

SOUTH GIPPSLAND SHIRE COUNCIL

2017/18 Annual

Report

*South Gippsland
Shire Council*

2017/18

Welcome

South Gippsland Shire Council is committed to transparent reporting and accountability to its community. This Annual Report provides a detailed account of Council's achievements, challenges and performance measures for the 2017/18 financial year.

In accordance with the Victorian *Local Government Act 1989*, all councils are required to present an Annual Report to the Minister of Local Government by 30 September each year.

This report also demonstrates the breadth of Council's operations and the diversity of services provided to the community. A copy of the report is available on Council's website at www.southgippsland.vic.gov.au

Council's Vision

South Gippsland Shire will be a place where our quality of life and sense of community are balanced by sustainable and sensitive development, population and economic growth.

Council's Commitment to the Community

As Councillors, we are committed to demonstrating leadership by working constructively together and with the organisation to achieve success.

Council's Values

As Council, we commit to:

- Value the contribution made by everyone; to listen to you and each other.
- Value individual diversity, act with respect and professionalism in our interactions with you and each other, and never seek to undermine, mislead or undervalue anyone.
- Value opportunities that come from change, keeping our focus on the future and our responses flexible for a constantly evolving world.
- Value the community spirit, vibrancy and unique character of each of our towns and rural areas.
- Encourage our communities and support our community leaders.
- Value constructive criticism that helps us understand how and where we need to improve.
- Pro-actively reflect on our own behaviour, that of each other and of the organisation as a whole, to continually build the capacity, passion and success of this Council.

You Asked - Council Delivered

Continue advocating for funding/grants to deliver significant projects we want – rehabilitate the Port Welshpool Long Jetty, revitalise Leongatha including the former railway precinct, work with us to improve the Korumburra centre streetscape and the Foster streetscape.

- Port Welshpool Long Jetty - Federal and State funding secured. Construction is underway.
- Advocating for Leongatha Revitalisation Project - Bair Street and Railway Precinct planning and consultation progressed.
- Five Priority Projects adopted by Council.
- Foster streetscape - project complete.
- Negotiating with VicTrack to secure rail corridor for Council's future uses.

We need more and better community facilities such as libraries, trails, equestrian, recreation and community spaces.

Korumburra Railway Station adopted as the preferred site for the Korumburra Community Hub - project planning is underway with support from the Korumburra Community Committee.

The *Paths and Trails Strategy* and the *Open Space Strategy* have been adopted ready for implementation.

Development of Arts and Culture Strategy has commenced, keep a focus on it going forward.

- An Arts Development Officer has been appointed and activities from the strategy are being implemented.
- A Council *Arts and Artefacts Collection Policy* was adopted in June 2018.

Our main townships are struggling, but don't forget about some of our smaller communities as there are things we need too.

Funding of \$227,645 was given to community groups to support local projects across the Shire.

A further \$34,490 was given to community groups in the form of emergency grants and \$26,005 was provided by Council from the small grants funding program.

\$2.4 million was spent on Black Spot road projects in Loch, Poowong, Toora, Wild Dog Valley, Leongatha North and Tarwin Lower.

You Asked - Council Delivered

The cost of living is escalating, improve the efficiency of your operations to minimise rate rises, keep rates affordable and reduce them where you can.

South Gippsland, Bass Coast, East Gippsland and Wellington Shire Councils have all endorsed objectives for phasing of the Shared Service Provision project aimed at reducing the administrative costs of all four councils in the future.

Further, South Gippsland Shire Council has been able to reduce costs to set the 2018/19 Annual Budget at an average 2 per cent rate increase, which is 0.25 per cent lower than the State Government Rate Cap of 2.25 per cent allowed.

Listen to what we are saying to you.

A total of 92 speakers took the opportunity to make 61 public presentations to Council with 154 people observing in the gallery. The livestreaming of Council meetings received 2,321 views.

These avenues provide the community with different opportunities to engage with Councillors and Council decision making.

Work with us and communicate more of what you are doing. Be more transparent in decision making.

Council established a *Community Engagement Strategy* and *Community Engagement Policy*, based on international best practice standards (IAP2 principles) which was scheduled to be adopted in July 2018.

Only four per cent of all Council resolutions were made in closed session; a significant reduction from 15 per cent in 2015/16 and seven per cent in 2016/17. These eight items were closed due to matters that prejudice the Council or any person, legal, contractual and/or personnel matters.

Build footpaths so we can get from place to place more safely.

Twelve footpath projects costing \$645,539 have been constructed in Foster, Poowong Mirboo North and Leongatha.

ADVOCACY

Council actively advocates on behalf of its community. It approaches other levels of government and other funding and support agencies to assist with projects that are of benefit to South Gippsland.

The nature of advocacy is that the results of the work do not generally come to fruition in the year that the advocacy took place. Over the past few years Council has successfully lobbied for projects listed below, totalling in excess of \$157M.

Objective 1 Council Plan

Strengthen Economic Growth & Prosperity

2017/18 ACHIEVEMENTS

Council adopted the 2017/18 Priority Projects:

- » Leongatha Revitalisation Project;
 - » Great Southern Rail Trail Project;
 - » Korumburra Revitalisation Project;
 - » Mirboo North Pool Refurbishment;
 - » East/West South Gippsland Public Transport Study.
- Council endorsed the Korumburra Railway Yards as the preferred location for the Korumburra Community Hub in December 2017.
 - The *2018-2020 Economic Development and Tourism Strategy* adopted by Council in February 2018. This strategy aims to strengthen economic growth and prosperity within South Gippsland while attracting visitors and new residents.
 - *South Gippsland's Population Growth and Land Supply Study* adopted by Council in June 2018. This will support planning for any future economic growth in South Gippsland.
 - *South Gippsland Planning Scheme Review* adopted after seeking feedback from the community and submitted a copy to the Minister of Planning in June 2018.
 - Council endorsed the commencement of the development of a Venus Bay Activity Centre Plan with an associated funding allocation of \$35,000 in May 2018. This plan aims to strategically plan the township of Venus Bay, open space and infrastructure planning based on future population growth.

- Community consultation took place in January 2018 on the Port Welshpool Marine Precinct Plan. The plan aims to revitalise the region and township through foreshore enhancement and marina development. It will also provide important safety improvements to marine infrastructure.
- Council resolved in June 2018 to seek authorisation from the Minister for Planning to prepare and exhibit a Planning Scheme Amendment based on the recommendations from the Extractive Industries (Sand) Report and exhibit the Amendment in accordance with the procedural requirements of the Planning and Environment Act 1987.
- A number of preparation workshops were conducted with Councillors and staff in September to December 2017 on the *Community Vision*. Due to the proposed legislative changes to the new *Local Government Act*, the *Community Vision* has been placed on hold, until the new Act is passed by Parliament.

Advocacy

- The Economic Impact Assessment completed for Bair Street, Leongatha Priority Project. Council is actively advocating for the funding of this project with the up and coming State Election in late 2018.
- Grant application submitted to Sport and Recreation Victoria 2019/20 Community Sports Infrastructure Fund for \$50,000 for the Rail Trail Extension (Leongatha to Clyde) Planning project.
- Council's Mayor and Chief Executive Officer met with Hon. Russell Broadbent, Danny O'Brien MLA and Melina Bath MLC advocating South Gippsland Shire Council's Priority Projects.
- Council endorsed the Notice of Motion 'Advocate to the Minister for Planning and Minister for Health to address inconsistencies between the *Public Health and Wellbeing Act 2008* and the *Planning and Environment Act 1987* in relation to wind farm enforcement' to the Municipal Association of Victoria's (MAV) State Council in May 2018.
- Ongoing negotiations continue with VicTrack to secure the rail corridor between Leongatha and Nyora for Council's future use.

Objective 2 Council Plan

Build Strong Partnerships, Strengthen Arts & Culture & Deliver Equitable Outcomes

2017/18 ACHIEVEMENTS

- Council resolved to withdraw from the provision of Home and Community Care services on the proviso that a suitable alternative service provider is able to continue to provide services. When a new provider is identified Council will ensure the smooth transition of the high quality service.
- Council allocated \$5,000 in the 2018/19 Annual Budget to support community participation and collaboration in Leongatha; and to receive a report on 26 September 2018 outlining the extent of interest expressed by the Leongatha Community in establishing a new community collaboration and leadership structure.
- Continued planning for *An Age Friendly South Gippsland 2017-2021 Implementation Plan*.
- *South Gippsland Health and Wellbeing Plan 2017-2021* adopted in September 2017.
- *Paths and Trails Strategy 2017* adopted in May 2018. A number of amendments were made to the Strategy after 33 submissions were received from the community consultation process.
- Council adopted the new *Arts and Artefacts Collection Policy 2018*. The policy will provide direction for future acquisitions, disposal and identification of items no longer required or items which do not fit within a clear definition as art works or artefacts.
- A new Arts Development Officer appointed in November 2017.
- Council adopted the *Disability Action Plan 2018-2022* and will receive a report on implementation of the Plan prior to 30 June 2019.
- Council created a *Community Engagement Strategy* and the *Community Engagement Policy* in June 2018 which was scheduled to be adopted in July 2018.
- Council adopted the revised *Community Grants Program Policy 2018* and the revised *Community Grants Program Guidelines and Information 2018/19* in June 2018.
- Council allocated \$282,000 to refurbish the old Korumburra Kindergarten into the interim Library to assist with the development of the Korumburra Supermarket development.
- Council noted the progress to date of the review of the *Social Community Infrastructure Blueprint 2014-2029* in June 2018. The blueprint ensures that services and the associated infrastructure are planned and ready for future business and population growth. Of the nineteen community facility actions identified in the blueprint nine are ongoing, four are underway and one has been completed with five yet to commence.
- Council adopted the *Foster Pool Masterplan 2018*. The masterplan identifies opportunities to improve access into and around the pools, renew existing amenities and add accessible and family change spaces.
- Council resolved to increase the current budget allocation of \$347,382 for the Toora Swimming Pool by a further \$60,000 to a total of \$407,382 (ex. GST) and approved the award of contract for the Amenities Upgrade Stage One.

Advocacy

- 81 per cent of assessed grant applications submitted to State and Federal program funding were successful, above Council target of 30 per cent.
- \$227,645 approved application funding for the Community Grants Program.
- \$60,495 approved application funding for the Emergency and Small Grants Program.
- Funding applications successful from Creative Victoria for \$26,000.
- Submitted an application to the Department of Education and Training Children's Facilities Capital Program - 2018/19 Major Grants for Fish Creek Kindergarten Facility Upgrade Project.

Objective 3 Council Plan

Improve South Gippsland's Built Assets & Value our Natural Environment

2017/18 ACHIEVEMENTS

- Council resolved to participate in a section 20(4) of the *Planning and Environment Act 1987* Ministerial Amendment coordinated by the Department of Environment Land Water and Planning, which seeks to introduce revised Infrastructure Design Manual provisions into the South Gippsland Planning Scheme.
- Progress continued on *South Gippsland's Sustainability Strategy 2016-2020*.
- Council adopted the *Significant Tree Register Planning Scheme* in June 2018 which aims to preserve and identify trees of importance to the community along with cultural heritage, history and biological diversity.
- *Domestic Animal Management Plan 2017-2021* endorsed by Council in September 2017. Council also resolved to undertake a community survey to determine the implementation of a cat curfew and dog leash order.
- Council endorsed the *2017 Tree Management Plan* in July 2017.
- Local Laws completed the first round of fire inspections across the municipality. Officers inspected almost 1,800 vacant parcels of land in the residential areas of South Gippsland, to ensure safety for residents.
- \$9.0M spent on road infrastructure, sealing, road reseal program, and road rehabilitation program.
- Council's Sustainability Team obtained a State Government grant of over \$50,000 to develop a detailed business case for a potential solar farm on Council owned land in Horn Street, Leongatha. South Gippsland, Bass Coast and Baw Baw Shire Councils will consider the viability of developing a medium scale renewable energy project with the potential to generate approximately 1,500 to 2,000 MWh of renewable energy annually.
- Council adopted to submit a pledge to the Sustainability Victoria TAKE2 Climate Change Action Pledge in December 2017. This commits all Victorian councils to reach net zero carbon emissions in Victoria by 2050 and helps to promote the social, economic and environmental viability and sustainability of the municipal district.
- Council voted to support the Mirboo North community campaign to protect its local forests; strongly oppose any logging as proposed by VicForests in three coupes of native forest near Mirboo North; write to the Premier and appropriate Ministers advising them of this and collaborate with the Preserve Our Forests Steering Committee to advocate to stop all VicForests logging in and around the Mirboo North area.

