsible Manager and tracked in Council's Internal Audit Action Plan. Managers provide six-monthly status updates that are reported to Council's Strategic Risk Committee and Audit Committee.

The IAP for 2015/16 was completed with the following reviews conducted:

- Credit Cards and Gift Register;
- Council Governance;
- Payroll and WorkCover.

External Audit

Council is externally audited by the Victorian Auditor-General Office (VAGO). For the 2015/16 year the annual external audit of Council's Financial Statements and Performance Statement was conducted by the Victorian Auditor-General's representative. The external auditors attended the September 2015, March and June 2016 Audit Committee meetings to present the annual audit plan and Independent Audit Report. The external audit management letter and responses are also provided to the Audit Committee.

RISK MANAGEMENT

In May 2012, Council adopted the Risk Management Framework and Policy in line with current best practice in the management of business enterprise risks and current AS/NZS 31000 guidelines.

The Risk Management Framework and Policy addresses items such as:

- risk management culture;
- communication and training;
- best practice in risk management;
- responsibilities of and to internal and external stakeholders;
- risk registers;
- Business Continuity Plan review; and
- Council planning cycle, budget cycle and annual audit cycle.

Council's risk management objectives are to:

- Integrate risk management practices into all of Council's work practices.
- Promote and support best practice risk management throughout Council.
- Equip staff and management with the knowledge and ability to identify, analyse and prioritise areas of risk to Council.
- Implement effective processes to reduce and/or eliminate high-level risk.
- Continuously improve risk assessment, monitoring and reporting standards.
- Allow for the effective allocation and use of resources.
- Provide a basis for higher standards of accountability through the creation of effective performance objectives and measurement of performance against these objectives
- Manage appropriate cover and minimise costs associated with insurance and litigation.

OCCUPATIONAL HEALTH & SAFETY (OH&S)

Council has maintained its emphasis on ensuring the health, safety and wellbeing of all employees, contractors, volunteers and other people who may be affected by its operations. This is being achieved through:

- proactive identification and management of health and safety risks.
- developing the health and safety knowledge and capability of all people.
- strengthening the health and safety resilience of all people.

Specific initiatives completed over the past 12 months include:

- Review of Council's safety culture enabling global benchmarking.
- Mobile incident reporting app for outdoor workers.
- Review and improvement of all work safety processes.

Council has a pro-active Occupational Health and Safety Committee that considers ways of minimising injuries and accidents, monitors trends and advises improvements to policies pertaining to health and safety.

Number of reported hazards/ incidents & injuries year-on- year

By providing more emphasis on awareness and focus on OH&S, incidents and hazards have decreased over the past few years, while the number of injuries has remained relatively steady.

	Incidents & Hazards	Injuries
2015/16	126	62
2014/15	140	70
2013/14	204	57

Number of reported incidents, hazards and injuries.

WorkCover hours paid (lost time in hours)

Proactive measures are being used to gauge involvement in activities which have direct and indirect impact on workplace and personal safety. Workplace inspections are performed by Managers and Health and Safety representatives to identify potential hazards, from which actions are created and tracked to ensure that the hazard is eliminated or minimised.

	Workplace Inspections Completed	Remedial Actions Completed
2015/16	53	51*
2014/15	46	Not Measured

***Measures from March 2016**

Health and Wellbeing

Council maintains a workplace that supports healthy lifestyles and encourages workforce participation in programs that are designed to improve their overall health and wellbeing.

Corporate Social Responsibility

Council also supports local not for profit organisations through a staff donations program.

STATUTORY INFORMATION

The following information is provided in accordance with legislative and other requirements applying to Council.

DOCUMENTS AVAILABLE FOR PUBLIC INSPECTION

In accordance with regulation 12 of the Local Government (General) Regulations 2015 the following are prescribed documents that are available for public inspection or copies of the documents can be obtained for the purposes of Section 222 of the Act at 9 Smith Street, Leongatha, Victoria:

- A document containing details of overseas or interstate travel (other than interstate travel by land for less than three days) undertaken in an official capacity by any Councillor or member of Council staff in the previous 12 months.
- The agendas for, and minutes of ordinary and special meetings held in the previous 12 months which are kept under Section 93 of the Act, other than those agendas and minutes relating to a part of a meeting which was closed to members of the public under Section 89 of the Act and are confidential information within the meaning of Section 77(2) of the Act.
- The minutes of meetings of special committees established under Section 86 of the Act and held in the previous 12 months, other than those minutes relating to a part of a meeting which was closed to members of the public under Section 89 of the Act and are confidential information within the meaning of Section 77(2) of the Act.
- A register of delegations kept under Sections 87(1) and 98(4) of the Act, including the date on which the last review took place under Sections 86(6) and 98(6), respectively, of the Act
- A document containing details of all leases involving land which were entered into by the Council as lessor, including the lessee and the terms and the value of the lease.
- A register maintained under Section 224(1A) of the Act of authorised officers appointed under that section.
- A list of donations and grants made by the Council in the previous 12 months, including the names of persons who, or bodies which, have received a donation or grant and the amount of each donation or grant.

