

## Council to Acquire Land for Depot in Foster

In the closed session of its 29 February 2020 Meeting, Council resolved that “If still on the market, pursue the acquisition of 4-6 Power Street, Foster...for not more than the valuation.”

Council has now had its offer for the land accepted by the vendor.

The strategic land purchase will facilitate the relocation of the Foster works depot from 24-26 Pioneer Street as the current site that has been problematic given its close proximity to the schools and CBD.

The relocation of the Foster works depot to the new site in Power Street will not occur until the Foster Structure Plan review is complete in 2020/21 as this exercise will determine the best use for the land at 24-26 Pioneer Street.

More information will be released after settlement.