Advocacy

Council endorsed to submit the following grant applications and apply for funding from Sport and Recreation Victoria:

- Funding \$500,000 for the 2018/19 Female Friendly Facilities Fund for the Leongatha and District Netball Association (LDNA) Netball Courts Redevelopment project.
- Funding \$1,000,000 for the 2018/19 Better Indoor Stadiums Fund for the Foster Indoor Stadium Redevelopment project.
- Funding \$100,000 for the Poowong Football Netball Club – Netball Court Redevelopment project. Council adopted to allocate \$50,000 from the 2018/19 budget towards the project if the application is approved.
- Funding \$100,000 for the Fish Creek Football Netball Club - Netball Court Development upgrade. Council allocated \$120,000 from the 2018/19 budget towards the project as the application was approved.
- Funding \$100,000 for the Leongatha Gymnastics Facility Redevelopment Project.
- Funding \$250,000 for the Toora Pool Upgrade Project.
- Funding \$200,000 for the Mirboo North Active Play Baromi Park project.
- Funding \$125,000 for the Venus Bay skate Park.
- Funding \$30,000 for the Leongatha Recreation Reserve Precinct Master Plan.
- Funding \$250,000 for the Korumburra Recreation Reserve Change-room Redevelopment project.

Objective 4 Council Plan

Enhance Organisational Development & Implement Governance Best Practice

2017/18 ACHIEVEMENTS

- Council adopted the Annual Budget 2018/19, containing the Annual Plan Initiatives and the Long Term Financial Plan, in accordance with the *Local Government Act 1989*.
- Final projections for the next financial year, resulted in a total budgeted expenditure of \$63.2M with expenditure on a capital works program of \$23.4M.
- The 2018/19 Capital Works Program is \$0.7M higher than allocated in 2017/18.
- Council adopted the *Rating Strategy 2018/19* in accordance with the *Local Government Act 1989* including the Declaration of Rates and Charges.
- The Revised Council Plan 2017-2021 was adopted by Council in June 2018. Three additional strategies have been included;
 - Undertake a coastal study to explore opportunities for developing the Shire's coastal areas, while still protecting the coastline environment.
 - Review and update recreation, aquatic and the paths and trails strategies.
 - Develop and implement a Youth Strategy to determine the needs of young people and assist them to have a voice regarding matters that affect them.
- Council endorsed the objectives and phases of the Gippsland Local Government Network (GLGN) Shared Services project initiative in June 2018. The primary objective is to remove duplication, cost and bureaucracy while improving service delivery, efficiency and innovation for Local Government. Operating together, the participating councils will be able to take advantage of digital and service opportunities in ways they could not sustain individually.
- Council resolved to notify the Valuer-General Victoria that South Gippsland Shire Council will continue the in-house service and not enter into the Valuer-General centralisation service until 30 June 2022. It advantages Council both financially and in terms of service delivery to keep the current service model in place. The current service delivery model projects a saving of \$16,338 over the next four years compared to centralised rate valuations.
- 2018 Community Satisfaction Survey conducted which advised that close to half of residents are satisfied with Council's overall performance, giving a rating of six or more out of ten. General feedback from all residents highlights their concern regarding rates, roads, rubbish collection and recycling and the reputation of Council.

Openness

- A decrease of eight Council resolutions were held in closed session compared to 15 Council resolutions in the previous year.
- There were 61 public presentations and 92 speakers presented to Council, while 154 people attended in the gallery.
- The number of views for live streaming of Council meetings was 2,321.
- Councillor attendance at Ordinary Meeting of Council was 98 per cent.
- Councillor attendance at Special Meetings of Council was 73 per cent.
- Community drop-in sessions for the Council Plan and the proposed 16 new initiatives for 2018/19 were held in February 2018 in Leongatha, Mirboo North and Foster to seek community feedback. This provided an opportunity for community members to have a say and make an impact on what Council aims to achieve over the next twelve months.

Our Challenges

- Continuing Council's focus on improving productivity and achieving efficiencies within a constrained financial environment with reduction of revenue arising from a rate capped environment.
- Competing with other regional councils for State/Federal Government grant funding for Council projects.
- Continuing cost savings initiatives, by pursuing shared service arrangements and streamlining service delivery.
- Developing a new Rating Strategy that will establish a fair and reasonable distribution of the rate burden across all property owners.
- Preparing for a new *Local Government Act*, that will require resources allocated to meet the new provisions set within the transitional time frame.
- Providing the level of support necessary to assist with Section 86 Committee responsibilities.
- Managing the community's expectations of funding for new infrastructure, as higher service levels are sought from Council but income streams are constrained and grant streams are reduced.
- Knowledge and management of non-Council assets on Council land.
- Costs associated with managing a large property and aged building portfolio.
- Managing social media and communications.
- Planning for the digital environment.
- Adapting to meet the challenges associated with climate changes.
- Planning for the reduction of *Roads to Recovery Funding* from 2017/18 onwards.
- Improving the community's perceptions of Council.

Our Future

- The organisation has been restructured to position itself for the future. The better use of technology to support service delivery is a key element aimed at increasing the efficiency and effectiveness of service delivery.
- Council is using a 'Value Stream Mapping' process to improve efficiencies and productivity. This project will work towards improving connectivity between systems within Council.
- The future funding of the Home and Community Care Service by the Federal Government has been reviewed. Council will need to manage the transition required to respond to the government changes planned for this service.
- Slight but steady population growth is expected in future years for the Shire. The Nyora and Korumburra areas are anticipated to have the highest levels of growth now that reticulated sewerage is provided in Nyora and rezoning and subdivision occurring in both towns. The 2016 ABS Census assists with understanding projected population growth in these towns.
- A number of the Gippsland Local Government Network member councils are working towards a shared services model, commencing with various administrative functions, as a means of increasing efficiencies for each member Council. South Gippsland, Bass Coast, East Gippsland and Wellington Shire Councils have all committed to participate in the agreement. Progress on the arrangements will continue in 2018/19.

SECTION 1
OVERVIEW

1.1 MESSAGE

TO THE MINISTER FROM THE MAYOR

Dear Minister,

I commend this report to you. The Annual Report on the activities of South Gippsland Shire Council for 2017/18 is a fitting record of the past year. It has been a difficult 12 months in many ways, so being able to reflect on some of the highlights contained in this report is a good reminder of what has been achieved.

The 2017/18 year saw the Anderson Street component of the Leongatha Revitalisation completed and more work undertaken in terms of getting community feedback on Bair Street and the old railway site.

The Foster Streetscape project was completed in 2017/18 with improvements to the main street of Foster, including parking, road surfacing, street crossings, footpaths, plantings, street furniture and an undercover walkway.

Work is well underway on the reconstruction of the Port Welshpool Long Jetty rehabilitation, with the project looking to come in under budget and on time. At this stage consideration is being given to using the remaining budget for additional necessary works, which may push the completion date back to early 2019.

Much of the community consultation on the Korumburra Community Hub is now complete, with planning for incorporating the old railway station into the designs to be undertaken in 2018/19.

I would like to take this opportunity to thank you for providing us with the assistance and oversight of the Municipal Monitor, Mr Peter Stephenson. As I alluded to earlier, as a group we have at times struggled to find a sense of common purpose and collegiality. The Monitor will provide us with the necessary guidance and support to ensure that our governance processes and decision making are beyond reproach.

While acknowledging some of our difficulties, I would like to commend businesses, community members, community groups and Council officers who have all worked towards to improving the liveability and amenity of South Gippsland regardless of what's been going on at Council. I speak on behalf of all Councillors when I thank the officers for their commitment and support. I look forward to working productively with them over the second half of our term.

Cr Lorraine Brunt
Mayor
South Gippsland Shire Council

MESSAGE

TO THE MINISTER FROM THE CEO

Dear Minister,

The last twelve months has seen us deal with something unprecedented in the history of the South Gippsland Shire Council: the appointment of a Municipal Monitor to oversee the activities of Council.

As Chief Executive Officer I am proud of the manner in which the organisation has continued to support the Councillors, regardless of any perceived difficulties in the political arm of the organisation. Without exception officers continue to maintain their professional integrity, ensuring that Council decisions are implemented quickly and efficiently.

While the 2017/18 financial year has seen the culmination of projects such as the Foster Streetscape, the Anderson Street town entrance in Leongatha and much of the work towards rebuilding the Long Jetty at Port Welshpool, I think that many of the most exciting projects are still in the planning stages. In that number I would include the Great Southern Rail Trail extensions, the Mirboo North Pool refurbishment, the Korumburra community hub and the rest of the Leongatha Revitalisation project.

Council is also committed to improving the gender gap by hearing about and understanding the personal experiences and the impacts of gender inequity on both women and men in our organisation. This year Council implemented gender equity workshops to facilitate these discussions and Council staff added a gender equity banner to their emails to demonstrate their support.

Overall, this year we have delivered on 94 per cent of the committed 2017/18 Annual Initiatives and Council Plan indicators. The dedicated efforts of Councillors, staff, volunteers and community members have contributed to achieving these great outcomes for all the people who live in and visit South Gippsland.

At the end of June 2018, Council's financial position remains strong with more than \$528M of community assets under Council's stewardship. The operating result of \$7.50M is stronger than the budgeted \$5.86M, due primarily to the timing of the receipt of grant payments from the Victorian Grants Commission. Council's underlying operating income and expenditure were within 105 per cent and 97 per cent respectively of the Annual Budget adopted in June 2017. Council's Long Term Financial Strategy forecasts continued surpluses over the next 15 years, providing a sustainable level of funding for the refurbishment and replacement of community assets.

I would like to take the opportunity to acknowledge the terrific South Gippsland Shire Council staff and volunteers who have worked towards delivering our Council's vision and providing excellent service to our community.

FINANCIAL OVERVIEW

FINANCIAL OVERVIEW

Council's financial position continues to remain sound. Our performance is summarised below. Detailed information relating to Council's financial performance is included within the Financial Statements and Performance Statement sections of this Report.

Operating Position

Council achieved a surplus of \$7.50M in 2017/18. This surplus continues on from a strong surplus from the prior year of \$12.86M, with both years benefitting from the Australian Accounting Standard requirement to recognise Victorian Grants Commission allocations in the year that they are received rather than the year to which they relate, with 50 per cent of the 2018/19 allocation received in advance and recognised in 2017/18 and an additional 50 per cent recognised in 2016/17.

The adjusted underlying surplus of Council, after removing non-recurrent capital grants, cash capital contributions and non-monetary capital contributions, is a surplus of \$1.53M or (2.4 per cent) when compared to adjusted underlying revenue.

The ratio is a slight decrease to the prior year result of 6.9 per cent. Again, this indicator is impacted by the Australian Accounting Standard requirement to recognise grant income as revenue when Council receives the grant. Sustaining an adjusted underlying surplus is a critical financial strategy that provides capacity to renew over \$500M of community assets under Council's control.

Adjusted Underlying Result Ratio %

Liquidity

Cash (this includes 'cash and cash equivalents' and 'other financial assets') has increased by \$3.4M from the prior year. The working capital ratio which assesses Council's ability to meet current commitments is calculated by measuring Council's current assets as a percentage of current liabilities.

