Annual Report 2019/20

South Gippsland
Shire Council
South Gippsland
Shire Council

South Gippsland Shire Council's 2019/20 Annual Report provides a detailed account of Council's achievements, challenges and performance measures for the past financial year. It demonstrates the breadth of Council's operations and the diversity of services delivered to the community.

Significant efforts have been made over the past twelve months to re-gain the community's faith, trust and respect in the Council. The positive trends in the 2020 Customer Satisfaction Survey, shared later in the report, are an indication Council's new direction and leadership are building a strong foundation for the future.

This report is prepared as a key component of Council's commitment to transparent reporting to our community and to meet statutory reporting requirements under the *Local Government Act 1989*. All councils must submit an Annual Report to the Minister for Local Government by 30 September each year.

Council's Vision

Council commenced the year with the former Council's Vision that: *"South Gippsland Shire will be a place where our quality of life and sense of community are balanced by sustainable and sensitive development, population and economic growth."*

Over the 12 months Council has moved forward to establish a new Vision whereby Council aims by 2024 to:

1. Be known for being customer focused;
2. Have made significant progress to entrench a sense of shared community direction across the Shire;
3. Have successfully delivered the agreed Capital Works Program; and
4. Be known for excellence in the services we deliver.

Council's Purpose

To serve in the best interests of the whole Shire, delivering quality services and advocating for community needs.

Council's Values

Administrators and the organisation have worked together through the year to develop the following Values and over the coming year will build on them further:

- Customer Focused
- Accountable
- Respectful
- Acting in the interests of the whole Shire; and
- Pursuing excellence in everything we do.

Council acknowledges Gunnai, Bun Wurrung, Wurundjeri, Gunaikurnai and Bunurong Traditional Owners of this land and all Aboriginal and Torres Strait Islander people who are part of the South Gippsland Community.

Shire at a glance

South Gippsland Shire Council is located in coastal south eastern Victoria, approximately 100km south-east of Melbourne. It is made up of three wards; Tarwin Valley, Strzelecki and Coastal Promontory.

South Gippsland is the southern part of Gippsland, which honoured Sir George Gipps, Governor 1838-1846. The original inhabitants of the South Gippsland area were the Gunnai, Bun Wurrung and Wurundjeri Aboriginal people. South Gippsland Shire Council was formed in 1994 from the amalgamation of four municipalities.

The Shire is bounded by Cardinia and Baw Baw Shires to the north, Latrobe City and Wellington Shire to the east, Bass Strait to the south, and Bass Coast Shire to the west.

The Shire is a rural, residential and tourist area. It encompasses 3,308 square kilometres, including extensive coastal areas and the spectacular Wilsons Promontory National Park. Much of the rural area is used for forestry and agriculture; with dairy, beef, sheep, and snow pea farming being the main agricultural pursuits. Fishing, viticulture and tourism are also important industries that contribute economic diversity to the region.

Other major attractions of the Shire include Port Welshpool Long Jetty, Cape Liptrap Coastal Park, Strzelecki Ranges, Coal Creek Community Park and Museum, the Great Southern Rail Trail, Grand Ridge Rail Trail, Nyora Speedway, Stony Creek Racecourse, Agnes Falls and specialist wineries, gin distilleries and breweries.

The major towns in South Gippsland are Leongatha, Korumburra, Mirboo North and Foster. Other townships include Dumbalk, Fish Creek, Loch, Meeniyah, Nyora, Poowong, Port Welshpool, Sandy Point, Tarwin Lower, Toora, Venus Bay and Welshpool. There are also a number of other smaller rural hamlets.

MESSAGE

Administrator CHAIR

Dear Community,

It is with a great deal of pleasure that I write to you commending this Annual Report detailing the first year of our term as Administrators.

Administrators Brown, Zahra and myself have done a lot of work with both Council staff and the community to build relationships and trust, particularly with those who were sceptical given the local politics prior to our arrival. We have met with close to a thousand people, which is all the more notable when you consider the fact that COVID-19 Pandemic has severely restricted people's ability to get together. We understand that only by connecting with the community we serve, can we make the best decisions needed for the municipality. This is something that we have been passionate about over the last 12 months and are committed to for our term in South Gippsland.

One of our most significant decisions over the past year was to appoint Kerryn Ellis as the Chief Executive Officer for South Gippsland Shire Council. Kerryn came to Council from her role as Director of Corporate Services at Victoria's Independent Broad-based Anti-corruption Commission (IBAC). Prior to working at IBAC, Kerryn was Director of Corporate Performance with the City of Greater Bendigo and Manager of Governance and Innovation at Knox City Council. She has also previously worked for the City of Melbourne and Bayside City Council. We look forward to working with her throughout the remainder of our term.

I would like to take this opportunity to thank Bryan Sword who was Acting Chief Executive Officer when we arrived and supported us ably throughout the initial stages of our appointment. Bryan kept the organisation working well during a very challenging time. We commend him for the guidance offered to ourselves and to the staff.

Since our arrival we have been reviewing the suite of good governance policies and have introduced a Good Governance Framework. We have now commenced work on implementing the changes required by the *Local Government Act 2020*. From our early discussions it has been clear that our first areas of focus will be the new governance rules, training for candidates and councillor inductions. While the training for candidates and councillor induction will not take place until 2021, we have started planning for what this will look like and how we can provide the best support to incoming candidates and councillors at the end of our term.

In keeping with the recommendations of the Commission of Inquiry into South Gippsland Shire Council, we have been working towards implementation of a Community Leadership Program. Council received Expressions of Interest from people keen to participate in the Program throughout April and May. The Program aims to equip participants with a set of skills that will enable them to effectively work with other people, strengthen their leadership capability, manage conflict, delegate and meet objectives. It is hoped participants will use the skills they gain through the Program to positively influence the development of local communities in South Gippsland.

Council adopted the Council Plan 2020-2024 and Annual Budget 2020/21 at its June 2020 Meeting.

The Council Plan incorporates four key objectives:

- United Shire;
- Economic Prosperity;
- Integrated Services and Infrastructure; and
- Customer Focused Organisation.

By retaining a sound financial base, Council has been able to put together a \$2M COVID-19 Community Support Package. The Package covers an expanded grants program that includes business grants, subsidised flu shots, waiving of some business permit fees and the development of a community outreach program in partnership with key agencies to provide community support. Our Support Package has a focus on providing assistance to community clubs and sporting groups so they can re-establish themselves as we overcome the challenges of the COVID-19 Pandemic. We expect that this Package will evolve as the crisis develops and we will remain flexible where we can to provide the best support to our community.

We understand that councils play a critical role in emergency relief and recovery and this has been no different during COVID-19.

Another key focus for us over the past 12 months has been the Capital Works Program. We have attracted close to \$17M in external grants funding over 2019/20 and a number of large projects are in progress across the Shire. We have made significant advancements on the Korumburra Community Hub, Korumburra Streetscape, Mirboo North pool refurbishment, the Great Southern Rail Trail extensions; Jumbunna Road, Korumburra Shared Path and the works on Bair Street in Leongatha.

It is pleasing to note that the Community Satisfaction Survey results show that we are starting to see a recovery in how Council is perceived by its community. We knew it would not be an easy task to rebuild trust in local government given the circumstances prior to our arrival, but it is heartening to know that we are headed in the right direction.

Finally, I would like to make mention of the remarkable adaptability of our staff throughout the last few months. When confirmed COVID-19 cases started to climb in Victoria, we were quick to activate our Pandemic, Municipal Emergency Management, and Business Continuity plans. In particular our Business Recovery Team has done a remarkable job adjusting to the way our organisation functions. Despite our Customer Service Centre being closed since March for face-to-face meetings, the organisation has continued to serve our community whether that be via phone, email or online. Particular thanks to those staff unable to work from home due to the nature of their roles and have continued to work to provide services in the community. Those staff include our Depot crews, Immunisation team, Local Laws officers and Maternal and Child Health nurses. You have done us proud.