Best Value

In accordance with Section 208B(F) of the Act, Council is required to report annually to its community on its initiatives carried out in relation to the Best Value Principles.

South Gippsland Shire Council incorporates Best Value Principles through regular business planning and performance monitoring processes and through a commitment to continuous improvement and innovation.

The following Best Value initiatives were undertaken during 2015/16:

- Organisational restructure review was implemented from 1 July 2015. This resulted in reduced senior management and executive leadership positions, improved alignment of teams into co-located work areas and changes to numerous positions, to better respond to changing community and organisational requirements.
- South Gippsland Shire Council and Baw Baw Shire Council commenced a shared service arrangement for the provision of risk management services. This innovative approach has maximised the skills and resources of specialist staff across the two shires.
- Investigations into future options for the Mobile Library Service commenced. Financial models and service delivery models are being considered.
- Investigations commenced into future options for the provision of Home and Community Care Services once a changed funding model is introduced by the Federal Government.

Carers' Recognition

In accordance with the Carers' Recognition Act 2012, Council is required to report annually on its care measurement obligations under Section 11 of the Act.

Council has promoted the principles of the Act who receive Council services, to people in care relationships, and to the wider community by:

- distributing printed material through relevant Council services;
- providing information to organisations represented in Council/community networks.

Council has taken all practicable measures to ensure staff, Council agents and volunteers working for Council are informed about the principles and obligations of the Act by including information on the care relationship in:

- Council induction and training programs for staff working in Aged and Disability Services, community Services and front-line positions with the general community; and
- induction and training programs for volunteers working directly with the community.

Council has taken all practicable measures to review and modify policies, procedures and supports to include recognition of the carer relationship and has provided the following additional activities and resources to recognise the care relationship.

- celebrated National Carers' week in partnership with South Gippsland Carers' Support Group to recognise carers and those they care for.
- Aged & Disability services recognised carers and the person they care for during National Carers week with a train ride from Leongatha to Nyora, providing an opportunity to talk with Council staff.
- provision of flexible respite services for carers under the Home and Community Care Program.

Contracts

During the year Council did not enter into any contracts valued at \$150,000 (inc GST) or more for goods or services or \$200,000 (inc GST) or more for works without engaging in a competitive process.

Disability Action Plan

In accordance with Section 38 of the Disability Act 2006, as Council has prepared a Disability Action Plan, it must report on the implementation of the Disability Action Plan in its Annual Report.

Council has prepared a Disability Action Plan and implemented the following actions:

- develop and implement a Volunteer Strategy that integrates the needs of people with a disability;
- promote events such as Carers' Week and International Day of People with a Disability; and
- develop accessible publication guidelines.

Domestic Animal Management Plan

In accordance with the Domestic Animals Act 1994, Council is required to prepare a Domestic Animal Management Plan at four-yearly intervals and evaluate its implementation in the Annual Report.

Council adopted the Domestic Animal Management Plan 2013-2017 in June 2013. Actions that have been completed or that are completed on an ongoing basis are outlined below:

- Source and purchase several thousand 'lifetime tags' for animal identification;
- Developed an enforcement follow up process;
- Commenced a feasibility study into the financial viability of appointing consultants to conduct animal registration compliance audits;
- Developed an 'infringement matrix' for issuing domestic animal infringement notices to ensure consistency across the team;
- Animal information articles provided for the public on a quarterly basis and made available via press releases, Facebook and Council's website;
- Lost/found dogs and cats advertised on Council's website, Facebook and local newspapers;
- Annual audits undertaken of premises where declared menacing, dangerous and restricted breed dogs are housed;
- Annual audits of properties housing excess domestic animals via Local Law permits;
- Animal registration database assessed regularly to identify unregistered Domestic Animal Businesses;
- Press releases prepared and issued for successful dog attack prosecutions;
- Menacing, dangerous and restricted breed dog legislation actively enforced;
- Training register maintained for individual officers;
- Officers attend or able to attend at least one training/networking session per year; and
- Officers provided with access to the Bureau of Animal Welfare extranet site.