Council's result of 310 per cent (282 per cent in 2016/17) is an indicator of a satisfactory financial position and within the expected target band of 100 per cent to 300 per cent.

Working Capital Ratio %

Obligation

Council aims to ensure that it is able to maintain its infrastructure assets at the expected levels, while at the same time continuing to deliver the services needed by the community. To bridge the infrastructure gap, Council invested \$10.27M in renewal works during the 2017/18 year.

At the end of the 2017/18 year, Council's debt ratio which is measured by comparing interest bearing loans and borrowings to rate revenue was 8.16 per cent which indicates that Council has no concern over its ability to repay debt.

Loans and Borrowings Ratio %

Council's asset renewal ratio, which is measured by comparing asset renewal expenditure to depreciation, was 98 per cent, which is within the expected target band of 90 per cent to 110 per cent.

Asset Renewal Ratio %

Stability and Efficiency

Council raises revenue through provision of a range of services including rates, user fees, fines, grants and contributions. Council's rates concentration which compares rate revenue to adjusted underlying revenue was 65 per cent for the 2017/18 year which is in the mid-range of the expected target band of 40 per cent to 80 per cent.

The average rate per residential assessment is \$1,847 including both the rates and the garbage/waste charge.

Average Rate per Residential Assessment \$

ECONOMIC FACTORS

Council was faced with a financial challenge following the introduction of the State Government's 'Fair Go Rates System', which capped Council rates to the rate of inflation commencing with the 2016/17 Annual Budget. Through careful review and management of resources, Council established the 2017/18 Annual Budget within the confines of the rate cap without needing to seek an exemption from the Minister.

Throughout the course of the financial year Council's actual financial performance has been managed by comparing year-to-date actual performance with the year-to-date budgets and monitoring the impacts of changes made to projections and longer term ramifications. Council's careful management of resources has resulted in an end of year position that has enabled Council to set a Budget lower than the rate cap.

MAJOR CHANGES

The significant change in Councillors at the 2016 elections created various challenges for them as a Council, one of which was developing and adopting a new Council Plan within seven months. Throughout 2017/18 the Council has taken more time to reflect on, and add context to, the strategic directions established in the 2017-2021 Council Plan. Council was pleased to be able to adopt a Revised 2017-2021 Council Plan in June 2018 that contained refinement to Council's original strategic directions and add a few additional strategies arising from gaps identified in community engagement activities.

Council has actively participated in the review of the *Local Government Act* led by the State Government. The future of Victorian councils will be governed by the new Act when it is passed by State Parliament. The impacts of this new legislation will likely impact Council in the 2018/19 financial year.

In 2017/18 Council commenced, then placed on hold, development work on a new *Community Vision* for the Shire. This is expected to be a requirement for the next Council elected in 2021. Council considered it best to place the activity on hold, rather than utilise resources this year, then need to repeat the process in a few years' time.

DESCRIPTIONS OF OPERATIONS

South Gippsland Shire Council is responsible for more than 100 diverse services, ranging from family and children's services, sealed and gravel road maintenance, open space and recreation services, youth facilities, waste management and community buildings; to matters concerning economic development, land-use planning, customer service and ensuring accountability for Council's long term financial sustainability.

This broad range of community services and infrastructure for residents supports the wellbeing and prosperity of South Gippsland's community. Council's vision, strategic objectives and strategies to further improve services and facilities, are described in the 2017-2021 Council Plan and the associated Annual Budget 2017/18 which is reported on in this document. Refer to the section on 'Reporting' for more information about Council services.

The delivery of services, facilities, support and advocacy to achieve the strategic objectives is measured by a set of service performance indicators and measures. Council also has a wide range of responsibilities under Victorian and Federal legislation.

Council adopted a Revised Council Plan 2017–2021 in June 2018 with which future reporting will be aligned.

1.6 SHIRE AT A GLANCE

South Gippsland Shire Council is located in coastal south eastern Victoria, approximately 100km south-east of Melbourne. It is made up of three wards, Tarwin Valley, Strzelecki and Coastal-Promontory, each represented by three Councillors.

South Gippsland is named for the southern part of Gippsland, which honoured Sir George Gipps, Governor 1838-1846. The original inhabitants of the South Gippsland area were the Gunnai, Bun Wurrung and Wurundjeri Aboriginal people. South Gippsland Shire Council was formed in 1994 from the amalgamation of four municipalities.

The Shire is bounded by Cardinia and Baw Baw Shires to the north, Latrobe City and Wellington Shire to the east, Bass Strait to the south, and Bass Coast Shire to the west.

The Shire is a rural, residential and tourist area. It encompasses 3,308 square kilometres, including extensive coastal areas and the spectacular Wilsons Promontory National Park. Much of the rural area is used for forestry and agriculture; with dairy, beef, sheep, and snow pea farming being the main agricultural pursuits. Fishing, viticulture and tourism are also important industries that contribute economic diversity to the region.

Other major attractions of the Shire include Cape Liptrap Coastal Park, Strzelecki Ranges, Coal Creek Community Park and Museum, the Great Southern Rail Trail, Grand Ridge Rail Trail, Nyora Speedway, Stony Creek Racecourse, Agnes Falls and specialist wineries.

The major towns in South Gippsland are Leongatha, Korumburra, Mirboo North and Foster. Other townships include Dumbalk, Fish Creek, Loch, Meeniyar, Nyora, Poowong, Port Welshpool, Sandy Point, Tarwin Lower, Toora, Venus Bay and Welshpool. There are also a number of other smaller rural hamlets.

Snapshot of Council

PURPOSE

Council's role is to provide leadership for the appropriate governance of the Shire and its local communities. Council undertakes its responsibilities in accordance with the *Local Government Act 1989* (the Act) and other Acts for the peace, order and good government of the Shire.

Council's Vision 2020, developed in 2006/07, represents the aspirations of our diverse communities and articulates a vision of what South Gippsland should be like in the year 2020. The vision was refined in 2015 to reflect changing community needs and expectations.

This vision still aspires to achieve a number of key outcomes with the aim of creating South Gippsland as a place which has:

- A caring community where people feel safe and secure.
- A wide range of recreation and leisure amenities.
- High grade transport links.
- Appropriate infrastructure to meet community needs.
- Respect for the environment by being clean and green, with consideration of the sustainability of nature, plant and animal life.
- Sustainable economic growth.
- Coordinated health services.
- Youth who are valued and participate in the community.
- A sustainable agricultural industry, including direct and indirect support for businesses.
- A sustainable thriving tourism industry.

FTE Variance to Annual Budget

The Annual Report FTE figures show a snapshot, or 'moment in time'. Whereas Council's Annual Budget demonstrates a forecast of what will happen over the entire year. Variances can occur due to numerous circumstances such as short term appointments, parental leave replacements, grants approved post budget and casual labour to backfill unexpected absences.

PROFESSIONAL DEVELOPMENT

Through a strong commitment to professional development of all staff, Council is ensuring that the workforce continues to have the necessary skills, qualifications and expertise to undertake roles to deliver effective and efficient services to the South Gippsland community, now and into the future.

CAPABILITY DEVELOPMENT

Corporate Training and Development

A diverse range of corporate training and development programs were delivered throughout 2017/18.

Council has undertaken a joint venture with Baw Baw Shire Council in partnering with a third party provider and developed an organisation competency framework, conducted a training needs analysis by role and level, and undertaken competency based training programs for all staff including face-to-face and webinar.

Programs include continuous improvement, giving and receiving feedback, decision making and problem solving, safety and wellbeing, leadership, and value stream mapping.

Employee Performance Development

A new approach to employee performance and development was implemented which aims to build employee capacity to have better conversations about things that matter to our community.

Complementing this, the mentoring program and talent pool registration continues to be rolled out, which has strengthened our capacity to utilise existing employees in vacant positions.

RECRUITMENT AND INDUCTION

An on-line recruitment, on-boarding and exit program has been rolled out and improved. An induction program has been acquired to reduce organisation risk and improve new employees' knowledge and understanding of the organisation.

ENTERPRISE AGREEMENT

Council's Enterprise Agreement seeks to facilitate successful organisational delivery of the Council Plan, within the dynamic pressures and opportunities of the changing Victorian Local Government landscape. The Enterprise Agreement is in place until 30 June 2019.

EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

South Gippsland Shire Council is dedicated to providing a workplace that is free from all discrimination, bullying and harassment in which each employee is treated with dignity, courtesy and respect.

Council is committed to achieving and maintaining high quality working relationships within the organisation. It recognises that this is essential for the wellbeing of all people in the workplace to maximise individual employee skills and abilities, achieve business objectives and maximise productivity.

The organisation adopts a proactive approach to the prevention of discrimination, through initiatives such as the EEO Contact Officer and employee and Councillor training. A number of measures are also in place to effectively manage any arising issues, including employee support programs and mechanisms to escalate issues.

HUMAN RIGHTS CHARTER AND RESPONSIBILITIES

Council's *Human Rights Policy* was reviewed, updated and readopted 28 June 2017. The policy confirms Council's commitment to considering and respecting human rights when developing and implementing local laws, policies, procedures, decisions and services. The policy outlines the twenty human rights articulated in the *Charter of Human Rights and Responsibilities 2006* (Charter). Council is committed to upholding and respecting these human rights.

PREVENTING VIOLENCE AGAINST WOMEN

Enshrined within Council's *Workplace Health and Wellbeing Plan*, prevention of violence against women has been identified as a strategic priority for the organisation and has brought about the establishment and implementation of a range of violence prevention initiatives, activities and events, driven by an internal working group.

HEALTH AND WELLBEING

Council maintains a workplace that supports healthy lifestyles and encourages workforce participation in programs that are designed to improve their overall health and wellbeing. Activities over the last twelve months have included:

- Body composition scans
- Dietician and fitness information sessions
- Skin checks
- Exercise information
- Discounted gym memberships for staff
- Manual Handling training

CORPORATE SOCIAL RESPONSIBILITY

Council also supports local charity organisations through a staff donation program.

SECTION 2
OVERVIEW

VICTORIAN PLANNING & ACCOUNTABILITY FRAME

Elected by the community every four years, Council sets the strategic direction of the Shire. The administration, led by the Chief Executive Officer, delivers the objectives set by Council.

- The four year Council Plan sets out what will be achieved during the Council's four year term, including an annual review;
- Rolling Strategic Resource Plan for a period of at least four years is updated annually and included in the Council Plan;
- Budget for each financial year sets out what actions will be undertaken to progress achievement of the Council Plan;
- Annual Report in respect of each financial year outlines what Council has achieved in the past year against the Budget and Council Plan.

The following diagram shows the relationship between the key planning and reporting documents that make up the planning and accountability framework for Local Government. It also shows the opportunities for community and stakeholder input and feedback at various stages of the planning and reporting cycle.

COUNCIL PLAN

2017-2021

The Council Plan provides guidance and direction by setting strategic outcomes, objectives, strategies, resource requirements and performance measures for the four year term of Council.

The four strategic objectives as detailed in the 2017-2021 Council Plan were:

OBJECTIVE 1 Strengthen Economic Growth & Prosperity

A strong, resilient and growing regional economy with vibrant commercial precincts where businesses are supported and jobs created.

Our region's agriculture, value adding, food production and manufacturing sectors are promoted and supported, recognising that the diversity and strength of these industries is the major economic base of the Shire.

Attracting businesses, investments, tourism and new residents will grow the Shire.

A well-planned Shire that identifies areas for population growth, protects natural resources and agricultural land, guides development, considers climate change and encourages sustainable economic growth – all supported by appropriate infrastructure.

The unique character of our smaller towns is recognised and supported.

OBJECTIVE 2 Build Strong Partnerships, Strengthen Arts & Culture & Deliver Equitable Outcomes

A Council that listens and continues to involve its community in decision making and delivery of services and projects.