I do look forward to a time where we can return to some sense of post-pandemic normality, but for now we are proud of what we have overcome and are thankful that we can provide this report to reflect on and highlight some excellent work throughout 2019/20.

MESSAGE

Chief Executive OFFICER

To all the members of the South Gippsland community,

It has been an honour and a privilege to have spent the past few months as Chief Executive Officer of your Council. When I accepted the role in February 2020 I could not have imagined what the first stage of my five-year term would entail. During my interview process I remember telling the Administrators that I prided myself on my resilience and adaptability – well hasn't that been put to the test!

Thankfully I have inherited a committed and passionate team of employees. The collective desire of the South Gippsland Shire Council staff to serve their local community is exceptional. Being one of the largest employers in the municipality means that many of my colleagues have grown up in the communities that they now work to serve. That connection is important and valuable in our work: Council is not separate to the community, Council is inherently part of the community.

In addition to the terrific staff I'd like to say how much I appreciate the warm welcome I've received from the South Gippsland community. There is so much talent, enthusiasm and pride amongst the South Gippslanders I've met so far, it makes me very excited about our future.

It would be disingenuous of me not to mention the Council dismissal, though. While it is a rare situation to be working alongside Administrators instead of Councillors, I'd like to reassure you all that the three people currently presiding over Council are professionals committed to fulfilling the tasks set them by the Local Government Minister. The work they are doing now will set the foundation for future elected Councils to thrive.

While the organisation has experienced some challenges over the past 18 months, I am keen to lead the organisation towards a brighter future. I am working closely with my leadership team to actively support staff to feel proud of the organisation they work for, and I hope that this will be the springboard for a body of work that will make you proud of the Council who serves you too.

Over the next 12-18 months I will be putting my energy into re-emphasising that you – the members of our community – are and should always be the focus of our work. Council staff are employed to serve the community and I will be unequivocal in making that the primary motivation of our work over the five years of my term. To best understand the work that you want us to do we need to get better at engaging with the community. By that I mean both those who are already in regular contact with Council, and also the 29,000 people we serve who are quietly going about their lives not really engaging with us unless we do something that annoys them! The more people we hear from the better our services will reflect the needs and desires of our communities.

It will come as no surprise to any of you who have read up on my background that I am committed to good governance. This is also a focus of the Administrators and I feel confident that together we can develop a suite of best-practice policies that will give the community and the Minister assurance that things are done properly in South Gippsland when it comes to governing for all residents and ratepayers.

I feel as though I have arrived at a time when South Gippsland is on the cusp of something extraordinary. The tourism industry is maturing, the arts sector is building a critical mass, our community groups are working to achieve remarkable things. Council will do its utmost to support business and investment because we understand that without local jobs we don't have the vibrant communities that make this the wonderful place that it is. That has probably never been as important as right now. The challenges of COVID-19 mean that we will have to work harder and closer than at any other time in the history of this Council. You have my personal commitment that we will be working to support businesses and communities to recover from this.

Finally, I would like to thank Bryan Sword who as Acting Chief Executive Officer kept the organisation together throughout a very difficult time. His leadership over that period is much appreciated, as is his support of me over these last few months.

- The 2020-2030 Sport and Recreation Infrastructure Strategy adopted at the 24 June 2020 Council Meeting.

COUNCIL'S FUNDING EFFORTS

Council's Community Grant Program

Council funded 71 community groups through its 2019/20 Community Grants Program. These grants support and help fund the development of community assets, build community capacity, strengthen community sport and create community culture.

The total grant funding allocated by Council was over \$258,000 for a range of projects within the Shire. This funding contribution will support community projects with a value of nearly \$800,000.

COMMUNITY CLUSTER MEETINGS

Council has established a range of direct community cluster meetings that provide a platform for Administrators and Council staff to engage with community groups and towns on topics related to particular areas within the Shire. Cluster meetings were held in towns such as Kongwak, Port Welshpool, Fish Creek, Tarwin Lower, Mirboo North, Dumbalk, Yanakie, Toora and the Western District of the Shire.

COMMUNITY LEADERSHIP PROGRAM

Council endorsed the Community Leadership Program which aims to equip participants with a set of skills to effectively work with other people, strengthen their leadership capability, manage conflicts, delegate and meet objectives.

A total of 37 applicants submitted Expression of Interest to the Program. The Program is set to begin in the first half of the next financial year 2020/21.

IMPROVE SOUTH GIPPSLAND'S BUILT ASSETS & VALUE OUR NATURAL ENVIRONMENT

MAJOR CAPITAL WORKS

Korumburra Streetscape

The scope of this project was amended to include works to the Little Commercial Street Precinct to accommodate the Korumburra Community Hub. Concept plans have been developed. This project will move into the Advocacy category and remain as a Priority Project for 2020/21 to seek further funding opportunities.

Great Southern Rail Trail

Removal of the rail infrastructure is near completion at the end of June 2020 for Leongatha to Korumburra section.

The planning and design is nearing completion as at the end of June 2020 for the section Korumburra to Nyora. The removal of rail infrastructure is well underway and is on schedule to be completed by the end of 2020.

Council's Road Maintenance

An additional \$900,000 was included in the 2019/20 Annual Budget for road maintenance and roadside infrastructure. A total of \$250,000 was dedicated to rural roadside vegetation and \$650,000 was allocated to gravel roads and drainage.

EARLY YEAR'S CENTRE

Council supported the finding of a business case for an Integrated Early Learning Centre in Leongatha at the 24 June 2020 Council Meeting. Council also supported the commencement of the design and construction of the centre.

The centre will address the demand for children's services in the Shire and assist with the increased demand for three-year-old kindergarten.

COMMUNITY SATISFACTION RESULTS (OUT OF 100 POINTS)

CHALLENGES

- Adapt and respond to the economic impact of the COVID-19 Pandemic to ensure the safety of our community, the support of local businesses and the continuity of Council's service delivery.
- Increase customer satisfaction in service delivery and improve Council's reputation.
- Communicate timely and accurate information to community on how and why decisions are made.
- Develop South Gippsland into a united, cohesive community with a belief that the interests of every ratepayer are best served through the development of the region as a whole.
- Achieve State and Federal Government funding for new infrastructure, including Council's Priority Projects and other community assets.
- Manage the community's expectations of funding for new infrastructure and higher levels of service in a rate capped environment.
- Adapt and respond to the challenges associated with climate change.
- Implement legislated requirements in the *Local Government Act 2020* that received Royal Assent on 24 March 2020.

Make South Gippsland the most attractive region in Victoria in which to live, invest and work.

FUTURE

- Support the economic and social recovery of the Shire, including its businesses and diverse communities, through the continuing impacts of the COVID-19 Pandemic.
- Enhance customer experiences through projects that are aimed at improving processes, policies and standards.
- Develop and support emerging and existing leadership skills within the community.
- Establish the good governance framework and policy direction for the organisation ready for the new Council to be elected in October 2021.
- Create a shared vision with the community for the future of South Gippsland.
- Maximise the value South Gippsland derives from its location, resources and natural advantages.
- Determine the pace of growth required for the Shire and its implications on rates, lifestyle, infrastructure demands, communities and demographics.
- Optimise the strengths of the Shire in being a significant 'food bowl' with reach into regional, state, national and international markets.
- Advocate for 'Priority Projects' that will deliver economic growth and community benefits.

Pursue better ways of delivering services that are valued by the community.

