

21.069 BUILT ENVIRONMENT AND HERITAGE

21.069-1 Heritage

28/11/2013
~~C68 Proposed~~
 C90

Overview

The *South Gippsland Heritage Study 2004* identifies the rich and diverse heritage of the Shire. Heritage places of the Shire include buildings, trees, railways, and public infrastructure. Apart from the important cultural and social values of heritage places, they provide significant economic benefits by enhancing the appeal of the Shire as a place to live, work and visit.

Objectives and strategies

Objective~~4~~

To ensure that heritage places in the Shire are used, managed and developed in a way that conserves or reveals their heritage significance.

Strategies

~~Strategy~~ 1.1 Protect heritage places from inappropriate development that would diminish their significance.

~~Strategy~~ 1.2 Support the on-going viable use of heritage places as an essential part of their conservation and management.

Implementation

Strategies relating to heritage will be implemented by:

Policy guidelines

- Using the Heritage local policy at Clause 22.04 and the South Gippsland Heritage Study 2004 to guide consideration of applications for demolition, buildings, works and subdivision of heritage places within the Heritage Overlay.

Application of zones and overlays

- Applying the Heritage Overlay to heritage places identified by the South Gippsland Heritage Study 2004 as being of national, State, or local historical significance, and to places or precincts added to the National Trust Register, Victorian Heritage Register, the Commonwealth Heritage List or the National Heritage List.

~~Further strategic work~~

- ~~• Preparing conservation management plans for heritage places, where this is a specific recommendation in the South Gippsland Heritage Study 2004~~
- ~~• Undertaking further studies to identify, document and assess places of cultural landscape, archaeological and aboriginal heritage significance~~

~~Further actions~~

- ~~• Providing support, advice and assistance to owners and custodians of heritage places to enable them to conserve and maintain heritage places~~
- ~~• Improving community awareness and understanding of the importance of heritage places~~
- ~~• Engaging the services of a Heritage Officer, as required, to consider planning applications for heritage places~~

21.069-2 Urban environment

28/11/2013
~~C68~~ Proposed
 C90

Overview

From the larger towns to the smaller settlements, South Gippsland has a range of compact urban environments in scenic rural settings. Residential development is primarily detached medium density, low profile housing. ~~Higher~~ Medium density residential development is starting to infill near the centres of the larger towns. Commercial development is also low profile and is mainly located near town intersections although some is scattered among residential development. Industrial development often clusters in the vicinity of an existing or former milk processing factory. Many locations within the urban environments offer a rural outlook. The towns of Leongatha, Korumburra, ~~Leongatha~~, Foster, Meeniyan, Mirboo North, Loch, Nyora, Poowong, Port Welshpool, Toora and, ~~Welshpool and Port Welshpool~~ are serviced by reticulated sewerage and water. Waratah Bay has reticulated sewerage but no reticulated water. Other towns and coastal areas are serviced by reticulated water only or are not serviced. Wastewater treatment facilities for some towns are approaching maximum capacity. Effluent disposal is a major problem in the smaller coastal towns, particularly in the peak holiday periods and associated influx of population.

Objectives and strategies**Objective 4**

To continuously improve all aspects of the urban environment.

Strategies

~~Strategy~~ 1.1 Retain and enhance areas of remnant vegetation within urban areas.

~~Strategy~~ 1.2 Promote the use of passive and active energy efficient systems for residential and commercial/industrial development.

~~Strategy~~ 1.3 Provide areas of open space for active and passive recreation.

~~Strategy~~ 1.4 Improve the quality of design in the coastal settlements of Venus Bay, Waratah Bay, Sandy Point and Tarwin Lower, through the implementation of the Urban Design Frameworks prepared for these areas.

Implementation

Strategies relating to urban environment will be implemented by:

Application of zones and overlays

- Applying the Design and Development Overlay schedule to the settlements of Venus Bay, Waratah Bay, Sandy Point and Tarwin Lower in order to introduce design objectives to protect the coastal character of these settlements.

~~Further strategic work~~

~~Developing and applying environmentally responsive standards and controls for residential, commercial and industrial building design~~

21.069-3 Signage and infrastructure

28/11/2013
668 Proposed
C90

Overview

Signage and infrastructure are required for information and service provision respectively for residents, businesses and visitors. Sensitivity is required in design and location of these necessary structures so they do not detract from the Shire's significant landscapes and natural environments.

Objectives and strategies

Objective 4

To minimise the visual impact of signage and infrastructure on the landscape.

Strategies

~~Strategy~~ 1.1 Avoid visual clutter across the landscape, such as large, visually intrusive or brightly coloured signage and advertising signage at settlement entrances and exits.

~~Strategy~~ 1.2 Locate infrastructure away from highly scenic locations, key views and near-coastal locations, or underground wherever possible in the case of powerlines and other utility services.

~~Strategy~~ 1.3 Locate power lines, access tracks and other infrastructure in areas of low visibility, preferably in previously cleared locations, and avoid the use of materials that contrast with the landscape.

~~Strategy~~ 1.4 Use vegetation to screen infrastructure from key viewing corridors and public use areas.

~~Strategy~~ 1.5 Encourage reticulated electricity to be provided by underground cabling.

Implementation

Strategies relating to signage and infrastructure will be implemented by:

- Applying the Advertising Signs ~~L~~ocal ~~P~~olicy ~~P~~rovisions of clause 22.01.
- Applying Significant Landscape Overlays.

21.06 BUILT ENVIRONMENT AND HERITAGE

21.06-1 Heritage

28/11/2013
Proposed C90

Overview

The *South Gippsland Heritage Study 2004* identifies the rich and diverse heritage of the Shire. Heritage places of the Shire include buildings, trees, railways, and public infrastructure. Apart from the important cultural and social values of heritage places, they provide significant economic benefits by enhancing the appeal of the Shire as a place to live, work and visit.

Objectives and strategies

Objective

To ensure that heritage places in the Shire are used, managed and developed in a way that conserves or reveals their heritage significance.