Support for the Arts and Culture sector and its role in both enhancing community identity and contributing to wellbeing, tourism and economic development.

Communities are supported by appropriate and relevant services.

A Council committed to act in ways that are compatible with human rights.

OBJECTIVE 3 Improve South Gippsland's Built Assets & Value our Natural Environment

Our infrastructure is well-maintained and our asset management practices ensure they are sustainable and fit for purpose.

Council encourages sustainable practices, seeks to reduce its carbon footprint and diverts a greater proportion of its waste away from landfill.

Council seeks to protect and enhance the natural environment.

Revitalisation of our major commercial precincts will be encouraged through infrastructure and streetscape renewals.

OBJECTIVE 4 Enhance Organisational Development & Implement Governance Best Practice

Council will focus on becoming a more responsive, innovative, productive and effective organisation that follows best practice in transparency and governance and continually improves delivery of services and projects.

Councillors will work with the organisation, community and other levels of government for the benefit of the Shire.

Council will explore ways to share services between partners and will work with communities to deliver cost effective facilities and services.

STRATEGIC OBJECTIVE

1

Strengthen Economic Growth & Prosperity

STRATEGIC OBJECTIVES

- 1.1 Develop a 'vision' for the future growth and development of the Shire in partnership with the community.
- 1.2 Develop a strategy to grow the Shire, attract investment and promote tourism consistent with the 'vision'.
- 1.3 Undertake a review of residential, commercial and industrial land supply to ensure that it is adequate to support growth.
- 1.4 Identify Priority Projects and advocate to the State and Federal Governments for funding and support.
- 1.5 Review and implement the Economic Development and Tourism Strategy to provide direction to support our businesses to grow, generate employment, pursue economic development and the attraction of visitors.
- 1.6 Support our diversified agricultural sector.
- 1.7 Investigate feasibility of further extensions and upgrades to the Rail Trails, particularly between Leongatha and Korumburra and explore opportunities to develop nationally significant trails.

A strong, resilient and growing regional economy with vibrant commercial precincts where businesses are supported and jobs created.

Our region's agriculture, value adding, food production and manufacturing sectors are promoted and supported, recognising that the diversity and strength of these industries is the major economic base of the Shire.

Attracting businesses, investments, tourism and new residents will grow the Shire.

A well-planned Shire that identifies areas for population growth, protects natural resources and agricultural land, guides development, considers climate change and encourages sustainable economic growth – all supported by appropriate infrastructure.

The unique character of our smaller towns is recognised and supported.

- 1.8 Finalise South Gippsland's Branding Strategy that supports the regional 'Destination Gippsland' branding and use them both to promote the Shire.
- 1.9 Progress the development of a business case to support the establishment of a multipurpose undercover 'Equestrian / Expo Centre' at Stony Creek.
- 1.10 Undertake an investigation of caravan parks and camping grounds at Sandy Point.

Services Funded

The following statement provides information in relation to the services funded in the 2017/18 Budget that supports Strategic Objective 2 and the persons or sections of the business area responsible.

Business Area	Description of Services provided	Net Cost \$000
		Revised Budget \$000
		Variance \$000
Infrastructure Planning	The Infrastructure Planning Department assists Council in achieving the objectives of its strategies and plans by providing services that contribute to a closely connected and engaged community. This includes managing Council's property portfolio (acquisition, disposal, leasing, and licensing of property), planning for and managing Council's building and recreational assets, managing waste disposal services, and promotion of a sustainable environment and solutions. We support and partner with our community with the assistance of a strong volunteer base to deliver a variety of community projects and education programs for all age groups and abilities.	\$5,288
		\$5,241
		(\$47)
Community Services	The Community Services Department provides policy advice and program delivery for the following services: <ul style="list-style-type: none"> • Aged and Disability Services, including Home and Community Care and Disability Service support; • Children and Family Services; including Maternal and Child Health; Immunisation, Pre-school and Playgroup support; • Community Grants and Emergency Management; • Libraries; and • Create the Municipal Public Health and Wellbeing Plan. <p>Together these teams work towards creating a collaborative, self-supporting community.</p>	\$471
		\$572
		\$101
Corporate and Community Services Management	The Corporate and Community Services Directorate Management is accountable for ensuring that Council's objectives for the Directorate are achieved through the following Departments: <ul style="list-style-type: none"> • Community Services; • Finance, Risk and Procurement; and • Innovation and Council Business. <p>Together these Departments provide strategic policy advice to Councillors to inform their decisions, coordinate the preparation of the Vision and four year Council Plan for the Shire, plan for long term financial sustainability and implement strategic directions relevant to the Directorate once set by Council.</p>	\$2,314

		\$265

Note: A major restructure in October 2017 led to numerous Department, staff and resource changes. The Annual Report contains the revised Department Budgets from those shown in the 2017/18 Annual Budget to match the new structure, along with the associated end of year actuals/variances.

Service Performance Indicators

The following statement provides the results of the prescribed service performance indicators and measures, including explanation of material variations:

Local Government Service Performance Indicators					
Service	Results 2015	Results 2016	Results 2017	Results 2018+	Material Variation
Libraries					
Utilisation					
<i>Library collection usage</i> [Number of library collection item loans / Number of library collection items]	5	5	5	5	A new statistical system has been introduced for improved reporting capabilities for the West Gippsland Library Corporation. Magazines are now included in Library Collection items and Reference books have been omitted from the data as this is not part of LGPRF requirements. The number of library collection item loans has increased by one per cent and the number of collection items available has increased by 9.4 per cent. This continues to demonstrate increased usage of borrowed collection items across the libraries within South Gippsland.
Resource standard					
<i>Standard of library collection</i> [Number of library collection items purchased in the last 5 years / Number of library collection items] x 100	53%	61%	70%	71%	No material variation
Service cost					
<i>Cost of library service</i> [Direct cost of the library service / Number of visits]	\$9	\$10	\$10.50	\$11.50	Library visits are slightly down by 2.6 per cent. Compared to last year, the general cost of the library service has increased by \$26,922. Maintenance costs were also higher due to a works project of over \$38,000 at the Foster Library to further enhance facilities as a one-off project cost.
Participation					
<i>Active library members</i> [Number of active library members / Municipal population] x 100	25%	23%	21%	17%	An Active Library Member is defined as a member who has borrowed a library collection item. A reporting review by West Gippsland Regional Library Corporation found that reporting for this measure had previously incorrectly included library members who had used public computers and Wi-Fi but had not borrowed an item. This has now being corrected for future reporting.

STRATEGIC OBJECTIVE

3

Improve South Gippsland's Built Assets & Value our Natural Environment

STRATEGIC OBJECTIVES

- 3.1 Improve management of roads and roadsides through enhanced operational practices, increased funding and continued advocacy to VicRoads.
- 3.2 Waste Management and Sustainability strategies implemented.
- 3.3 Promote a safe and healthy community through our municipal public health programs, Emergency Management Plans and regulatory activities that meet our statutory obligations.
- 3.4 Facilitate community and business renewable energy programs and sustainable practices to reduce the Shire's carbon footprint.
- 3.5 Undertake a review of the Council's Building Portfolio to ensure it meets community needs.
- 3.6 Advocate to Parks Victoria, DELWP and other relevant stakeholders to improve access, parking, safety and user-friendliness of beaches, State and National Parks, conservation areas and natural assets.
- 3.7 Review the Strategic Land Review Project in regard to public open spaces in Venus Bay.

Our infrastructure is well-maintained and our asset management practices ensure they are sustainable and fit for purpose.

Council encourages sustainable practices, seeks to reduce its carbon footprint and diverts a greater proportion of its waste away from landfill.

Council seeks to protect and enhance the natural environment.

Revitalisation of our major commercial precincts will be encouraged through infrastructure and streetscape renewals.

3.8 Implement the Footpath Extension Program.

3.9 Council to receive a report on the use of Design Panels for major projects and other development in the municipality.

3.10 Establish a Council Committee to review the implementation of Council's 'Compliance and Enforcement Policy', and that it seeks appropriate input from the general public and from people who have had concerns with Council's enforcement of the Policy.

3.11 Council to play an advocacy role for townships that demonstrate 70 per cent or greater community support, for sewerage infrastructure.

SECTION 3
OVERVIEW

COUNCIL GOVERNANCE

South Gippsland Shire Council is constituted under the *Local Government Act 1989, (the Act)* to provide leadership for the good governance of the municipal district and its communities.

Council has a number of roles including:

- Responsibly taking into account the diverse needs of the local community in decision making;
- Providing leadership by establishing the policy direction of Council, setting strategic objectives to be achieved and monitoring progress;
- Achieving good governance through delegations of authority and establishing frameworks for the management of advisory portfolio committees and formally appointed Section 86 Committees of Council;
- Advocating the interests of local communities to other communities and governments, including seeking external funding to supplement Council and community funded projects;
- Ensuring resources are managed in a responsible, accountable and sustainable manner; and
- Fostering community cohesion and encouraging active participation and engagement in civic life and decision making.

Council is committed to effective and sustainable forms of democratic and corporate governance as the key to ensuring the Council and its administration addresses community priorities.

The community has many opportunities to provide input into Council decision making processes including community consultation and engagement activities, public presentations to Council, community workshops/forums and the ability to make formal submissions to major strategic directions.

Community members and groups are also able to speak directly to Councillors, submit petitions and submit questions for public question time at Council Meetings.

Council's formal decision making processes are conducted through Ordinary and Special meetings. Council delegates the majority of its decision making to staff, many are of an administrative and legislative compliance nature. Council has also delegated decision making for specific facilities/reserves through Section 86 Committees.

Council Meetings are held on the fourth Wednesday of each month and are open to the public. These meetings are live-streamed on the internet.

Public presentation sessions are held on the third Wednesday to allow Councillors fair consideration of the issues before the next meeting. Public presentation sessions are also available on the fourth Wednesday of the month for agenda related matters. Meeting dates may change if the meeting falls on a public holiday. All meetings are advertised each week in local newspapers under Council Noticeboard and on Council's website.

CODE OF CONDUCT

The Councillor's Code of Conduct (the Code) provides the foundation of core principles, values and behaviours Councillors are required to demonstrate, as they work together constructively and respectfully to achieve Council's vision for the Shire.

All Councillors are required to sign their commitment to abide by the Code before they assume the office of Councillor. This is normally made when taking the Oath of Office following a Council election. It is also required within three months of a revised Code being adopted by Council.

The Council reviewed, updated and signed the current Code on 22 February 2017, in accordance with the Act.

The Code is designed to:

- Assist Councillors to maintain the highest standards of conduct and behaviour as well as provide a means to deal with problems they may encounter;
- Attract the highest level of confidence from Council's stakeholders; and
- Assist the Mayor and Councillors to discharge the responsibilities of their public office appropriately.

In addition to setting out the Councillor Conduct Principles, the Code also outlines:

- Other conduct definitions under the Act, such as those relating to misuse of position, improper direction, breach of confidentiality and conflict of interest;
- Roles and relationships; and
- Dispute resolution procedures.

COUNCILLOR CONDUCT PANEL

A Councillor Conduct Panel report on the findings and recommendations of one Conduct Panel held in 2015 (report provided to Council on 27 April 2016) was appealed by the Respondent to VCAT.

The VCAT Hearings were completed in January 2017. A VCAT decision was made on the matter on 10 August 2017 and the report on the outcome was provided to Council on 23 August 2017.

CONFLICT OF INTEREST

Councillors are elected by the residents and ratepayers to act in the best interests of the community. This is a position of trust that requires Councillors to put aside personal interests to make decisions in the public interest.

A conflict of interest occurs when a personal or private interest might compromise the ability of a Councillor or staff member to act in the public interest. A conflict of interest exists even if no improper act results from it. Declaration of a conflict of interest is a standard agenda item for all Council, Committee and Briefing meetings.