Food Act Ministerial Directions

In accordance with Section 7E(6) of the Food Act 1984, if a Council, or the Chief Executive Officer of a Council, is given a direction under subsection (1), a copy of the direction must be published in the Annual Report under Section 131 of the Act. No such Ministerial Directions were received by Council during this financial year.

Freedom of Information

The Freedom of Information Act 1982 (the FOI Act) gives the community a legally enforceable right to apply for access to documents held by Council. This access is limited only by the application of exceptions and exemptions provided for under the legislation.

A valid request for access must be in writing, be accompanied by payment of the application fee and must provide enough information to enable the documents to be identified. Access charges may also apply once documents have been processed and a decision on access is made (e.g. photocopying and search and retrieval charges).

Council's Freedom of Information Officer assists the applicant in accordance with the provisions of the FOI Act and handles all requests for FOI access.

There were 13 requests under the Act, and access to seven was granted in full or in part, one was withdrawn, three denied, and there were no relevant documents for two requests.

Further information regarding FOI can be found at www.foi.vic.gov.au and on the South Gippsland Shire Council website. FOI requests can be lodged online via Council's website or in writing and addressed to the:

Protected Disclosure Procedures

In accordance with Section 69 of the Protected Disclosure Act 2012 a Council must include in its Annual Report information about how to access the procedures established by the Council under Part 9 of that Act. It is also required to provide certain information about the number and types of protected disclosures complaints investigated during the financial year.

The Protected Disclosure Act 2012 aims to ensure openness and accountability in government by encouraging people to disclose improper conduct within the public sector and provide protection for people who make disclosures. Procedures on how to make a disclosure are publicly made available on Council's website.

Council's Protected Disclosure Guidelines are available on Council's website on the Council Policies webpage. During the 2015/16 year there was one assessable disclosure which Council's Protected Disclosure Coordinator notified. IBAC subsequently advised that this was not a protected disclosure.

National Competition Policy

The Victorian Government is obligated to demonstrate that Local Government is compliant with competition policies. Council has a National Competition Policy and Council to the best of its knowledge has, in undertaking its functions, complied with Competition and Consumer legislation, has not undertaken any anti-competitive behaviour and has complied with the requirements of Council's National Competition Policy during 2015/16.

Road Management Act Ministerial Direction

In accordance with Section 22 of the Road Management Act 2004, Council must publish a copy or summary of any Ministerial direction in its Annual Report. No such Ministerial Directions were received by Council during the financial year.

PERFORMANCE STATEMENT

Description of Municipality

South Gippsland Shire was formed in 1994 from the amalgamation of four municipalities. Located 90 minutes south east of Melbourne, the Shire has a resident population of 27,706 (ABS 2015).

The Council covers an area of 3,300 square kilometres with substantial coastal frontage. South Gippsland Shire is a spectacular region, with communities nestled among the rolling green hills, and along the coast, linking the mountains to the sea.

The Shire's major centres are Leongatha, Korumburra, Mirboo North and Foster, and other significant townships include Nyora, Toora, Venus Bay, Sandy

Point, Poowong, Port Welshpool, Loch, Dumbalk, Welshpool, Meeniyan, Fish Creek, Port Franklin, Koonwarra, Kongwak and Tarwin Lower.

Key industry sectors by employment in the South Gippsland Shire at the last census in 2011 were Agriculture, Forestry and Fishing, Health Care and Social Assistance, Retail Trade, and Construction.

Sustainable Capacity Indicators

For the year ended 30 June 2016

Indicator/measure	2015	2016	Material Variations
Population			
<i>Expenses per head of municipal population</i> [Total expenses / Municipal population]	\$2,013	\$2,128	Increased costs per head of population has been impacted by emergency responses/recovery events (storm) which are funded by non-recurrent grants. The decline in municipal population over the last twelve months has also increased costs per head of population in 2015/16 compared to the 2014/15 results
<i>Infrastructure per head of municipal population</i> [Value of infrastructure / Municipal population]	\$14,743	\$16,042	The combination of a net \$29M revaluation increment, predominantly for the bridges and a decline in the municipal population in 2015/16 have contributed to the increase in the infrastructure per head of population measure when compared to the 2014/15 result.
<i>Population density per length of road</i> [Municipal population / Kilometres of local roads]	13	13	No material variations
Own-source revenue			
<i>Own-source revenue per head of municipal population</i> [Own-source revenue / Municipal population]	\$1,522	\$1,670	The decline in municipal population over the last twelve months has had a negative impact on the 'costs per head of population in 2015/16' compared to the 2014/15 results, as expenditure has been shared across a smaller population base. The accurate counts of population are established every four years through the Census.
Recurrent grants			
<i>Recurrent grants per head of municipal population</i> [Recurrent grants / Municipal population]	\$607	\$414	\$4.27M Victorian Grants Commission grants was received in advance in 2014/15. This had a positive impact on the 2014/15 ratio and an adverse impact on the 2015/16 ratio.
Disadvantage			
<i>Relative socio-economic disadvantage</i> [Index of Relative Socio-economic Disadvantage by decile]	6	6	No material variations