Financial Overview

FINANCIAL OVERVIEW

Council's financial position continues to remain sound. Detailed information relating to Council's financial performance is included within the Financial Statements and Performance Statement sections of this Report, with a summary below.

Operating Position

Council returned a deficit of \$2.76M in 2019/20. This deficit follows a surplus from the prior year of \$5.70M. The primary reason for the deficit is an \$11.42M impairment of Land Under Roads, as a result of a change in the valuation methodology for this asset category. Excluding this one-off adjustment, the operating result would have been a surplus position of \$8.66M.

In comparison to 2018/19, the 2019/20 financial year saw a reduction in employee expenses (3.3%) and reduced borrowing costs (65.5%) due to repayment of \$3.35M of outstanding borrowings in November 2019. Repayment of previous loans has improved our overall position, reduced financial risk and reduced borrowing costs. Two additional loan facilities have been secured with Treasury Corporation of Victoria for significant local projects including Mirboo North Pool and the Korumburra Community Hub, each with subsidised interest rates well below market rates. As at 30 June 2020, \$0.8M has been drawn down from the new loans.

The 2019/20 year has seen the impact of COVID-19 Pandemic, which has influenced financial results and contributed to a slowdown in capital spending. The majority of this expenditure will push into the 2020/21 financial year.

Council initiated the \$2M Community Support Package in response to the Pandemic with some of these costs occurring in the 2019/20 year. An immediate response was the cessation of many fees and charges creating a reduction in user fee income. Materials and services expenditure has decreased by 15.1%, with prior year results including \$2.97M on the Long Jetty restoration and no similar non-capital major projects in 2019/20.

Liquidity

Cash (this includes 'cash and cash equivalents' and 'other financial assets') has increased to \$7.79M. In addition, Council has investments of \$31.0M as at 30 June 2020.

The working capital ratio, which assesses Council's ability to meet current commitments, is calculated by measuring Council's current assets as a percentage of current liabilities.

Council's result of 346 per cent increases working capital capacity from the previous year result of 298 per cent. This indicator conveys that for every \$1 of current liability, Council has \$3.46 in current assets. This is an indicator of a sound financial position and is above the expected target band of 100 per cent to 300 per cent.

Obligations

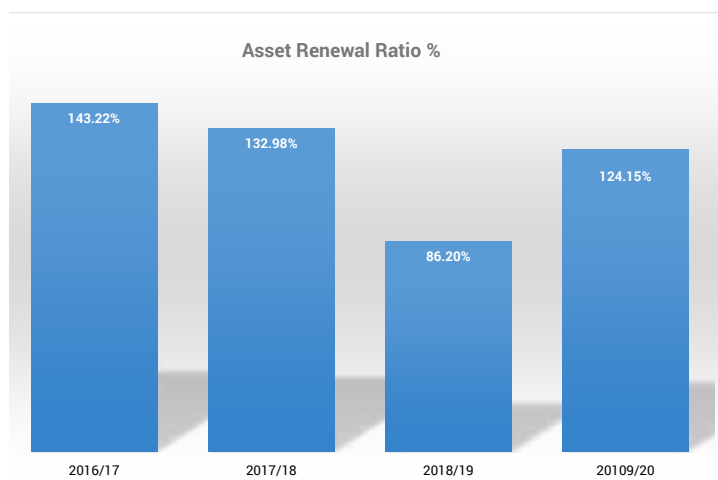

In November 2019, Council completed repayments on all loans owing, and were debt free for the first time in over 20 years. A new construction drawdown facility was utilised during the year, with \$0.8M drawn down as at 30 June 2020. Council's debt ratio (measured by comparing interest bearing loans and borrowings to rate revenue) at the end of the financial year was 1.85 per cent; a significant reduction on the 7.89 per cent of 2018/19. Council has no concern over its ability to repay debt.

Asset Renewal

Council aims to ensure that it is able to maintain its infrastructure assets at the expected levels, while at the same time continuing to deliver the services needed by the community. Council invested \$13.9M in asset renewal in 2019/20; a considerable increase on \$8.9M during the 2018/19 year.

Council's asset renewal ratio, which is measured by comparing asset renewal expenditure (\$13.89M) to depreciation (\$11.99M), was 115.9 per cent, which is investment above the expected target band of 90 per cent to 110 per cent.

Stability and Efficiency

Council raises revenue through a range of income streams including rates, user fees, fines, grants and contributions. Council's rates concentration, which compares rate revenue to adjusted underlying revenue, was 64.2 per cent for the 2019/20 year which is in the mid-range of the expected target band of 40 per cent to 80 per cent.

The average rate per property assessment is \$2,014, including both rates and garbage/waste charges.

ECONOMIC FACTORS

The past year saw very positive economic news for South Gippsland with favourable weather conditions for agricultural production. Unfortunately, this has been countered by major challenges for many of our businesses due to the COVID-19 Pandemic.

The Shire had an annual economic output of \$3.7 billion and Gross Regional Product of \$1.8 billion with increases of over 5 per cent from the previous year. The unemployment rate fell to 2.2% in September 2019, the lowest rate since records began and lowest in Gippsland. South Gippsland also had record visitor numbers of over 1.2 million people in 2019/20.

There have been strong increases in property valuations in a number of towns and strong interest from people seeking to relocate to South Gippsland from Melbourne.

Major infrastructure projects to support economic development were undertaken over the year. These include completion of the Loch streetscape, bridge renewals, commencement of the Bair Street refurbishment in Leongatha and the \$115M realignment of the South Gippsland Highway at the Koonwarra bends. These works will improve the transport connectivity of the Shire and the operation of the retail precincts.

There is an increased number of major infrastructure projects underway in Victoria. This is placing pressure on tender prices for infrastructure projects. There are also increasing costs for aggregate and other material for road infrastructure and maintenance. The ongoing impact of these pressures will be that fewer projects may be completed within the available resources of Council.

The COVID-19 Pandemic has presented major economic challenges to the Shire, most immediately to the tourism and retail sectors but also to many other businesses and industries. Many businesses have accessed support from Federal Government's Jobkeeper Program, the Victorian Government's Business Support Fund and Council's Community Support Package. The COVID-19 Pandemic will continue to impact heavily on the local economy for some time, however Council is continuing to receive regular enquiries from businesses seeking to establish or expand within the Shire, which is positive.

MAJOR CHANGES

After the dismissal of the South Gippsland Shire Council by the Minister of Local Government on 19 June 2019, the three Administrators have been working to ensure stability within the Shire, build community leadership skills and strengthen good governance practices and policy directions within Council.

In February 2020, Council appointed Kerry Ellis as the new Chief Executive Officer (CEO) to South Gippsland Shire Council. Bryan Sword guided the organisation through the initial transition as the Acting CEO from 25 May 2019 until Kerry Ellis's commenced on 10 March 2020.

Council adopted its Good Governance Framework in December 2019 which aims to provide stronger governance and set the culture within the organisation. With the introduction of the *Local Government Act 2020*, gazetted in March 2020, the key priorities for Council have been to develop new Governance Rules, Public Transparency Policy, Delegated Committees, Councillor Expenses Policy and setting Audit and Risk Charter and Committees. Council is working towards achieving these priorities by the completion date of 1 September 2020. These will be implemented across the organisation in the next financial year.

In June 2020 Council adopted a new Council Plan, setting a new direction and values for the Council. Annual initiatives have been established for the coming year, while successfully achieving the majority of initiatives for this year.

The sudden commencement of the COVID-19 Pandemic required Council's business continuity plans to be enacted immediately, resulting in the majority of the organisation transitioned to a 'work from home' environment within a week and with minimal disruption to services. Some external services, including events and caravan park operations, had to stop or be significantly reduced due to the government restrictions.