A register is maintained to record all disclosed conflicts of interest for Councillors and staff. The following table provides a summary of the number of conflict of interest disclosures made by Councillors during 2017/18.

Conflict of Interest	Number of Declarations
Indirect Interest	8
Direct Interest	15
Total	23

COUNCIL MEETINGS

Council aims to ensure its decision making is informed; having considered the legislative requirements it must meet and the diverse needs and opinions of the community. Councillors meet in open and closed briefing sessions to gather the background information they require to make efficient and effective decisions. The topics covered and Councillors attending these sessions are reported in each Ordinary meeting agenda.

Public participation sessions provide an opportunity for community members to present issues of interest to Council. These sessions allow community members affected by potential decisions of Council to present their viewpoint to assist and inform Council's decision making processes. These public sessions are held on the third and fourth week of the month, prior to each Ordinary meeting. Details on how to submit expressions of interest to make a presentation to Council are available on Council's website.

Council Attendance at Meetings

Council conducts open public meetings, known as Ordinary meetings, normally on the fourth Wednesday of each month, but with a few exceptions. Members of the community are welcome to attend these meetings and observe from the gallery. Council meetings also provide the opportunity for community members to submit up to three questions online by 5.00pm on the Friday prior to the Council meeting.

In 2017/18, Council held the following meetings:

	Total Number of Meetings
Ordinary Council Meetings	11
Special Council Meetings	9
Special Committee of Council	2
Confidential Meetings	5

The following table provides a summary of Councillor attendance at Council meetings, Urgent and Special Council meetings for the 2017/18 financial year:

COUNCILLOR ALLOWANCES & EXPENSES

In accordance with Section 74 of the *Local Government Act 1989*, Councillors are entitled to receive an allowance while performing their duty as a Councillor. The Mayor is entitled to receive a higher allowance.

Each Council must determine the precise annual amount to be paid to the Mayor and Councillors by way of a Council resolution. This must be done by 30 June in the year following a general election. The amount must be within the limits of the Council Category set by the Victorian Government, and will apply and remain in effect from the day of resolution until the time of the next election.

In accordance with Section 75 of the Act, Council is also required to reimburse a Councillor for expenses incurred whilst performing their duties as a Councillor and adopt and maintain a policy in relation to this. The *Councillor Support and Expenditure Policy* adopted 26 April 2018, provides guidance for the payment of reimbursements of expenses and the provision of resources, facilities and other support to the Mayor and Councillors to enable them to conduct their duties.

The following table contains a summary of the Councillor allowances and expenses for 2017/18:

EXPENSE CATEGORIES

Training & Professional Development

This category covers registration fees associated with attendance by Councillors generally held within Victoria at one-off or short-term conferences, training and professional development courses held by Local Government related organisations, professional bodies or institutions.

These include accommodation, conference, parking-related expenses and airfares where applicable. Councillor Rich has attended interstate events associated with his appointed position on the South East Australian Transport Strategy Inc. (SEATS).

Travel Expenses & Car Mileage

Council's Councillor Support and Expenditure Policy - 26 April 2018 and Councillor Vehicle Policy - 3 November 2016, provide for the reimbursement of car mileage, depreciation, insurance and/or use of private vehicles while conducting Council business.

Councillors' use of private vehicles is at the prescribed rate of reimbursement. Reimbursements also include parking fees and public transport costs.

Councillor Allowances & Superannuation

The Victorian Government sets the upper and lower limits for all allowances paid to Mayors and Councillors. Councils are divided into three categories based on the income and population of each Council.

South Gippsland Shire Council is recognised as a Category 2 Council and allowances are paid at the top level within this category. Allowances are paid in accordance with Section 74 of the Act.

IT & Communication Support

Councillors are supplied with mobile devices, including a mobile phone with data plan and a Surface Pro laptop. The cost of providing these services is paid by Council.

Printing, Sound Recording & Transcript Request

Council provides access to fax, photocopying and printing which is made available at Council offices. Printing and audio recording transcription costs have been included.

MANAGEMENT FRAMEWORK & AUDITING

Council has implemented a number of statutory and better practice items to strengthen its management framework. Having a strong governance and management framework supports better decision making by Council.

The Act requires Council to undertake an assessment of its governance against the prescribed Governance and Management Checklist and include this in its Annual Report. The following items have been highlighted as important components of the management framework.

The Audit Committee met four times in 2017/18 on 11 September 2017, 4 December 2017, 5 February 2018 and 18 June 2018.

The Internal Auditor, Richmond Sinnott and Delahunty (RSD) Chartered Accountants, CEO (or acting CEO) and Director Corporate and Community Services (or acting Director) attended all Audit Committee meetings. Other management representatives attended as required to present reports. External auditors from the Victorian Auditor-General Office (VAGO) attended the 11 September 2017, 5 February 2018 and 18 June 2018 meetings to present the audit plan and independent audit report.

AUDIT COMMITTEE

The Audit Committee is an independent advisory committee of Council established under Section 139 of the Act. The role of the Audit Committee is to oversee and monitor Council's effectiveness in carrying out its responsibilities for accountable financial management, corporate governance, maintaining an effective system of internal control and risk management, and fostering an ethical environment.

The Audit Committee consists of three independent members, who from the 3 April 2017 meeting were Dr Irene Irvine (Chair), Dr John (AJ) Purcell and Mr Homi Burjorjee, the Mayor and one Councillor, who from the 12 December 2016 meeting were Cr Argento and Cr Brunt. Independent members are appointed for a three year term, with a maximum of two terms. The chair is elected from amongst the independent members.

INTERNAL AUDIT

Council's internal audit function provides independent and objective assurance that the appropriate processes and controls are in place across Council. This function is outsourced to RSD Chartered Accountants, who were appointed on 1 July 2016 following a public tender, for an initial term of three years, which will conclude on 30 June 2019. In June 2018, following consultation with the Audit Committee, the process commenced to exercise the first and final three year term under the contract with RSD which will conclude on 30 June 2022.

A risk based Internal Audit Program (IAP) is revised annually to ensure the audit resources remain focused on the appropriate areas. The review process considers Council's Risk Management Framework, the Council Plan, the impact of any change on operations, systems or the business environment, prior audit coverage and outcomes and management input. The IAP is reviewed and approved by the Audit Committee annually.

The Internal Auditor attends each Audit Committee meeting to report on the status of the IAP, to provide an update on the implementation of audit recommendations and to present findings of completed reviews. The responsible Director for each area reviewed attends the Audit Committee meeting to respond to questions in relation to the review. All audit issues identified are risk rated. Recommendations are assigned to the responsible Manager and tracked in Council's Internal Audit Action Plan. Managers provide six-monthly status updates that are reported to Council's Strategic Risk Committee and Audit Committee.

The IAP for 2016/17 was completed with the following reviews conducted:

- Maternal & Child Health - including Immunisations;
- Asset Management and Road Maintenance/ Inspections;
- Statutory Planning and Building and Planning Compliance and Enforcement;
- Payroll and Human Resources Audit (in review);
- Domestic Wastewater Management Plan (in review);
- Business Continuity Management and Disaster Recovery (in review);
- Caravan Parks Operations – review of Income and Cash Receipting Controls (in review); and
- Procurement and Tendering (in review).

EXTERNAL AUDIT

Council is externally audited by VAGO. For the 2017/18 year the annual external audit of Council's Financial Statements and Performance Statement was conducted by the Victorian Auditor-General's representative. The external auditors attended the 11 September 2017, 4 December 2017, 5 February 2018 and 18 June 2018 Audit Committee meetings to present the annual audit plan and Independent Audit Report. The external audit management letter and responses are also provided to the Audit Committee.

RISK MANAGEMENT

In May 2012, Council adopted a Risk Management Framework and Policy in line with best practice in the management of business enterprise risks and current International Risk Management Standard AS/NZ ISO 31000.

During the 2016/17 financial year Council conducted a review of its Risk Management Framework and Policy. This review culminated on 22 March 2017 with Council adopting a revised Risk Management Framework and Policy.

These are next due for formal review in March 2021.

The Risk Management Framework and Policy addresses items such as:

- Risk management culture;
- Communication and training;
- Best practice in risk management;
- Responsibilities of and to internal and external stakeholders;
- Risk registers; and
- Business Continuity Plan review.

Council's risk management objectives are to:

- Ensure that we achieve our strategic objectives as set out in the Council Plan;
- Highlight which areas of Council's risk profile have the capacity to deliver the maximum benefit or maximum harm and to identify those areas which should receive priority action;
- Establish a reliable basis for decision making and ensure that risk is included as a fundamental component in the planning process;
- Ensure the effective allocation of resources;
- Determine how risk should be reported to Council, Auditors, Audit Committee and Strategic Risk Committee;
- Foster an organisational culture which promotes proactive behaviour regarding the identification and treatment of risk;
- Identify and prepare for emerging risks, future events and change; and
- Improve stakeholder confidence and trust.

OCCUPATIONAL HEALTH & SAFETY

Council has maintained its emphasis on ensuring the health, safety and wellbeing of all employees, contractors, volunteers and other people who may be affected by their operations.

This is being achieved through:

- Proactive identification and management of health and safety risks;
- Developing the health and safety knowledge and capability of all people;
- Effective measurement of safety activities to identify areas for improvement.

Specific initiatives completed over the past twelve months include:

- Purchase and implementation of personal duress alarms for highest risk roles;
- Organising and hosting an OH&S forum for major local employers, featuring leading industry speakers;
- Completion of first phase of MAV WorkCare OH&S Improvement Program.

Lag Indicators

Incident, near miss and hazard reports have remained relatively consistent the past three years, while at the same time injuries have steadily declined. Injuries are defined as incidents where a person experiences any sort of negative physical or psychological impact.

	Incidents, Near Misses & Hazards	Injuries
2017/18	127	47
2016/17	145	58
2015/16	126	62

Number of reported incidents, near misses, hazards and injuries.

TRAINING & DEVELOPMENT

As part of developing health and safety knowledge and capability, a wide range of training has been provided including:

- Occupational Health & Safety
- Manual Handling
- AgVet Chemical Handling
- Confined space entry
- Chainsaw operation
- Working at heights
- Conflict resolution
- De-escalation, Engagement and Prevention

This complements ongoing internal education sessions, OH&S inductions for new staff and equipment and machine specific training that is provided.

Lead Indicators

Proactive measures are being utilised to gauge involvement and engagement in activities which have direct and indirect impact on workplace and personal safety. An ongoing emphasis on monitoring workplaces and equipment through inspections and checks has helped to identify and resolve a large number of issues, preventing possible injuries.

The small decline in workplace inspections is attributable to a 50 per cent reduction in checks of low risk workplaces, offsetting an increase in the number inspections of high risk short term and mobile worksites.

	Workplace Inspection Completed	Equipment Pre-start Checks
2017/18	70	11,000+
2016/17	76	6,000+
2015/16	53	Not Measured

STATUTORY INFORMATION

The following information is provided in accordance with legislative and other requirements applying to Council.

DOCUMENTS AVAILABLE FOR PUBLIC INSPECTION

In accordance with regulation 12 of the Local Government (General) Regulations 2015, the following are prescribed documents that are available for public inspection or copies of the documents can be obtained for the purposes of Section 222 of the Act at 9 Smith Street, Leongatha, Victoria:

- A document containing details of overseas or interstate travel (other than interstate travel by land for less than three days) undertaken in an official capacity by any Councillor or member of Council staff in the previous 12 months.
- The agendas for, and minutes of ordinary and special meetings held in the previous 12 months which are kept under Section 93 of the Act, other than those agendas and minutes relating to a part of a meeting which was closed to members of the public under Section 89 of the Act and are confidential information within the meaning of Section 77(2) of the Act.
- The minutes of meetings of special committees established under Section 86 of the Act and held in the previous 12 months, other than those minutes relating to a part of a meeting which was closed to members of the public under Section 89 of the Act and are confidential information within the meaning of Section 77(2) of the Act.
- A register of delegations kept under Sections 87(1) and 98(4) of the Act, including the date on which the last review took place under Sections 86(6) and 98(6), respectively, of the Act.
- A document containing details of all leases involving land which were entered into by the Council as lessor, including the lessee and the terms and the value of the lease.
- A register maintained under Section 224(1A) of the Act of authorised officers appointed under that section.
- A list of donations and grants made by the Council in the previous 12 months, including the names of persons who, or bodies which, have received a donation or grant and the amount of each donation or grant.