Definitions

"adjusted underlying revenue" means total income other than:

- (a) non-recurrent grants used to fund capital expenditure; and
- (b) non-monetary asset contributions; and

Governance			
Satisfaction			
<i>Satisfaction with Council decisions</i> [Community satisfaction rating out of 100 with how Council has performed in making decisions in the interest of the community]	44	47	While Council's results remain lower than the State average, a 3 point increase in satisfaction levels compared to 2014/15, indicates that actions taken to involve the community in informing decision making through public participation sessions and better communication of Council decisions through social and print media, are improving the community's perception of decisions made by Council
Home and Community Care (HACC)			
Participation			
<i>Participation in HACC service</i> [Number of people that received a HACC service / Municipal target population for HACC services] x 100	26%	26%	No material variations
Participation			
<i>Participation in HACC service by CALD people</i> [Number of CALD people who receive a HACC service / Municipal target population in relation to CALD people for HACC services] x 100	23%	22%	The small decrease of CALD people is due to the increase of aged care packages made available

Service Indicator/measure	2015	2016	Material Variations
Libraries			
Participation			
<i>Active library members</i> [Number of active library members / Municipal population] x 100	25%	23%	Measures those who borrow physical books and some e-resources, but not all. If the library card is not activated then a person's activity at the library is not recorded. A growing trend by members to access e-resources is impacting on comparative data
Maternal and Child Health (MCH)			
Participation			
<i>Participation in the MCH service</i> [Number of children who attend the MCH service at least once (in the year) / Number of children enrolled in the MCH service] x 100	79%	N/A	In 2016 there was an initiative to transition the majority of Victorian councils offering Maternal and Child Health services to a new database. The database is not expected to provide reliable information until the end of September 2016. Therefore, Council is not required to report this data for the 2015/16 financial year
Participation			
<i>Participation in the MCH service by Aboriginal children</i> [Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x 100	76%	N/A	In 2016 there was an initiative to transition the majority of Victorian councils offering Maternal and Child Health services to a new database. The database is not expected to provide reliable information until the end of September 2016. Therefore, Council is not required to report this data for the 2015/16 financial year
Roads			
Satisfaction			
<i>Satisfaction with sealed local roads</i> [Community satisfaction rating out of 100 with how Council has performed on the condition of sealed local roads]	27	30	More roads have been rehabilitated and/or resealed. South Gippsland Shire Council further investigated this concern of local roads through Council's OurSay Community Satisfaction survey. Of the survey results, eleven of the eighteen roads most cited were State Government roads managed by VicRoads. The top two most cited roads were also State Highways
Statutory Planning			
Decision making			
<i>Council planning decisions upheld at VCAT</i> [Number of VCAT decisions that did not set aside Council's decision in relation to a planning application / Number of VCAT decisions in relation to planning applications] x 100	0%	71%	Only one decision was reviewed in 2015. In 2016, two decisions of the seven reviewed by VCAT were set aside
Waste Collection

1. Basis of preparation

Council is required to prepare and include a performance statement within its Annual Report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the Local Government Act 1989 and Local Government (Planning and Reporting) Regulations 2014.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from Council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the Council's Strategic Resource Plan. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variations in the results contained in the performance statement. Council has adopted materiality thresholds relevant to each indicator and measure and explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material because of its nature.

The forecast figures included in the performance statement are those adopted by Council in its Strategic Resource Plan annually and which forms part of the Council Plan. The Strategic Resource Plan includes estimates based on key assumptions about the future

that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The Strategic Resource Plan 2015-2018 can be obtained by contacting Council.