The continuing negative impacts of the COVID-19 Pandemic are still being realised by local businesses and the community. Council responded pro-actively to support businesses and ratepayers struggling through this pandemic. Initially the *Rates and Charges Hardship Policy* was broadened to cover businesses and waive some of the previous requirements. Further, a \$2M relief support package adopted by Council as part of the 2020/21 Annual Budget contains a series of local economic and social recovery actions aimed at complementing the relief supports provided by other levels of government.

A Community Leadership Program has been developed by Council. Expressions of Interest from interested community members to participate in the program have been received. This exciting and innovative program will broaden the leadership skills of existing and emerging leaders within our community. The program has been developed in response to one of the actions the Administrators have been given by the Minister for Local Government. It will be implemented over the coming two years.

KEY OUTCOMES OF THE COUNCIL PLAN 2017-2021

As Council has adopted a new 2020-2024 Council Plan, this Annual Report captures the final key outcomes achieved through the strategic indicators of the 2017-2021 Council Plan, as the plan has been terminated one year early.

Outcomes include:

- Through organised advocacy approaches made with State and Federal politicians, targeted grant funding, community engagement and participation, supported by Council funding many of Council's Priority Projects and community infrastructure assets have been completed or significantly advanced including:
 - Port Welshpool Jetty officially opened, boosting local tourism in the southern section of the Shire;
 - Leongatha Heavy Vehicle Alternate Route has been built diverting trucks and through-traffic away from the shopping precinct to reduce congestion;
 - Great Southern Rail Trail – Korumburra to Leongatha, Korumburra to Nyora and Welshpool to Alberton links supported and works well advanced.
 - Leongatha Revitalisation Project - Bair Street Leongatha and the Railway Station Stage 1 streetscape improvements works have advanced.
 - Mirboo North Pool redevelopment funded and works nearing completion;
- Leongatha Community Hub development plans progressing;
- Korumburra Shopping Centre revitalisation plans progressing; and
- Korumburra Community Hub development plans progressing
- The wide range of actions taken through the allocation of community grants, support to various sectors including sports and recreation, arts and culture, men's sheds and young people have strengthened and empowered many communities to progress projects and areas of interest in local settings. Some of the key outcomes include:
 - Over 70 community projects funded through community grants ;
 - Over \$258,000 allocated to community projects through community grants;
- In response to ongoing community concerns with the condition of local roads, Council has modified the budget to increase funding into the maintenance of local sealed roads, gravel roads, roadside drains and vegetation and expansion of the footpath network.
- The increased satisfaction through these targeted works has seen the annual Customer Satisfaction Survey for the condition of sealed local roads improve from a low score of 27 in 2015 to maintaining results of 46, 48 and 47 over the past three years.

- Good governance practices has been strengthened with the development and adoption of the Good Governance Framework. This sets out five 'outcomes of good governance' that are driven through the eight pillars of leadership, decision making, structure, culture, communication, capability, risk management and monitoring of performance.
- Since the framework's adoption a series of improvements have been made to governance policies and practices, with more planned in the coming year. Running parallel with the Good Governance Framework, Council has re-set the direction for the organisation through the 2020-2024 Council Plan.
- Under the leadership of the Administrators, community satisfaction, measured through the Annual Customer Satisfaction Survey has regained a significant ten point increase in 'Overall Council Direction' and a strong five point increase in 'Overall Image and Reputation' in the past twelve months, following the demise of the former Council.

1.4

DESCRIPTION OF OPERATIONS

Council's role is to provide leadership for the appropriate governance of the Shire and its local communities. Council undertakes its responsibilities in accordance with both the *Local Government Act 1989* (the 1989 Act) and the *Local Government Act 2020* (2020 Act), and a large number of other Acts, to provide good governance for the benefit and wellbeing of the municipal district.

South Gippsland Shire Council is responsible for more than 100 diverse services, ranging from family and children's services, sealed and gravel road maintenance, open space and recreation services, youth facilities, waste management and community buildings; to matters concerning economic development, land-use planning, customer service and ensuring accountability for Council's long-term financial sustainability.

The provision of community services and infrastructure supports the wellbeing and prosperity of South Gippsland's community. Council's vision, strategic objectives and strategies seek to further improve services and facilities. These have been revised from the 2017-2021 Council Plan to the new 2020-2024 Council Plan. Further details on the services and resources allocated by Council are contained in the 2019/20 Annual Budget and now in the 2020/21 Annual Budget.

The delivery of services, facilities, support and advocacy to achieve the strategic objectives is measured by a set of service performance indicators and measures.

1.8 Council Staff

The Council appointed a new Chief Executive Officer (CEO), Kerry Ellis, in February 2020, to manage the day-to-day operations of the Council. The CEO together with three directors form an Executive Leadership Team (ELT) that leads the organisation with support from department managers and staff.

At 30 June 2020, Council had 261.5 Full Time Equivalent (FTE) employees including ongoing, temporary and casual positions. This data is provided at a single point in time. It does not consider employment context such as fixed term, grant funded, capital works, leave replacement, in sourcing of previous contracted services, or seasonal factors.

NUMBER OF STAFF

Throughout the year employee numbers have fluctuated with an overall interim increase from 252 FTE at the commencement of the year to 261 FTE at year end. These numbers are set at two specific points in time and do not take into consideration the broader employment context. Taken as numbers on their own it appears to be an increase of approximately nine FTE, however many of the increases are of a temporary nature and will not result in a permanent increase in staffing numbers.

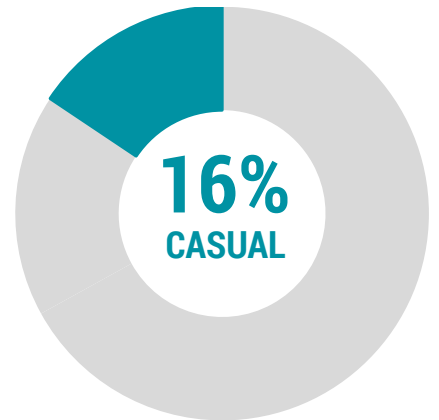

The following contextual factors apply here:

- Ten positions needed to be duplicated for varying lengths of time throughout the year to backfill maternity leave and staff on long service leave. Council has a legal responsibility under the Employment Agreement to cover payment of leave, and an operational requirement to pay for temporary staff replacing them to ensure the services continue to be provided. These are temporary arrangements that will not increase the permanent number of staff.
- Three vacant positions at the end of 2019, were filled during the year. These were not new positions, only existing positions that were not being paid at the end of 2019, but are now captured in the FTE and headcount at the end of 2020.
- Three new fixed-term positions have been established, including a Risk officer and Freedom of Information officer appointed due to a significant increase in workload demands, and an 'It's No Drama' Project officer, that is grant funded.

EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

Council is dedicated to providing a workplace that is free from all discrimination, bullying and harassment and in which each employee is treated with dignity, courtesy and respect.

The organisation adopts a proactive approach to the prevention of discrimination through training, policy development, equal employment opportunities and utilising Contact Officers.

CORPORATE SOCIAL RESPONSIBILITY

Employees support local and registered charities through a staff donation program.

ENTERPRISE AGREEMENT

Council has established a new Enterprise Agreement which will expire in June 2022. The Agreement outlines the terms and conditions of work, and importantly, describes the relationship between what we do, to the Council Plan, and its focus on benefitting all of South Gippsland.

PREVENTING VIOLENCE AGAINST WOMEN

Through Council's *Workplace Health and Wellbeing Plan*, a team of supportive staff have developed and implemented a range of violence prevention initiatives, activities and events. Council has made available Domestic Violence Leave to support any employee that may require assistance. Council is also active in supporting the Community to address domestic violence issues.