BEST VALUE

In accordance with Section 208B(F) of the Act, Council is required to report annually to its community on its initiatives carried out in relation to the Best Value Principles.

South Gippsland Shire Council incorporates Best Value Principles through regular business planning and performance monitoring processes and through a commitment to continuous improvement and innovation.

The following Best Value initiatives were undertaken during 2017/18:

- Investigations into future options for the provision of Home and Community Care Services were determined once the changed funding model was introduced by the Federal Government. Council determined to find a suitable external provider and transition the service to that provider. This transition process will continue in 2018/19.
- A review of the Visitor Information Services at Foster and Korumburra was undertaken in 2016. Council determined to retain the Foster Service. A subsequent review on the Korumburra Service was reached in 2018 with a decision to maintain a seasonal service from 1 December to one week after Easter each year.
- Investigations continued into ways to improve and automate internal processes in order to improve customer service to the community. The adoption of a Digital Strategy will assist the ongoing investigations into various services.

Improvements introduced and/or still underway include:

- Maintenance and Operations teams are able to receive and handle customer requests in the field through automated integration of systems, streamlined processes and improved collaboration between teams.

The outcomes achieved include:

- Reduced an average of 300 unactioned requests to 30 within three weeks, paper usage reduced by 80 per cent (4,000 pages a month no longer printed), reduction in customer call backs, improved quality of records and time management.
- Procurement team has streamlined the contract initiation process, automated some document management functions for contract management and systematised purchasing catalogues. The outcomes achieved include removal of a five day lag time in the process, improved records management, increased administration efficiencies and improved information and access for field staff undertaking procurement processes.
- Local Laws team conducted a project that is still underway. The team is seeking to improve community interactions through increased customer service and education, rather than enforcement. A communications plan has been developed, animal management reminder and follow-up improvements using text messaging services delivered, along with increased in-field officer mobility achieved. Outcomes are focused on improved responsiveness and compliance for animal registrations, improved officer response times to customers through access to information when in the field and increased community outreach and interaction through social media.

CARERS RECOGNITION

In accordance with the *Carers Recognition Act 2012*, Council is required to report annually on its care measurement obligations under Section 11 of the Act.

Council has promoted the principles of the Act to people in care relationships who receive Council services and to the wider community by:

- Distributing printed material through relevant Council services;
- Providing information to organisations represented in Council/community networks.

Council has taken all practicable measures to ensure staff, Council agents and volunteers working for Council are informed about the principles and obligations of the Act by including information on the care relationship in:

- Council induction and training programs for staff working in Aged and Disability Services, Community Services and front-line positions with the general community; and
- Induction and training programs for volunteers working directly with the community.

Council has taken all practicable measures to review and modify policies, procedures and supports to include recognition of the carer relationship and has provided the following additional activities and resources to recognise the care relationship.

- Staff supported an event hosted by local Parkinson's Group during National Carers' week.
- Aged & Disability services staff recognised carers and the person they care for while delivering services during National Carers week.
- Ongoing provision of flexible respite services for carers under the Home and Community Care Program.

DISABILITY ACTION PLAN

In accordance with Section 38 of the *Disability Act 2006*, Council is required to prepare a Disability Action Plan (DAP), and must report on its implementation in the Annual Report.

The implementation of the previous DAP was reviewed and a draft DAP 2018-2021 was developed. Consultation to develop the DAP was undertaken with relevant Council teams between October and December 2017, and with Council's Access and Inclusion Committee at their meetings on 30 November 2017 and 22 February 2018. The final DAP 2018-2021 was adopted at the Council Meeting 30 May 2018.

The DAP outlines Council's approach to building a more inclusive community and to meet both Council's obligations and community aspirations in doing so.

Actions that have been completed or that are completed on an ongoing basis are outlined below:

- Development and implementation of an inclusive drama project, called *(it's no) drama*;
- Council business is now more accessible: an improved website, focus on communication access and Council meetings being available via live stream;
- Annual Community Engagement conference includes a focus on access and inclusion;
- Access auditing of Council's community assets, including buildings and reserves, and designated accessible parking, undertaken on a priority basis.

DOMESTIC ANIMAL MANAGEMENT PLAN

In accordance with Section 68A of the *Domestic Animals Act 1994*, Council is required to prepare a Domestic Animal Management Plan (DAMP) at four-yearly intervals and evaluate its implementation in the Annual Report.

A draft DAMP 2017-2021 went out to the community as part of the consultation process as adopted at the Council Meeting of 24 May 2017.

The final DAMP 2017-2021 was adopted at the Council Meeting of 27 September 2017 and outlines the services, programs and policies established to address the administration of the Act and the management of dog and cat issues in the community.

Actions that have been completed or that are completed on an ongoing basis are outlined below:

- Source and purchase several thousand 'lifetime tags' for animal identification;
- Developed an enforcement follow up process;
- Preliminary investigations conducted into the financial viability of appointing consultants to conduct animal registration compliance audits;
- Developed an 'infringement matrix' for issuing domestic animal infringement notices to ensure consistency across the team;
- Animal information articles provided for the public on a quarterly basis and made available via press releases, Facebook and Council's website;
- Lost/found dogs and cats advertised on Council's website, Facebook and local newspapers;
- Annual audits undertaken of premises where declared menacing, dangerous and restricted breed dogs are housed;

- Annual audits of properties housing excess domestic animals via Local Law permits;
- Animal registration database assessed regularly to identify unregistered Domestic Animal Businesses;
- Press releases prepared and issued for successful dog attack prosecutions;
- Menacing, dangerous and restricted breed dog legislation actively enforced;
- Training register maintained for individual officers;
- Officers attend or able to attend at least one training/networking session per year; and
- Officers provided with access to the Bureau of Animal Welfare extranet site.

FREEDOM OF INFORMATION

The *Freedom of Information Act 1982* (the FOI Act) gives the community a legally enforceable right to apply for access to documents held by Council. This access is limited only by the application of exceptions and exemptions provided for under the legislation.

A valid request for access must be in writing, be accompanied by payment of the application fee and must provide enough information to enable the documents to be identified. Access charges may also apply once documents have been processed and a decision on access is made (e.g. photocopying and search and retrieval charges).

Council's Freedom of Information Officer assists the applicant in accordance with the provisions of the FOI Act and handles all requests for FOI access.

There were 20 requests under the Act, and access to five was granted in full or in part, seven were not valid, two were processed outside the Act, there were no relevant documents for three requests and three requests have not yet been finalised.

Further information regarding FOI can be found at www.foi.vic.gov.au and on the South Gippsland Shire Council website.

FOI requests can be lodged online via Council's website or in writing and addressed to the:

PROTECTED DISCLOSURE PROCEDURES

In accordance with Section 69 of the *Protected Disclosure Act 2012* a Council must include in its Annual Report information about how to access the procedures established by the Council under Part 9 of that Act. It is also required to provide certain information about the number and types of protected disclosures complaints investigated during the financial year.

The *Protected Disclosure Act 2012* aims to ensure openness and accountability in government by encouraging people to disclose improper conduct within the public sector and provide protection for people who make disclosures. Procedures on how to make a disclosure to Council are outlined in its Protected Disclosure Guidelines which are available on Council's website on the Council policies page.

During the 2017/18 financial year there were no disclosures received by Council's Protected Disclosure Coordinators to which the Protected Disclosure Guidelines applied. As such there were no assessable disclosures referred to the Independent Broad-based Anti-corruption Commission (IBAC) for assessment.

CONTRACTS

During the 2017/18 financial year Council entered into no contracts valued at \$150,000 (incl. GST) or more for goods or services or \$200,000 (incl. GST) or more for works without engaging in a competitive process as required by Section 186 of the Act.

NATIONAL COMPETITION POLICY

The Victorian Government is obligated to demonstrate that Local Government is compliant with competition policies. Council has a *National Competition Policy* and Council to the best of its knowledge has, in undertaking its functions, complied with Competition and Consumer legislation, has not undertaken any anti-competitive behaviour and has complied with the requirements of Council's *National Competition Policy* during 2017/18.

FOOD ACT MINISTERIAL DIRECTIONS

In accordance with Section 7E(6) of the *Food Act 1984*, if a Council, or the CEO of a Council, is given a direction under subsection (1), a copy of the direction must be published in the Annual Report under Section 131 of the Act. No such Ministerial Directions were received by Council during this financial year.

ROAD MANAGEMENT ACT MINISTERIAL DIRECTION

In accordance with Section 22 of the *Road Management Act 2004*, Council must publish a copy or summary of any Ministerial direction in its Annual Report. No such Ministerial Directions were received by Council during the financial year.

INFRASTRUCTURE AND DEVELOPMENT CONTRIBUTIONS

In accordance with section 46GM and 46QD of the *Planning and Environment Act 1987*, a Council that is a collecting or development agency must prepare and give a report to the Minister for Planning on infrastructure and development contributions including levies and works in kind. The report must be published in a Council's Annual Report.

There were no infrastructure and development contributions disclosed for the 2017/18 financial year for South Gippsland Shire Council.

SECTION 4
OVERVIEW
PERFORMANCE STATEMENT

PERFORMANCE STATEMENT

DESCRIPTION OF MUNICIPALITY

South Gippsland Shire was formed in 1994 from the amalgamation of four municipalities. Located 90 minutes south east of Melbourne, the Shire has an expanding population of 29,124 (ABS estimated resident population 2017).

The Council covers an area of 3,300 square kilometres with substantial coastal frontage. South Gippsland Shire is a spectacular region, with communities nestled among the rolling green hills, and along the coast, linking the mountains to the sea.

The Shire's major centres are Leongatha, Korumburra, Mirboo North and Foster, and other significant townships include Nyora, Toora, Venus Bay, Sandy Point, Poowong, Port Welshpool, Loch, Dumbalk, Welshpool, Meeniyah, Fish Creek, Port Franklin, Koonwarra, Kongwak and Tarwin Lower.

Key industry sectors by employment in the South Gippsland Shire at the last census in 2016 were Agriculture, Forestry and Fishing, Health Care and Social Assistance, Retail Trade, and Construction.