Certification of the Performance Statement

For the year ended 30 June 2016

In my opinion, the accompanying financial performance statement has been prepared in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

Tom Lovass, CPA

Principal Accounting Officer

Dated: 28 September 2016

In our opinion, the accompanying performance statement of the South Gippsland Shire Council for the year ended 30 June 2016 presents fairly the results of Council's performance in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the Council and by the Local Government (Planning and Reporting) Regulations 2014 to certify this performance statement in its final form.

I have audited the accompanying performance statement for the year ended 30 June 2016 of the South Gippsland Shire Council which comprises the statement, the related notes and the certification of the performance statement.

The Councillors' Responsibility for the Performance Statement

The Councillors of the South Gippsland Shire Council are responsible for the preparation and fair presentation of the performance statement in accordance with the *Local Government Act 1989* and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the performance statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

As required by the *Local Government Act 1989*, my responsibility is to express an opinion on the performance statement based on the audit, which has been conducted in accordance with Australian Auditing Standards. Those standards require compliance with relevant ethical requirements relating to audit engagements and that the audit be planned and performed to obtain reasonable assurance about whether the performance statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the performance statement. The audit procedures selected depend on judgement, including the assessment of the risks of material misstatement of the performance statement, whether due to fraud or error. In making those risk assessments, consideration is given to the internal control relevant to the entity's preparation and fair presentation of the performance statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the overall presentation of the performance statement.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independent Auditor's Report (continued)

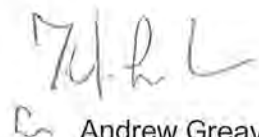

Independence

The Auditor-General's independence is established by the *Constitution Act 1975*. The Auditor-General is not subject to direction by any person about the way in which his powers and responsibilities are to be exercised. In conducting the audit, I and my staff and delegates complied with all applicable independence requirements of the Australian accounting profession.

Auditor's Opinion

In my opinion, the performance statement of the South Gippsland Shire Council in respect of the 30 June 2016 financial year presents fairly, in all material respects, in accordance with the *Local Government Act 1989*.

Introduction

South Gippsland Shire Council was established by an order of the Governor in Council on 2nd December 1994 and is a body corporate. Council's main office is located at 9 Smith Street, Leongatha.

Statement of compliance

These financial statements are a general purpose financial report that consists of a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows, Statement of Capital Works and notes accompanying these financial statements. The general purpose financial report complies with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1989*, and the *Local Government (Planning and Reporting) Regulations 2014*.

NOTE 1 Significant Accounting Policies

(a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to note 1 (k))
- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to note 1 (l))
- the determination of employee provisions (refer to note 1 (r))
- the determination of landfill provisions (refer to note 1 (s))

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

(b) Changes in accounting policies

There have been no changes in accounting policies from previous period.

(c) Committees of management

All entities controlled by Council that have material revenues, expenses, assets or liabilities, such as committees of management, have been included in this financial report. Any transactions between these entities and Council have been eliminated in full.

(d) Accounting for investments in associates

Associates are all entities over which Council has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

e) Revenue Recognition

Income is recognised when the Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to the Council and the amount of the contribution can be measured reliably.

Rates and Charges

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

NOTE 1 Significant Accounting Policies (cont.)

e) Revenue Recognition (cont.)

Statutory fees and fines

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

User fees

User fees are recognised as revenue when the service has been provided or the payment is received, whichever first occurs.

Grants

Grant income is recognised when Council obtains control of the contribution. This is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.

Where grants or contributions recognised as revenues during the financial year were obtained on condition that they be expended in a particular manner or used over a particular period and those conditions were undischarged at balance date, the unused grant or contribution is disclosed in note 6. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.

Contributions

Monetary and non monetary contributions are recognised as revenue when Council obtains control over the contributed asset.

Sale of property, infrastructure, plant and equipment

The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer.

Interest

Interest is recognised as it is earned.

Dividends

Dividend revenue is recognised when the Council's right to receive payment is established.

Other Income

Other income is measured at the fair value of the consideration received or receivable and is recognised when Council gains control over the right to receive the income.

(f) Fair value measurement

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 Fair value measurement, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

NOTE 1 Significant Accounting Policies (cont.)

(g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

(h) Trade and other receivables

Receivables are carried at amortised cost using the effective interest rate method. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred.

(i) Other financial assets

Other financial assets are valued at fair value, being market value, at balance date. Term deposits are measured at amortised cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

(j) Inventories

Inventories held for distribution are measured at cost adjusted when applicable for any loss of service potential. Inventories are measured at the lower of cost and net realisable value.

All other inventories, including land held for sale, are measured at the lower of cost and net realisable value.