EMPLOYEE PERFORMANCE & PROFESSIONAL DEVELOPMENT

Professional development of our people is designed to ensure capabilities are enhanced that maximise delivery of services and outcomes for the community. Employees are striving to do their best and are supported to achieve their best.

Developing leadership and enterprise capabilities that enable us to achieve the Council Plan are a key focus. Specific training in technical, mechanical, compliance, safety and knowledge-based areas are provided.

A second and third stream of capability development occurs with a combination of internal and external opportunities to build talent and improve employee potential for future roles. An increasing emphasis is placed on employees driving their own development. This includes secondments, special project work, study support and a mentoring program.

Performance planning is also undertaken and as a regular and normal part of discourse, learning from everyday experiences is directed towards continuous improvement.

An enterprise on-line learning platform will enhance these activities. Progress of outcomes from the employee Organisation Effectiveness Survey will continue to focus on organisation development initiatives.

COVID-19 Pandemic has enabled the enterprise to demonstrate remarkable resilience, be quick to change and adapt, and continue its intense focus on, and achievement of, positive community outcomes.

HUMAN RIGHTS CHARTER & RESPONSIBILITIES

Council's *Human Rights Policy* demonstrates Council's commitment to considering and respecting human rights when developing and implementing local laws, policies, procedures, decisions and services. The policy outlines the twenty human rights articulated in the *Charter of Human Rights and Responsibilities 2006 (Charter)*.

HEALTH & WELLBEING

Council maintains a workplace that supports healthy lifestyles and encourages employee participation in programs that are designed to improve overall health and wellbeing. This is done through Council's *Workplace Health and Wellbeing Program*.

COVID-19 Pandemic has had a significant impact on the health and wellbeing of people in the community and on members of staff. Supporting our staff, so they can continue to support our community, will continue to be a priority. These include access to Council's Employee Assistance Program, Employee Contact Officers, and a library of resources.

CHILD SAFETY COMMITMENT

Council has zero tolerance towards child abuse. Council has a moral and legal responsibility to ensure that all children and young people are safe in our direct care and supervision.

Council provides training, resources, information and guidance to staff to ensure the Child Safe Standards are followed and implemented.

Victorian Planning

& ACCOUNTABILITY FRAMEWORK

The planning and Accountability Framework is found in part 6 of the *Local Government Act 1989* (the Act). The Act requires councils to prepare the following planning and reporting documents:

- The four-year Council Plan sets out what will be achieved during the Council's term, including an annual review of the Council Plan directions;
- A rolling Strategic Resource Plan for a period of at least four years is updated annually and included in the Council Plan;
- The Annual Budget for each financial year sets out what actions will be undertaken to progress achievement of the Council Plan directions.
- An Annual Report outlines Council's performance against the Annual Budget and Council Plan each financial year.

Strategic Objective

Strengthen Economic Growth & Prosperity

A strong, resilient and growing regional economy with vibrant commercial precincts where businesses are supported and jobs created.

Our region's agriculture, value adding, food production and manufacturing sectors are promoted and supported, recognising that the diversity and strength of these industries is the major economic base of the Shire.

Attracting businesses, investments, tourism and new residents will grow the Shire.

A well-planned Shire that identifies areas for population growth, protects natural resources and agricultural land, guides development, considers climate change and encourages sustainable economic growth – all supported by appropriate infrastructure.

The unique character of our smaller towns is recognised and supported.

STRATEGIC OBJECTIVES

1.1 Develop a 'vision' for the future growth and development of the Shire in partnership with the community.

1.2 Identify Priority Projects and advocate to the State and Federal Governments for funding and support.

1.3 Develop a strategy to grow the Shire, attract investment and promote tourism consistent with the 'vision'.

1.3.1 Review and implement the Economic Development and Tourism Strategy to provide direction to support our businesses to grow, generate employment and pursue economic development and the attraction of visitors.

1.3.2 Undertake a review of residential, commercial and industrial land supply to ensure that it is adequate to support growth.

1.3.3 Support our diversified agricultural sector.

1.3.4 Investigate feasibility of further extensions and upgrades to the Rail Trails, particularly between Leongatha and Korumburra and explore opportunities to develop nationally significant trails.

1.3.5 Finalise South Gippsland's Branding Strategy that supports the regional 'Destination Gippsland' branding and use both brands to promote the Shire.

1.3.6 Encourage increased tourism through the support of local community events and initiatives.

1.3.7 Undertake a feasibility study into establishing a multipurpose 'Equestrian / Expo Centre' within the Shire.

1.4 Undertake a coastal study to explore opportunities for developing the Shire's coastal areas, while still protecting the coastline and environment.

Initiatives

COUNCIL PLAN

The following statement reviews the progress of Council in relation to the initiatives identified in the 2019/20 Budget for the year:

Identify and target 'Priority Projects' requiring external funding and advocate to State and Federal Governments seeking funds to implement them, particularly 'project ready' priorities.	by 30 June 2020	TARGET ACHIEVED
<p>Infrastructure Delivery and Economic Development and Tourism</p> <p><i>Council identified and adopted in September 2019 its 2019/20 Priority Projects:</i></p> <p><i>Priority Projects for advocacy:</i></p> <ul style="list-style-type: none"> • Great Southern Rail Trail Extension Stage 1 - Leongatha to Korumburra; • Great Southern Rail Trail Extension Stage 2 - Korumburra to Nyora; and • Korumburra Community Hub. <p><i>Priority Projects for development:</i></p> <ul style="list-style-type: none"> • Korumburra Streetscape; and • Leongatha Community Hub. 		<p><i>Great Southern Rail Trail Extension Stage 1 - Leongatha to Korumburra:</i></p> <p>Removal of redundant rail infrastructure is approaching completion. An application of \$500,000 has been approved from Regional Development Victoria (RDV) for this section. As a result of the application being successful, this project will no longer be considered a Priority Project for Advocacy with construction works to commence in 2020/21.</p> <p><i>Great Southern Rail Trail Extension Stage 2 - Korumburra to Nyora:</i></p> <p>The project has progressed significantly with planning/design nearing completion and the rail infrastructure currently being removed. An application to Sport and Recreation Victoria (SRV) for \$800,000 has been approved. As a result of the application being successful, this project will no longer be considered a Priority Project for Advocacy with construction works to commence in 2020/21.</p> <p><i>Korumburra Community Hub:</i></p> <p>During 2019/20, this project advanced enough for Council to submit an application to the <i>Living Libraries Infrastructure Fund</i> for \$750,000 which was approved. In addition, Council submitted an application to the <i>Community Infrastructure Loans Scheme</i> for \$5M which was also approved as a low cost interest loan to Council. It is anticipated that tenders will be sought for the construction of this project in September 2021. This project is no longer considered a Priority Project for Advocacy.</p>