SUSTAINABLE CAPACITY INDICATORS

for the year ended 30 June 2018

Service	Results 2015	Results 2016	Results 2017	Results 2018	Material Variation
Population	\$2,013	\$2,128	\$2,091	\$2,124	No material variation
<i>Expenses per head of municipal population</i> [Total expenses / Municipal population]					
<i>Infrastructure per head of municipal population</i> [Value of infrastructure / Municipal population]	\$14,743	\$16,042	\$15,611	\$15,228	No material variation
<i>Population density per length of road</i> [Municipal population / Kilometres of local roads]	13	13	14	14	The previous result for 2016/17 has been amended from 24 to 14 as the result includes sealed and unsealed roads. The previous result only included sealed roads.
Own-source revenue					No material variation
<i>Own-source revenue per head of municipal population</i> [Own-source revenue / Municipal population]	\$1,522	\$1,670	\$1,630	\$1,672	
Recurrent grants					This indicator is volatile based on the level of grants received each year. Population does not change very much but the higher the level of grants received in a year, the higher the ratio and conversely, the lower the level of grants in a year, the lower the ratio.
<i>Recurrent grants per head of municipal population</i> [Recurrent grants / Municipal population]	\$607	\$414	\$684	\$520	
Disadvantage					South Gippsland residents are more disadvantaged relative to the rest of Australia than they were five years ago. The ABS census indicator shows a decline of one point between the 2016 Census and the 2011 Census. A range of factors (such as housing, homelessness, transport, isolation, employment and education) are calculated to establish the indicator.
<i>Relative socio-economic disadvantage</i> [Index of Relative Socio-economic Disadvantage by decile]	6	6	6	5	

Definitions

"Adjusted underlying revenue" means total income other than:

- (a) non-recurrent grants used to fund capital expenditure; and
- (b) non-monetary asset contributions; and
- (c) contributions to fund capital expenditure from sources other than those referred to above

"Infrastructure" means non-current property, plant and equipment excluding land

"Local road" means a sealed or unsealed road for which the Council is the responsible road authority under the *Road Management Act 2004*

"Population" means the resident population estimated by Council

"Own-source revenue" means adjusted underlying revenue other than revenue that is not under the control of Council (including government grants)

"Relative socio-economic disadvantage", in relation to a municipality, means the relative socio-economic disadvantage, expressed as a decile for the relevant financial year, of the area in which the municipality is located according to the Index of Relative Socio-Economic Disadvantage (Catalogue Number 2033.0.55.001) of SEIFA

"SEIFA" means the Socio-Economic Indexes for Areas published from time to time by the Australian Bureau of Statistics on its Internet website

"Unrestricted cash" means all cash and cash equivalents other than restricted cash.

Libraries					
Participation					
<i>Active library members</i> [Number of active library members / Municipal population] x 100	25%	23%	21%	17%	An Active Library Member is defined as a member who has borrowed a library collection item. A reporting review by West Gippsland Regional Library Corporation found that reporting for this measure had previously incorrectly included library members who had used public computers and Wi-Fi but had not borrowed an item. This has now being corrected for future reporting.

<i>Participation in the MCH service by Aboriginal children</i> [Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x 100	76%	62%	67%	58%	The number of Aboriginal children enrolled in the MCH service increased from 17 to 20, however the number of children that attended the service at least once remained the same as the previous year. Reasons for non-attendance could be a result of declining the service or decided to attend a different MCH in another council.
Roads					
Satisfaction					
<i>Satisfaction with sealed local roads</i> [Community satisfaction rating out of 100 with how Council has performed on the condition of sealed local roads]	27	30	36	46	Council utilised the Customer Satisfaction Survey to clarify the differences between VicRoads roads, Council sealed roads and Council gravel roads to assist participants in rating their satisfaction with each type of road. The survey identified that all three types of roads remain a concern, however gravel roads are the most problematic.

"Unrestricted cash" means all cash and cash equivalents other than restricted cash.

OTHER INFORMATION

for the year ended 30 June 2018

1. Basis of preparation

Council is required to prepare and include a performance statement within its Annual Report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the *Local Government Act 1989* and Local Government (Planning and Reporting) Regulations 2014.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from Council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the Council's Strategic Resource Plan. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variations in the results contained in the performance statement. Council has adopted materiality thresholds relevant to each indicator and measure and explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material because of its nature.

The forecast figures included in the performance statement are those adopted by Council in its Strategic Resource Plan annually and which forms part of the Council Plan. The Strategic Resource Plan includes estimates based on key assumptions about the future that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The Strategic Resource Plan 2017-2021 can be obtained by contacting Council.

CERTIFICATION OF THE PERFORMANCE STATEMENT

for the year ended 30 June 2018

In my opinion, the accompanying performance statement has been prepared in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

Tracey Lindupp, CA
Principal Accounting Officer
Dated: 26 September 2018

In our opinion, the accompanying performance statement of the South Gippsland Shire Council for the year ended 30 June 2018 presents fairly the results of Council's performance in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the Council and by the *Local Government (Planning and Reporting) Regulations 2014* to certify this performance statement in its final form.

Independent Auditor's Report

To the Councillors of South Gippsland Shire Council

Opinion I have audited the accompanying performance statement of South Gippsland Shire Council (the council) which comprises the:

- description of municipality for the year ended 30 June 2018
- sustainable capacity indicators for the year ended 30 June 2018
- service performance indicators for the year ended 30 June 2018
- financial performance indicators for the year ended 30 June 2018
- other information and
- the certification of the performance statement.

In my opinion, the performance statement of South Gippsland Shire Council in respect of the year ended 30 June 2018 presents fairly, in all material respects, in accordance with the performance reporting requirements of Part 6 of the *Local Government Act 1989*.

Basis for Opinion I have conducted my audit in accordance with the *Audit Act 1994* which incorporates the Australian Standards on Assurance Engagements. I further describe my responsibilities under that Act and those standards in the *Auditor's Responsibilities for the Audit of the performance statement* section of my report.

My independence is established by the *Constitution Act 1975*. I and my staff are independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the performance statement in Victoria and have also fulfilled our other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Councillors' responsibilities for the performance statement The Councillors are responsible for the preparation and fair presentation of the performance statement in accordance with the performance reporting requirements of the *Local Government Act 1989* and for such internal control as the Councillors determines is necessary to enable the preparation and fair presentation of the statement of performance that is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the performance statement As required by the *Audit Act 1994*, my responsibility is to express an opinion on the performance statement based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the performance statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Standards on Assurance Engagements will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of this performance statement.

As part of an audit in accordance with the Australian Standards on Assurance Engagements, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of performance statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control
- evaluate the overall presentation, structure and content of the performance statement, including the disclosures, and whether performance statement represents the underlying events and results in a manner that achieves fair presentation.

I communicate with the Councillors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Independent Auditor's Report

To the Councillors of South Gippsland Shire Council

Opinion	<p>I have audited the financial report of South Gippsland Shire Council (the council) which comprises the:</p> <ul style="list-style-type: none"> • balance sheet as at 30 June 2018 • comprehensive income statement for the year then ended • statement of changes in equity for the year then ended • statement of cash flows for the year then ended • notes to the financial statements, including significant accounting policies • certification of the financial statements. <p>In my opinion the financial report presents fairly, in all material respects, the financial position of the council as at 30 June 2018 and their financial performance and cash flows for the year then ended in accordance with the financial reporting requirements of Part 6 of the <i>Local Government Act 1989</i> and applicable Australian Accounting Standards.</p>
Basis for Opinion	<p>I have conducted my audit in accordance with the <i>Audit Act 1994</i> which incorporates the Australian Auditing Standards. I further describe my responsibilities under that Act and those standards in the <i>Auditor's Responsibilities for the Audit of the Financial Report</i> section of my report.</p> <p>My independence is established by the <i>Constitution Act 1975</i>. My staff and I are independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 <i>Code of Ethics for Professional Accountants</i> (the Code) that are relevant to my audit of the financial report in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.</p> <p>I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.</p>
Councillors' responsibilities for the financial report	<p>The Councillors of the council are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the <i>Local Government Act 1989</i>, and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.</p> <p>In preparing the financial report, the Councillors are responsible for assessing the council's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is inappropriate to do so.</p>

Auditor's responsibilities for the audit of the financial report

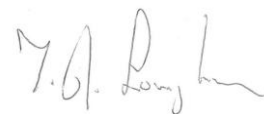

As required by the *Audit Act 1994*, my responsibility is to express an opinion on the financial report based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Councillors
- conclude on the appropriateness of the Councillors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the council's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the council to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Councillors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to the Financial Report

For the Year Ended 30 June 2018

OVERVIEW

Introduction

The South Gippsland Shire Council was established by an Order of the Governor in Council on 2nd December 1994 and is a body corporate. The Council's main office is located at 9 Smith Street, Leongatha.

Statement of compliance

These financial statements are a general purpose financial report that consists of a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows, Statement of Capital Works and Notes accompanying these financial statements. The general purpose financial report complies with the Australian Accounting Standards (AAS), other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1989*, and the *Local Government (Planning and Reporting) Regulations 2014*.

Significant accounting policies

(a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets, liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to Note 5.1)
- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to Note 5.1)
- the determination of employee provisions (refer to Note 4.5)
- the determination of landfill provisions (refer to Note 4.5)
- other areas requiring judgments

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

Notes to the Financial Report

For the Year Ended 30 June 2018

Note 1 Performance against budget

The performance against budget notes compare Council's financial plan, expressed through its annual budget, with actual performance. The *Local Government (Planning and Reporting) Regulations 2014* requires explanation of any material variances. Council has adopted a materiality threshold of the lower of 10 percent or \$100,000 where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

The budget figures detailed below are those adopted by Council on 28 June 2017. The Budget was based on assumptions that were relevant at the time of adoption of the Budget. Council sets guidelines and parameters for income and expense targets in this budget in order to meet Council's planning and financial performance targets for both the short and long-term. The budget did not reflect any changes to equity resulting from asset revaluations, as their impacts were not considered predictable.

These notes are prepared to meet the requirements of the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

Notes to the Financial Report

For the Year Ended 30 June 2018

Note 2 Funding for the delivery of our services

2.1 Rates and charges

2018
\$'000

2017
\$'000

Council uses Capital Improved Value (CIV) as the basis of valuation of all properties within the municipal district. The capital value of a property is the value that it could be reasonably expected to sell for on the open market.

The valuation base used to calculate general rates for 2017/18 was \$7,625 million (2016/17 \$7,574 million).

General Rates	37,869	36,931
Waste management charge	2,824	2,736
Supplementary rates and rate adjustments	200	147
Interest on rates and charges	166	190
Total rates and charges	41,059	40,004

The date of the latest general revaluation of land for rating purposes within the municipal district was 1 January 2018, and the valuation will be first applied in the rating year commencing 1 July 2018.

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

2.2 Statutory fees and fines

Total trade and other receivables	<u>5,610</u>	<u>4,449</u>

Short term receivables are carried at invoice amount. Long term receivables are carried at amortised cost using the effective interest rate method.

(a) Ageing of Receivables

The ageing of the Council's trade & other receivables (excluding statutory receivables) that are not impaired was:

Current (not yet due)	1,332	938
Past due by up to 30 days	1,130	158
Past due between 31 and 180 days	196	239
Past due between 181 and 365 days	81	152
Past due by more than 1 year	164	137
Total trade & other receivables	<u>2,903</u>	<u>1,624</u>

(b) Ageing of individually impaired Receivables

At balance date, other debtors representing financial assets with a nominal value of \$158K (2017: \$127K) were impaired. The amount of the provision raised against these debtors was \$158K (2017: \$127K). They individually have been impaired as a result of their doubtful collection. Many of the long outstanding past due amounts have been lodged with Council's debt collectors or are on payment arrangements.

The ageing of receivables that have been individually determined as impaired at reporting date was:

Current (not yet due)	-	-
Past due by up to 30 days	-	-
Past due between 31 and 180 days	-	17
Past due between 181 and 365 days	-	60
Past due by more than 1 year	158	50
Total trade & other receivables	<u>158</u>	<u>127</u>

Notes to the Financial Report

For the Year Ended 30 June 2018

4.2 Non-financial assets	2018	2017
(a) Inventories	\$'000	\$'000
Inventories held for distribution	281	304
Total inventories	281	304

Inventories held for distribution are measured at cost, adjusted when applicable for any loss of service potential. All other inventories, including land held for sale, are measured at the lower of cost and net realisable value. Where inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

(b) Other assets

Prepayments	61	42
Total other assets	61	42

4.3 Payables

(a) Trade and other payables

Trade payables	2,225	2,038
Accrued expenses	1,658	1,974
Total trade and other payables	3,883	4,012

(b) Trust funds and deposits

Refundable deposits	132	121
Fire services levy	393	418
Retention amounts	83	36
Other refundable deposits	303	324
Total trust funds and deposits	911	899

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited. Trust funds that are forfeited, resulting in council gaining control of the funds, are to be recognised as revenue at the time of forfeit.

