Application Considerations

Section 188A of the Building Act 1993 requires that Council must refuse consent to a design which does not comply with Ministerial Decision Guidelines which apply to a particular regulation. Applicants will need to be fully aware of these guidelines and demonstrate that the proposal satisfies the relevant guidelines with respect to the particular regulation to avoid an automatic refusal.

Advertising

Section 188A of the Building Act 1993 provides that, if in the opinion of the reporting authority (Council) the application will result in a nearby allotment or property suffering detriment, it must give the owner of the allotment/property an opportunity to make a submission if they have any objections. The preferred method for gaining submissions from adjoining owners is for the applicant to submit neighbour response declaration forms at the time of application. Where ownership details are unknown Council will undertake any required advertising. Alternatively, if the applicant does not wish to obtain and submit the adjoining owner's submissions as part of their application, Council will independently undertake the advertising.

Correspondence

Where possible, all communication and application outcomes will be sent via e-mail. By providing your e-mail address you agree that a hard copy of the approval/refusal will not be sent via Australia Post in the mail.