Where Inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

(k) Recognition and measurement of property, infrastructure plant and equipment

Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the amount for which the asset could be exchanged between knowledgeable willing parties in an arm's length transaction.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

In accordance with Council's policy, the threshold limits detailed in Note 1 (l) have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use on an asset result in changes to the permissible or practical highest and best use of the asset. Further details regarding the fair value hierarchy are disclosed at Note 22, Property, infrastructure, plant and equipment.

In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis ranging from 1 to 3 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Land under roads

Council recognises land under roads it controls at fair value since 30 June 2008.

NOTE 1 Significant Accounting Policies (cont.)

(l) Depreciation of property, infrastructure, plant and equipment

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life.

Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are listed below and have changed compared to previous year. The impact on current value due to change in depreciation period was \$14.99M as detailed below.

Asset Category	Impact \$'000	Average useful life (Years)		Current Value \$'000

(m) Repairs and maintenance

Routine maintenance, repair costs, and minor renewal costs are expensed as incurred. Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

NOTE 1 Significant Accounting Policies (cont.)

(n) Investment property

Investment property, comprising freehold office complexes, is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to the Council. Subsequent to initial recognition at cost, investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the comprehensive income statement in the period that they arise. Rental income from the leasing of investment properties is recognised in the comprehensive income statement on a straight line basis over the lease term.

(o) Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

(p) Trust funds and deposits

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited (refer to Note 25).

(q) Borrowings

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method. The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition.

Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where they are capitalised as part of a qualifying asset constructed by Council. Except where specific borrowings are obtained for the purpose of specific asset acquisition, the weighted average interest rate applicable to borrowings at balance date, excluding borrowings associated with superannuation, is used to determine the borrowing costs to be capitalised.

Borrowing costs include interest on bank overdrafts and interest on borrowings.

(r) Employee costs and benefits

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits.

Current Liability - unconditional LSL is disclosed as a current liability even when the council does not expect to settle the liability within 12 months because it will not have the unconditional right to defer settlement of the entitlement should an employee take leave within 12 months

The components of this current liability are measured at :

- present value - component that is not expected to be wholly settled within 12 months.
- nominal value - component that is expected to be wholly settled within 12 months.

NOTE 1 Significant Accounting Policies (cont.)

(r) Employee costs and benefits (cont.)

Classification of employee costs

Non-current liability - conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non - current liability. There is an unconditional right to defer settlement of the entitlement until the employee has completed the requisite years of service. This non-current LSL liability is measured at present value.

(s) Landfill rehabilitation provision

Council is obligated to restore its Koonwarra landfill site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

(t) Leases

Operating leases

Lease payments for operating leases are required by the accounting standard to be recognised on a straight line basis, rather than expensed in the years in which they are incurred.

Leasehold improvements

Leasehold improvements are recognised at cost and are amortised over the unexpired period of the lease or the estimated useful life of the improvement, whichever is the shorter.

(u) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the Statement of Cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(v) Financial guarantees

Financial guarantee contracts are not recognised as a liability in the balance sheet unless the lender has exercised their right to call on the guarantee or Council has other reasons to believe that it is probable that that right will be exercised. Details of guarantees that Council has provided, that are not recognised in the balance sheet are disclosed at Note 34 Contingent Liabilities and Contingent Assets.

(w) Contingent assets and contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed by way of a note and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Balance Sheet. Commitments are disclosed at their nominal value by way of note and presented inclusive of the GST payable.

(x) Pending accounting standards

Certain new AAS's have been issued that are not mandatory for the 30 June 2016 reporting period. Council has assessed these pending standards and has identified that no material impact will flow from the application of these standards in future reporting periods.

(y) Rounding

Unless otherwise stated, amounts in the financial report have been rounded to the nearest thousand dollars. Figures in the financial statement may not equate due to rounding.

Notes to the Financial Statements For the Year Ended 30 June 2016

NOTE 2 Budget comparison

The budget comparison notes compare Council's financial plan, expressed through its annual budget, with actual performance. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variances. Council has adopted a materiality threshold of the lower of 5 percent or \$100K where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

The budget figures detailed below are those adopted by Council on 24 June 2015. The Budget was based on assumptions that were relevant at the time of adoption of the Budget. Council sets guidelines and parameters for revenue and expense targets in this budget in order to meet Council's planning and financial performance targets for both the short and long-term. The budget did not reflect any changes to equity resulting from asset revaluations, as their impacts were not considered predictable.