Major Initiatives

<p>Identify and target 'Priority Projects' requiring external funding and advocate to State and Federal Governments seeking funds to implement them, particularly 'project ready' priorities.</p> <p>Infrastructure Delivery and Economic Development and Tourism</p>	<p>by 30 June 2020</p>	<p><i>Continued from previous page</i></p> <p><i>Korumburra Streetscape:</i></p> <p>The scope of this project was amended to include works to the Little Commercial Street Precinct to accommodate the Korumburra Community Hub. The design of the Community Hub required the development of concept plans for the Little Commercial Street Precinct. The concept plan has now been developed and detailed design to commence soon. It is anticipated that works will commence late in the 2020/21 financial year.</p> <p>During 2019/20, the project had advanced enough that allowed Council to submit an application to the <i>Community Infrastructure Loan Scheme</i> for \$5M which was approved as a low cost interest loan to Council. Although the loan has been approved, there may still be an opportunity to seek additional funding towards this project in 2020/21. Therefore, it is recommended that this project move into the Advocacy category and remain a Priority Project for 2020/21.</p> <p><i>Leongatha Community Hub:</i></p> <p>This project is still in the planning phase. Although planning will continue in 2020/21, it is recommended that this project be removed as a 2020/21 Priority Project as it is still in the early development phase.</p>
<p>Develop and commence implementation of a 10+ year Community Vision over the two year term of the Administrators, by instigating a significant community consultation project. The scope and process to be defined and reported to Council within the 2019/20 financial year.</p> <p>Corporate and Community Strengthening</p>	<p>by 30 June 2020</p>	<p style="text-align: right;">TARGET ACHIEVED</p> <p>The Community Vision project commenced with a briefing to Administrators in March. The initial extent of development was revised by the Administrators when the new Local Government Act 2020 was gazetted, requiring the next Council elected to develop, or review, the ten year Community Plan in the first year of their term.</p> <p>A report was presented to the 27 May 2020 Ordinary Meeting of Council. Council resolved to leave the development of the Community Vision to the next Council to be elected in October 2021. In the interim Council will develop a governance framework for the consultation program prepared ready for the new Council to utilise.</p>

Commence a review of Council's Building Portfolio by 30 June 2020.	by 30 June 2020	<p>TARGET ACHIEVED</p> <p>An external consultant was engaged that specialised in Building Condition Assessments to provide Council with a systematic and detailed inspection regime for all Council owned and managed buildings.</p> <p>The data and portfolio is under review via Assetic Predictor and Council's Social Community Infrastructure Blueprint.</p>
<p>Infrastructure Planning</p> <p>Review and update the Compliance and Enforcement Policy and presented to Council for adoption.</p> <p>Regulatory Services</p>	by 30 June 2020	<p>TARGET ACHIEVED</p> <p>At the 18 December 2019 Council Meeting, Council resolved to discontinue the process for the General Local Law (Amendment 1 2019) and endorsed the continued application of the current General Local Law (2014) until its sunset renewal in April 2024.</p> <p>A review of Council's <i>Compliance and Enforcement Policy</i> was conducted and remains relevant with minor amendments made.</p> <p>This policy was adopted at the 24 June 2020 Council Meeting.</p>
<p>Work collaboratively with leaders from various water management authorities and agencies through DELWP's 'Western Port Integrated Water Management Forum' and the 'Central and South Gippsland Integrated Water Management Forum,' to create a vision and strategic actions reflecting the unique and environmental context of each catchment and their communities. Progress will be reported in Council's Organisational Performance Reports.</p> <p>Infrastructure Planning</p>		<p>PROJECT SIGNIFICANTLY PROGRESSED</p> <p>There is ongoing attendance and participation by Council in Forum meetings. The group is primarily concentrating on the Gippsland Forum Westernport catchment area.</p> <p>Strategic Direction Statements (SDS) for Westernport and Gippsland Forums completed and potential projects identified.</p> <p>Projects considered for Council include:</p> <ul style="list-style-type: none"> Using recycled water for gravel road maintenance which requires negotiation and input from water authorities and Environment Protection Agency (EPA); and Integrated Water Management Strategy for South Gippsland which requires approximately \$45,000 from Council to obtain dollar-for-dollar grant funding from the Department of Environment, Land, Water and Planning (DELWP). <p>It should be noted that 2018/19 and 2019/20 grant funding allocation was being directed to prioritise SDS projects in drought affected areas of Victoria.</p> <p>This Council project is currently not being considered within the current 2019/20 grant funding. The earliest this could be considered would be in the 2020/21 financial year once the Victorian State budget is finalised. Due to COVID-19 Pandemic there is currently no funding available.</p>

Waste Collection					
Satisfaction					
<i>Kerbside bin collection requests</i>	99	87	91	92	There has been a slight increase in the number of customer requests received due to an additional 95 properties opting to upgrade from a six-month waste collection service to a 12-month service in Venus Bay, during the COVID-19 Pandemic lock down period (April - June).
[Number of kerbside garbage and recycling bin collection requests / Number of kerbside bin collection households] x 1,000					
Service standard					
<i>Kerbside collection bins missed</i>	8	6	7	7	No material variation
[Number of kerbside garbage and recycling collection bins missed / Number of scheduled kerbside garbage and recycling collection bin lifts] x 10,000					
Service cost					
<i>Cost of kerbside garbage bin collection service</i>	\$121	\$126	\$131	\$138	The increased costs per household for kerbside garbage collection is due to annual contract price increases and increased waste disposal costs.
[Direct cost of the kerbside garbage bin collection service / Number of kerbside garbage collection bins]					
Service Cost					
<i>Cost of kerbside recyclables collection service</i>	\$46	\$47	\$65	\$65	No material variation
[Direct cost of the kerbside recyclables bin collection service / Number of kerbside recyclables collection bins]					
Waste diversion					
<i>Kerbside collection waste diverted from landfill</i>	51%	51%	52%	53%	Council continues to improve year on year with waste diverted from landfill by providing services that suit the needs of the Shire.

<h3>Roads</h3>					
<p>Satisfaction of use</p> <p><i>Sealed local road requests</i></p> <p>[Number of sealed local road requests / Kilometres of sealed local roads] x 100</p>					
	16	19	52	121	Improved data capturing for road requests via Council's road request system whereby requests can be identified if they are related to a sealed or unsealed road. The number of requests this year increased to 970 from 611 in the previous year.
<p><i>Note: in previous years the length of sealed road included the length of kerb and channel. As per this years guidelines, kerb and channel is no longer included in this measurement. This has resulted in a decline in road length by more than 300 kilometres and skews the comparison to previous years.</i></p>					
<p>Condition</p> <p><i>Sealed local roads maintained to condition standards</i></p> <p>[Number of kilometres of sealed local roads below the renewal intervention level set by Council / Kilometres of sealed local roads] x 100</p>					
	99%	88%	95%	93%	A data cleansing and reconciliation project was undertaken on kerb and channel data and these assets are now mapped. This project identified a significant decrease in kerb and channel measurements. As per the LGPRF guidelines, the kerb and channel lengths are added to the road lengths, and as a result of the shorter distance there is a lower base value than in previous years.
<p>Service cost</p> <p><i>Cost of sealed road reconstruction</i></p> <p>[Direct cost of sealed local road reconstruction / Square metres of sealed local roads reconstructed]</p>					
	\$34	\$44	\$44	\$38	A majority of the Sealed Road Rehabilitation Program was undertaken by Council's In-house Construction Team during 2019/20, resulting in favourable square metre rates when compared to previous years when a combination of in-house and contract work was used.
<p>Service cost</p> <p><i>Cost of sealed local road resealing</i></p> <p>[Direct cost of sealed local road resealing / Square metres of sealed local roads resealed]</p>					
	\$5	\$4	\$5	\$3.40	Contract sealing works were completed using spray seal methods only, which compares more favourably than previous years as no asphalt sealing works were undertaken in 2019/20. Asphalt is a more expensive treatment.
<p>Satisfaction</p> <p><i>Satisfaction with sealed local roads</i></p> <p>[Community satisfaction rating out of 100 with how Council has performed on the condition of sealed local roads]</p>					
	36	46	48	47	The condition of roads has slightly decreased by one point as part of the Community Satisfaction Survey. The survey demonstrated that residents would value improvements to the conditions of local sealed and gravel roads. Council's additional \$1M spend in maintaining Councils roads, as one of the Council Plan 2017-2021 annual initiatives, has assisted in maintaining a close result to 2019.

Strategic Objective

COMMUNITY

4

Enhance Organisational Development & Implement Governance Best Practice

STRATEGIC OBJECTIVES

4.1 Develop Digital Strategies for Council and the Community.

4.2 Actively pursue continuous improvement and innovation, consider best practice and encourage the creation of higher valued services.