Purpose and nature of items

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities.

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a <<monthly>> basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

Other refundable deposits - Other deposits held in trust.

	\$'000	\$'000
Non-current		
Borrowings - secured	3,350	3,350
Total	3,350	3,350

Borrowings are secured by the general rates of the Council

(a) The maturity profile for Council's borrowings is:

Not later than one year	-	-
Later than one year and not later than five years	3,350	3,350
Later than five years	-	-
	3,350	3,350

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method.

The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition.

Non-current	784	743
Total aggregate carrying amount of employee provisions	6,714	6,853

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at the present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits. LSL is measured at present value. Unconditional LSL is disclosed as a current liability. Conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non-current liability.

	\$'000	\$'000
(b) Landfill restoration		
Current	801	-
Non-current	2,067	1,861
	2,868	1,861

Council is obligated to restore its Koonwarra landfill site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

4.6 Financing arrangements

The Council has the following funding arrangements in place as at 30 June 2018

Bank overdraft	500	500
Credit card facilities	350	350
Total facilities	850	850
Used facilities	32	36
Unused facilities	818	814

The useful life historically applied to a component of the road infrastructure assets were reviewed during the year. The useful life used for a subcomponent of this asset class was assessed as not appropriately reflecting the economic consumption of the asset class, resulting in a change of the useful life assigned to the sub component from 15 years to 130 years. This adjustment occurred during the revaluation of infrastructure assets and is included in the revaluation amounts included in Note 5.2(c) below and is not separately identifiable.

Notes to the Financial Statements

For the Year Ended 30 June 2018

Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the price that would be received to sell an asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

In accordance with Council's policy, the threshold limits have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

Land under roads

Council recognises land under roads it controls at fair value.

Depreciation

Buildings, land improvements, plant and equipment, infrastructure and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life.

Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are consistent with the prior year unless otherwise stated.

Repairs and maintenance

Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

Leasehold improvements

Leasehold improvements are recognised at cost and are amortised over the unexpired period of the lease or the estimated useful life of the improvement, whichever is the shorter.

Valuation of land and buildings

Valuation of land and buildings were undertaken by a qualified valuer Andrew Begg, AAPI (council employee). The valuation of land and buildings is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movements in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

A full revaluation of land and buildings was conducted in 2017-18.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2018 are as follows:

	Level 1	Level 2	Level 3	Date of Valuation

Valuation of infrastructure

Valuation of Council's infrastructure assets was performed by Tony Peterson, BE Civil Engineering (Council employee). The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

A full revaluation of infrastructure was conducted in 2017-18.

The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2018 are as follows:

Description of significant unobservable inputs into level 3 valuations

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 10% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$1 and \$423 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs is calculated on a square metre basis and ranges from \$225 to \$8500 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 20 years to 100 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 4 years to 150 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

(a) Investments in associates		
Investments in associates accounted for by the equity method are:		
West Gippsland Regional Library Corporation	1,237	1,122
West Gippsland Regional Library Corporation		
<i>Background</i>		
Council has a 30.55% equity interest in the West Gippsland Regional Library Corporation in 2017-18 (30.55% in 2016/17). The equity interest is calculated based on the proportion it contributes to the operating costs of the services.		
Fair value of Council's investment in West Gippsland Regional Library Corporation	1,237	1,122
Council's share of accumulated surplus/(deficit)		
Council's share of accumulated surplus at start of year	928	797

5.3 Investment property		
Balance at beginning of financial year	729	729
Fair value adjustments	34	-
Balance at end of financial year	<u>763</u>	<u>729</u>

Investment property is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to the Council. Subsequent to initial recognition at cost, investment property is carried at fair value, determined annually by qualified valuers. Changes to fair value are recorded in the comprehensive income statement in the period that they arise.

Valuation of investment property

Valuation of investment property has been determined in accordance with a valuation by Andrew Begg, AAPI (Council Employee) who has recent experience in the location and category of the property being valued. The valuation is at fair value, based on the current market value for the property.

6.2 Related party disclosure

(a) Transactions with related parties

Council makes contributions to West Gippsland Regional Library Corporation as detailed in Note 3.6. During the period there were no other material transactions entered into with related parties by Council.

(b) Outstanding balances with related parties

There were no balances outstanding at the end of the reporting period in relation to transactions with related parties.

(c) Loans to/from related parties

There were no loans in existence at balance date that have been made, guaranteed or secured by the council to a related party.

(d) Commitments to/from related parties

The aggregate amount of commitments in existence at balance date that have been made, guaranteed or secured by the Council to a related party was \$1.80M. All transactions are in line with normal commercial practice.

Note 7 Managing uncertainties

7.1 Contingent assets and liabilities

(a) Contingent assets

Developer contributions to be received by Council in respect of estates currently under development total \$386K (2017 \$379K)

Operating lease receivables

The Council has entered into commercial property leases on its investment property, consisting of surplus freehold office complexes. These properties held under operating leases have remaining non-cancellable lease terms of between 1 and 10 years. All leases include a CPI based revision of the rental charge annually.

Future minimum rentals receivable under non-cancellable operating leases are as follows:

	2018	2017
	\$'000	\$'000
Not later than one year	102	200
Later than one year and not later than five years	268	206
Later than five years	325	390
	<u>695</u>	<u>796</u>

(b) Contingent liabilities

Superannuation

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined below. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists.

Landfill

Under requirement of the Environmental Protection Authority (EPA), Council has a present obligation to perform site rehabilitation works for landfills that it operates on a progressive basis. At balance date, Council has made necessary provisions for rehabilitation of Landfills that are currently in operation. However, the estimates of provision required is dependent on the accuracy of the forecast, timing of work, work required and related costs.

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed and if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable, respectively.

Legal

Council is party to a number of litigation matters arising out of its duty to administer local laws and regulations and operation of Council assets. As at the date of this report, there are no matters where costs have been awarded against Council and no legal obligation of Council has been established, and the Council does not accept future liability. Conversely, Council, like any other party to civil litigation, may be entitled to recover costs arising out of such litigation if it is successful.

(c) Guarantees

Description	Favouree	Amount
Contract Performance Guarantee	South Gippsland Regional Water Board	\$40,000
Contract Performance Guarantee	Department of Energy and Minerals	\$15,000
Contract Performance Guarantee	Department of Natural Resources & Environment	\$20,000
Security Deposit Guarantee	Environment Protection Authority	\$425,000
Security Deposit Guarantee	State of Victoria - Environment	\$451,296
Total		\$951,296

Financial guarantee contracts are not recognised as a liability in the balance sheet unless the lender has exercised their right to call on the guarantee or Council has other reasons to believe that it is probable that the right will be exercised.

7.2 Change in accounting standards

The following new AAS's have been issued that are not mandatory for the 30 June 2018 reporting period. Council has assessed these pending standards and has identified the following potential impacts will flow from the application of these standards in future reporting periods.

Financial Instruments - Disclosures (AASB 7) (applies 2018/19)

This Standard requires entities to provide disclosures in their financial statements that enable users to evaluate: (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed.

Financial Instruments (AASB 9) (applies 2018/19)

The key changes include the simplified requirements for the classification and measurement of financial assets, a new hedging accounting model and a revised impairment loss model to recognise impairment losses earlier, as opposed to the current approach that recognises impairment only when incurred.

Notes to the Financial Statements

For the Year Ended 30 June 2018

Revenue from contracts with customers (AASB 15) (applies 2019/20 for LG sector)

The standard shifts the focus from the transaction-level to a contract-based approach. Recognition is determined based on what the customer expects to be entitled to (rights and obligations), while measurement encompasses estimation by the entity of the amount expected to be entitled for performing under the contract. The full impact of this standard is not known however it is most likely to impact where contracts extend over time, where there are rights and obligations that may vary the timing or amount of the consideration, or where there are multiple performance elements. This has the potential to impact on the recognition of certain grant income.

Amendments to Australian Accounting Standards – Deferral of AASB 15 for Not-for-Profit Entities (AASB 2016-7) (applies 2019/20)

This Standard defers the mandatory effective date of AASB 15 for not-for-profit entities from 1 January 2018 to 1 January 2019.

Leases (AASB 16) (applies 2019/20)

The classification of leases as either finance leases or operating leases is eliminated for lessees. Leases will be recognised in the Balance Sheet by capitalising the present value of the minimum lease payments and showing a 'right-of-use' asset, while future lease payments will be recognised as a financial liability. The nature of the expense recognised in the profit or loss will change. Rather than being shown as rent, or as leasing costs, it will be recognised as depreciation on the 'right-of-use' asset, and an interest charge on the lease liability. The interest charge will be calculated using the effective interest method, which will result in a gradual reduction of interest expense over the lease term. Council does not have significant operating leases that will be impacted as a result of this change.

Income of Not-for-Profit Entities (AASB 1058) (applies 2019/20)

This standard replaces AASB 1004 Contributions and establishes revenue recognition principles for transactions where the consideration to acquire an asset is significantly less than fair value to enable to not-for-profit entity to further its objectives.

7.3 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in the Notes of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of council financial instruments will fluctuate because of changes in market prices. The Council's exposure to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Council's interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes council to fair value interest rate risk / Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rates.

Investment of surplus funds is made with approved financial institutions under the *Local Government Act 1989*. Council manages interest rate risk by adopting an investment policy that ensures:

- diversification of investment product;
- monitoring of return on investment; and
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council have exposure to credit risk on some financial assets included in the balance sheet. To help manage this risk:

- council have a policy for establishing credit limits for the entities Council deal with;
- council may require collateral where appropriate; and
- council only invest surplus funds with financial institutions which have a recognised credit rating specified in council's investment policy.

Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

Council may also be subject to credit risk for transactions which are not included in the balance sheet, such as when Council provide a guarantee for another party. Details of our contingent liabilities are disclosed in Note 7.1(b).

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

Notes to the Financial Statements

For the Year Ended 30 June 2018

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of council's operational liquidity requirements it will not have sufficient funds to settle a transaction when required or will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and
- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue.

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed on the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 7.1(c), and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 4.4.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

(e) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of + 1% and -1% in market interest rates (AUD) from year-end rates of 2.61%.

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

7.4 Fair value measurement

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy, Council's financial assets and liabilities are measured at amortised cost.

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. *AASB 13 Fair value measurement*, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use of an asset result in changes to the permissible or practical highest and best use of the asset. In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis every 2 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Notes to the Financial Statements

For the Year Ended 30 June 2018

Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

8.3 Superannuation

Council makes majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund (the Fund). This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2018, this was 9.5% as required under Superannuation Guarantee legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2017, a full triennial actuarial investigation was completed. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 103.1%. To determine the VBI, the Fund Actuary used the following long-term assumptions:

Net investment returns 6.5% pa
Salary information 3.5% pa
Price inflation (CPI) 2.5% pa.

Vision Super has advised that the estimated VBI at quarter ended 30 June 2018 was 106.0%.

The VBI is to be used as the primary funding indicator. Because the VBI was above 100%, the 30 June 2017 actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Notes to the Financial Statements

For the Year Ended 30 June 2018

Employer contributions

Regular contributions

On the basis of the results of the 2017 triennial actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2018, this rate was 9.5% of members' salaries (9.5% in 2016/2017). This rate will increase in line with any increases in the SG contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

2017 full actuarial investigation surplus amounts

The Fund's full actuarial investigation as at 30 June 2017 identified the following in the defined benefit category of which Council is a contributing employer:

- A VBI surplus of \$69.8 million
- A total service liability surplus of \$193.5 million.
- A discounted accrued benefits surplus of \$228.8 million.

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2017. Council was notified of the 30 June 2017 VBI during August 2017.

2018 interim actuarial investigation

An interim actuarial investigation will be conducted for the Fund's position as at 30 June 2018. It is anticipated that this actuarial investigation will be completed in October 2018.