These notes are prepared to meet the requirements of the Local Government Act 1989 and the Local Government (Planning and Reporting) Regulations 2014 .

Variance	Ref.	Item	Explanation
1		Rates and charges	Supplementary waste charges were higher by \$207K and supplementary general rates were higher by \$102K
2		Statutory fees and fines	New and amendment applications received for statutory planning fees was below expected numbers. However revenue from fees in local laws was higher than estimate.
3		Grants - Operating	50% of Grants commission allocation (\$4.3M) relating to 2015-16 was received in advance in 2014-15. Further State grants for Agnes falls (\$300K) and Great Southern Rail Trial (\$500K) was not received in 2015-16. This was partly compensated by higher grants for natural disaster and a few other projects.
4		Grants - Capital	New and additional grants received for Federal blackspot program (\$667K), Child care hub (\$160K), Public jetty upgrade (\$113K), Recycling project (\$54K), Roads to recovery (\$1.4M). Grants not received was for Foster Streetscape(\$347K).
5		Contributions - monetary	Contribution expected for Child care hub (\$100K) was not received in 2015-16. This was partly compensated by higher contribution for other projects.
6		Contributions - non monetary	Developer contributed infrastructure assets was higher than estimate by \$259K.
7		Net gain on disposal of property, infrastructure plant and equipment	Most of the land sales budgeted in 2015-16 has been postponed to future years. Fleet sales were also lower than originally planned and has been carried forward to 2016-17.

NOTE 22 Property, infrastructure, plant and equipment (cont.)

Valuation of land and buildings

Valuation of Land and buildings were undertaken by Andrew Begg, AAPI (Council Employee). The basis of valuation is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movement in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Land Specialised	-	-	45,616
Land under roads	-	-	32,966
Heritage buildings	-	-	1,351
Building specialised	-	-	41,638
Total	-	-	121,571

Valuation of infrastructure

Valuation of Council's infrastructure assets was performed by John Moylan, BE Civil Engineering, MBA(Tech Mgt) (Council employee). The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Roads	-	-	267,229
Bridges	-	-	37,420
Major Culverts	-	-	8,588

Description of significant unobservable inputs into level 3 valuation

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 5% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$1 and \$826 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs is calculated on a square metre basis and ranges from \$500 to \$5000 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 20 years to 50 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 4 years to 150 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

Valuation of investment property

Valuation of investment property has been determined in accordance with an independent valuation by Marc Babos , AAPI (Council employee) who has recent experience in the location and category of the property being valued. The valuation is at fair value, based on the current market value for the property.

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a quarterly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

(a) Operating lease commitments

At the reporting date, the Council had the following obligations under non-cancellable operating leases for the lease of plant and equipment and land and buildings for use within Council's activities (these obligations are not recognised as liabilities).

Total operating lease commitments	543	848

(b) Operating lease receivables

The Council has entered into commercial property leases on its investment property, consisting of surplus freehold office complexes and a quarry site. These properties held under operating leases have remaining non-cancellable lease terms of between 1 and 10 years. All leases include a CPI based revision of the rental charge annually.

Future minimum rentals receivable under non-cancellable operating leases are as follows:

Not later than one year	139	154
Later than one year and not later than five years	296	321
Later than five years	408	450
Total operating lease receivables	843	925

NOTE 33 Superannuation

Council makes majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund (the Fund). This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2016, this was 9.5% as required under Superannuation Guarantee legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

NOTE 33 Superannuation (cont.)

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2015, an interim actuarial investigation was held as the Fund provides lifetime pensions in the Defined Benefit category. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 105.8%. To determine the VBI, the fund Actuary used the following long-term assumptions:

Net investment returns 7.0% pa

Salary information 4.25% pa

Price inflation (CPI) 2.5% pa.

Vision Super has advised that the estimated VBI at 30 June 2016 was 102 %. The VBI is to be used as the primary funding indicator. Because the VBI was above 100%, the 2015 interim actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Employer contributions

Regular contributions

On the basis of the results of the 2015 interim actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2016, this rate was 9.5% of members' salaries (9.5% in 2014/2015). This rate will increase in line with any increase to the contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

NOTE 33 Superannuation (cont.)

2015 Interim actuarial investigation surplus amounts

The Fund's interim actuarial investigation as at 30 June 2015 identified the following in the defined benefit category of which Council is a contributing employer:

A VBI surplus of \$130.8 million; and

A total service liability surplus of \$239 million.

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2015. The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses. Council was notified of the 30 June 2015 VBI during August 2015.