4.2.1 Increase transparency through more items being held in open Council Meetings and communicating more clearly the reasons behind decisions.

4.2.2 Enhance customer service experiences through the development of a continuous feedback and improved customer service system.

4.2.3 Enhance staff skills, capabilities and wellbeing through the implementation and ongoing development of SGSC people.

4.3 Develop a 'Sustainable Service Delivery Strategy' that considers all of the services that Council provides and identifies operational and service delivery efficiency opportunities. The Strategy is to be adopted and ready for implementation in the 2021/22 Annual Budget and Long Term Financial Plan.

Council will focus on becoming a more responsive, innovative, productive and effective organisation that follows best practice in transparency and governance and continually improves delivery of services and projects.

Councillors will work with the organisation, community and other levels of government for the benefit of the Shire.

Council will explore ways to share services between partners and will work with communities to deliver cost effective facilities and services.

[The sum of the number of Councillors who attended each ordinary and special Council meeting / (Number of ordinary and special Council meetings) x (Number of Councillors elected at the last Council general election)] x 100					Non-attendance to meetings had approved Request Leave for Absence.
Service cost					
<i>Cost of elected representation</i>	\$46,861	\$48,543	\$49,514	\$192,132	The Cost of elected representation is skewed significantly this year due to the change from nine Councillors down to three Administrators and the inclusion of recruitment costs of \$60,659 for the Chief Executive Officer.
[Direct cost of governance service / Number of Councillors elected at the last Council general election]					The costs are averaged over the number of elected members, so they will always be higher with only three Administrators in place, compared to the previous nine Councillors.
Satisfaction					
<i>Satisfaction with Council decisions</i>	45	42	35	37	Community satisfaction with Council decision making has regained some of the ground lost in 2019. Community trust in Council will take some time to re-build. The improvement in the results is encouraging, although it is recognised that further work is required in this area.

3.1 COUNCIL'S INFORMATION

COUNCIL UNDER ADMINISTRATION

On 21 June 2019, the *Local Government (South Gippsland Shire Council) Act 2019* (SGSC Act) received Royal Assent and came into operation on 22 June 2019. The 2016-2019 Council was dismissed by the State Government.

Julie Eisenbise was appointed at this time as the Interim Administrator by the Minister for Local Government for a period not exceeding 90 days.

On 23 July 2019, a Panel of Administrators were appointed by the Local Government Minister. The Interim Administrator Julie Eisenbise was appointed as the Administrator Chair, and Rick Brown and Christian Zahra appointed as Administrators, to form the new South Gippsland Shire Council through to the next Council election in October 2021.

In this role the Administrators have been appointed to perform all the powers, functions and duties of the Council which must be treated as if they were performed by the Council.

During the period of administration the Council is required to:

Develop and deliver an extensive community leadership development program that:

- Encourages widespread participation in community and civic life in the municipality;
- Supports the development of community leadership skills; and
- Supports an improvement in the relationship between the Council and its community.

Review and implement improved council policies and processes, with a focus on councillor induction and training, the Councillor Code of Conduct and meeting procedures.

These are to be developed with regular progress reports provided to the community.

ADMINISTRATOR TERM	YEARS APPOINTED
Julie Eisenbise (Administrator Chair)	2019, 2020
Christian Zahra (Deputy Administrator)	2019, 2020
Rick Brown (Administrator)	2019, 2020

3.2

GOVERNANCE

South Gippsland Shire Council is constituted under the *Local Government Act 2020 (the 2020 Act)*, *Local Government (South Gippsland Shire Council) Act 2019 (SGSC Act)* and under remaining sections of the *Local Government Act 1989 (the 1989 Act)* not yet repealed.

The 2020 Act outlines that all Victorian Councils have the functions and the powers the Parliament considers are necessary to ensure the peace, order and good government of this municipal district.

ROLES AND RESPONSIBILITIES

The role of a Council is provided under section 8 - *the Role of a Council of the 2020 Act*, as follows:

1. The role of a Council is to provide good governance in its municipal district for the benefit and wellbeing of the municipal community.
2. A Council provides good governance if:
 - a) it performs its role in accordance with section
 - b) the Councillors of the Council perform their roles in accordance with section 28.

3. In performing its role, a Council may:
 - a) perform any duties or functions or exercise any powers conferred on a Council by or under this Act or any other Act; and
 - b) perform any other functions that the Council determines are necessary to enable the Council to perform its role.
4. If it is necessary to do so for the purpose of performing its role, a Council may perform a function outside its municipal district.

Council performs these roles by:

- Responsibly taking into account the diverse needs of the local community in decision making;
- Providing leadership by establishing the policy direction of Council, setting strategic objectives to be achieved and monitoring progress;
- Achieving good governance through delegations of authority and establishing frameworks for the management of advisory committees and formally appointed section 86 Committees of Council;
- Advocating the interests of local communities to other levels of Government, including seeking external funding to supplement Council and community funded projects;
- Ensuring resources are managed in a responsible, accountable and sustainable manner; and
- Fostering community cohesion and encouraging active participation and engagement in civic life and decision making.
- Active participation and engagement in civic life and decision making.

COUNCIL'S

GOOD GOVERNANCE

FRAMEWORK

Local Government is underpinned by good governance, visionary leadership and teamwork, by lived values and ethics, by respect at Administrator/ Councillor and organisation levels and between each.

It is underpinned by a shared commitment to plan, work, advocate for and achieve the best possible outcomes for the whole Shire and community.

Charged with the responsibility to establish a sound governance foundation for the next Council to work from, on 18 December 2019 Council adopted its first Good Governance Framework.

A summary of the framework is indicated on the next page.

The framework sets in place a structural foundation for the organisation to use and measure its strategic leadership and operational performance against. This framework will be further developed over the remaining term of the Administrators.

The implementation of the framework has commenced with a review of the suite of governance policies and practices. This review has been aided by the new Local Government Act 2020, that received Royal Assent in February 2020. The review of the governance policies refines their content and purpose and aligns them to the 2020 Act.

Council Meetings are held on the fourth Wednesday of each month and are open to the public. These meetings are live-streamed on the internet.

Council measures required under Community Vision and Council Plan

Corporate measures based on SGSC data for internal and external organisational management

Department measures based on SGSC data for service standards, performance and team based requirements

Individual measures based on personal work plans

COMMUNITY

ENGAGEMENT

Council is committed to effective and sustainable forms of democratic and corporate governance as the key to ensuring the Council and its administration address community priorities.

The community has many opportunities to provide input into Council decision-making processes including community consultation and engagement activities, public presentations to Council, community workshops/forums and the ability to make formal submissions to major strategic directions.

Community members and groups are also able to speak directly to Administrators, submit petitions and public questions for consideration at Council Meetings.

Council's formal decision making processes are conducted through scheduled (ordinary) and additional (special) Council meetings. Council delegates its administrative decision making to the CEO and under some specific pieces of legislation directly to staff. Council also delegates decision making for specific facilities/reserves to the community through section 86 Committees. The CEO has the authority to sub-delegate decision making to staff.

Council Meetings are held on the fourth Wednesday of each month and are open to the public. These meetings are live-streamed on the internet.

Public attendance at open Council Meetings and Delegated Committee Meetings was not allowed between March and June 2020 due to the COVID-19 Pandemic restrictions, however the meetings were open to the public through the live-stream on the internet. The safety of the community and staff and the continuation of vital services remained Council's highest priorities in applying these requirements.

COUNCILLOR CODE OF CONDUCT

The Councillor's Code of Conduct (the Code) provides the foundation of core principles, values and behaviours Councillors are required to demonstrate, as they work together to achieve Council's vision for the Shire.