Future superannuation contributions

The expected contributions to be paid to the Defined Benefit category of Vision Super for the year ending 30 June 2017 is \$145,000.

NOTE 34 Contingent liabilities and contingent assets

Contingent liabilities

Superannuation

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined in Note 33.

As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists. At this point in time it is not known if additional contributions will be required, their timing or potential amount.

Landfills

Under requirement of the Environmental Protection Authority (EPA), Council has a present obligation to perform site rehabilitation works for landfills that it operates on a progressive basis. At balance date Council has made necessary provisions for rehabilitation of Landfills that are currently in operation (Refer note 26 (b)). However the estimates of provision required is dependent on the accuracy of the forecast, timing of the work, work required, and related costs.

Guarantees

Council has taken out Bank Guarantees with Commonwealth Bank of Australia as per details below:

Description	Favouree	Amount
Contract Performance Guarantee	South Gippsland Regional Water Board	\$ 40,000
Contract Performance Guarantee	Department of Energy and Minerals	\$ 15,000
Contract Performance Guarantee	Department of Natural Resources & Minerals	\$ 20,000
Security Deposit Guarantee	Environment Protection Authority	\$ 425,000
Security Deposit Guarantee	State of Victoria - Environment Protection Authority	\$ 451,296
Total contingent liability as at 30 June 2016		\$ 951,296

Contingent assets

Developer contributions to be received by Council in respect of estates currently under development total \$413K (2015 \$749K).

NOTE 35 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in Note 1 of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of our financial instruments will fluctuate because of changes in market prices. The Council's exposures to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Our interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes us to fair value interest rate risk / Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rate.

Investment of surplus funds is made with approved financial institutions under the Local Government Act 1989. We manage interest rate risk by adopting an investment policy that ensures:

- diversification of investment product,
- monitoring of return on investment,
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause us to make a financial loss. We have exposure to credit risk on some financial assets included in our balance sheet. To help manage this risk:

- we have a policy for establishing credit limits for the entities we deal with;
 - we may require collateral where appropriate; and
 - we only invest surplus funds with financial institutions which have a recognised credit rating specified in our investment policy.
- Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

We may also be subject to credit risk for transactions which are not included in the balance sheet, such as when we provide a guarantee for another party. Details of our contingent liabilities are disclosed in note 34.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of our operational liquidity requirements or we will not have sufficient funds to settle a transaction when required, we will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and
- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue.

NOTE 35 Financial instruments (cont.)

(d) Liquidity risk (cont.)

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed in the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 34, and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 27.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

e) Fair value

Unless otherwise stated, the carrying amount of financial instruments reflect their fair value

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy, Council's financial assets and liabilities are measured at amortised cost.

(f) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of + 1% and -1% in market interest rates (AUD) from year-end rates of 2%.

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

INDEPENDENT AUDITOR'S REPORT

To the Councillors, South Gippsland Shire Council

The Financial Report

I have audited the accompanying financial report for the year ended 30 June 2016 of the South Gippsland Shire Council which comprises the comprehensive income statement, balance sheet, statement of changes in equity, statement of cash flows, statement of capital works, notes comprising a summary of the significant accounting policies and other explanatory information, and the certification of the financial statements.

The Councillors' Responsibility for the Financial Report

The Councillors of the South Gippsland Shire Council are responsible for the preparation and the fair presentation of the financial report in accordance with Australian Accounting Standards, and the financial reporting requirements of the *Local Government Act 1989*.

The Councillors are responsible for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

As required by the *Audit Act 1994* and the *Local Government Act 1989*, my responsibility is to express an opinion on the financial report based on the audit, which has been conducted in accordance with Australian Auditing Standards. Those standards require compliance with relevant ethical requirements relating to audit engagements and that the audit be planned and performed to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The audit procedures selected depend on judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, consideration is given to the internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the Councillors, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independent Auditor's Report (continued)

Independence

The Auditor-General's independence is established by the *Constitution Act 1975*. The Auditor-General is not subject to direction by any person about the way in which his powers and responsibilities are to be exercised. In conducting the audit, I and my staff and delegates complied with the applicable independence requirements of the Australian Auditing Standards and relevant ethical pronouncements.

Opinion

In my opinion the financial report presents fairly, in all material respects, the financial position of the South Gippsland Shire Council as at 30 June 2016 and of its financial performance and its cash flows for the year then ended in accordance with applicable Australian Accounting Standards, and the financial reporting requirements of the *Local Government Act 1989*.