The former Council reviewed, updated and signed the current Code on 22 February 2017, in accordance with the 1989 Act. The Administrator(s) signed and declared that they would abide by the Code of Conduct at the time of making their Oath or Affirmation.

The Code is designed to:

- Assist Councillors/Administrators to maintain the highest standards of conduct and behaviour as well as provide a means to deal with problems they may encounter;
- Attract the highest level of confidence from Council's stakeholders; and
- Assist the Mayor/Administrator Chair and Councillors/Administrators to discharge the responsibilities of their public office appropriately.

The Councillor Code of Conduct Principles outlines:

- Other conduct definitions under the Act, such as those relating to misuse of position, improper direction, breach of confidentiality and conflict of interest;
- Roles and relationships; and
- Dispute resolution procedures.

CONFLICT OF INTEREST

Administrators have been appointed by the Minister for Local Government to act in the best interests of the community.

This is a position of trust that requires Administrators to put aside personal interests to make decisions in the public interest.

A conflict of interest occurs when a personal or private interest might compromise the ability of an Administrator or staff member to act in the public interest.

A conflict of interest exists even if no improper act results from it. Declaration of a conflict of interest is a standard agenda item for all Council, Committee and Briefing meetings.

A register is maintained to record all disclosed conflicts of interest for Administrators and staff.

The following table provides a summary of the number of conflict of interest disclosures made by Administrators and staff during 2019/20.

Number of Conflict of Interest	2019/20 Administrator	2019/20 Staff
Indirect Interest	0	6
Direct Interest	0	4
Total	0	10

COUNCIL MEETINGS

Council aims to ensure its decision making is informed; having considered the legislative requirements it must meet and the diverse needs and opinions of the community. Councillors meet in open and closed briefing sessions to gather the background information they require to make efficient and effective decisions. The topics covered and Councillors attending these sessions are reported in each scheduled Council meeting agenda.

Public participation sessions provide an opportunity for community members to present issues of interest to Council. These sessions allow community members affected by potential decisions of Council to present their viewpoints to assist and inform Council's decision making processes. These public sessions are held on the third and fourth weeks of the month, prior to each scheduled Council meeting (excluding additional special meetings). Details on how to submit expressions of interest to make a presentation to Council are available on Council's website.

ATTENDANCE AT MEETINGS

Council conducts open public meetings, known as scheduled Council meetings, normally on the fourth Wednesday of each month, but with a few exceptions. Members of the community are welcome to attend these meetings and observe from the gallery. Council meetings also provide the opportunity for community members to submit up to three questions online by 5.00pm on the Friday prior to the Council meeting or at the Council Meeting.

Due to COVID-19 Pandemic, from March to June 2020, Council was not able to allow the public to enter the gallery at Council Meetings or public presentation sessions. This unprecedented requirement was implemented to ensure the safety of community members and staff. Public presentations were conducted by phone in-session with the Administrators. Questions submitted for Public Question Time in the Council meetings were read out by the CEO via live-streaming of the meeting.

The below tables provide a summary of the number of Council meetings and Special Council meetings and Administrator attendance for 2019/20 financial year.

Number of Type of Meeting	2018/19 Number of Meetings	2019/20 Number of Meetings

ADMINISTRATORS REMUNERATION & EXPENSES

The appointment of Administrators by the Minister for Local Government included a mandatory remuneration for the Administrator Chair and Administrators with the Administrator Chair receiving a higher remuneration. Council is also required to reimburse Administrators for expenses incurred whilst performing their duties and adopt and maintain a policy in relation to this.

The Councillor Support and Expenditure Policy was reviewed and adopted by Council at the 29 November 2019 Council meeting. The policy provides guidance for the payment of reimbursements of expenses and the provision of resources, facilities and other support to the Administrators to enable them to conduct their duties.

The following table contains a summary of the Administrators remuneration and expenses for 2019/20:

** Travelling expenditure for Administrators using private vehicles is at the prescribed rate of reimbursement and only includes claims processed up to 30 June 2020

*** Administrator Julie Eisenbise began using a Council Car as of 29 July 2019 and returned it as of 26 March 2020

**** Administrator Christian Zahra began using a Council Car as of 18 September 2019

EXPENSE CATEGORIES

Administrator Allowance

The Administrators have received a remuneration, including the required superannuation allocation, for their services to the Shire. These mandatory remuneration levels were set by the Minister for Local Government. It is important to note that Administrator Eisenbise requested the remuneration be discontinued during a short period of leave taken.

Travel & Vehicle Expenses

Council's *Councillor Support and Expenditure Policy* – 20 November 2019 and *Councillor Vehicle Policy* - 3 November 2016, provide for the reimbursement of travel costs, depreciation, insurance and/or use of private vehicles while conducting Council business.

Administrators' use of private vehicles is at the prescribed rate of reimbursement. Reimbursements also include parking fees and public transport costs. Two of the Administrators monitored their private travel expenses and recognised that overall costs to Council would be reduced through the use of a Council car. Transitions between Council and personal car use has occurred throughout the year. These have also been influenced by the changing travel requirements created by the COVID-19 Pandemic restrictions.

Accommodation & Meals

This category covers costs associated with the Administrators requirement to attend Council on consecutive days. These costs include accommodation and meals where applicable.

Training & Professional Development

This category covers the costs associated with Administrator attendance to conferences, training and professional development courses.

These include accommodation, conference, parking-related expenses and airfares where applicable.

Telephone & Communication Support

Administrators are supplied with mobile devices, including a mobile phone with data plan and a Surface Pro laptop. The cost of providing these services is paid by Council.

Printing, Sound Recording & Transcript Request

Council provides access to fax, photocopying and printing, which is normally made available at Council offices. Adjustments have been required between March and June requiring some printing to be done remotely. Printing and audio recording transcription costs have been included.

3.3

AUDITING

FRAMEWORK

Council has implemented a number of statutory and better practice items to strengthen its management framework. Having a strong governance and management framework supports better decision making by Council.

The Act requires Council to undertake an assessment of its governance against the prescribed Governance and Management Checklist and include this in its Report of Operations in the Annual Report. The following items have been highlighted as important components of the management framework.

Independent members are appointed for a three-year term, with a maximum of two consecutive terms. The Chair is elected from amongst the independent members.

The Audit Committee met four times in 2019/20 on 10 September 2019, 10 December 2019, 10 March 2020; and 9 June 2020.

The Internal Auditor, Richmond Sinnott and Delahunty (RSD) Chartered Accountants and CEO (or Acting CEO) attended all Audit Committee meetings. Other management representatives attended as required to present reports. External auditors from the Victorian Auditor-General Office (VAGO) attended the 10 September 2019, 10 March 2020 and 9 June 2020 meetings to present the audit plan and independent audit report.

AUDIT COMMITTEE

The Audit Committee is an independent advisory committee of Council established under section 139 of the *Local Government Act 1989* for the 2019/20 Financial Year. The role of the Audit Committee is to oversee and monitor Council's effectiveness in carrying out its responsibilities for accountable financial management, corporate governance, maintaining an effective system of internal control and risk management, and fostering an ethical environment.

The Audit Committee consists of three independent members, who from the 10 September 2019 meeting were, Dr John (AJ) Purcell (Chair), Mr. Chris Badger and Mr Homi Burjorjee and one Administrator member, Mr. Rick Brown. Administrator Julie Eisenbise also attended Audit Committee meetings throughout the year as an observer; maintaining an interest in the audit functions of Council.

EXTERNAL AUDIT

Council is externally audited by VAGO. For the 2019/20 year the annual external audit of Council's Financial Statements and Performance Statement was conducted by the Victorian Auditor-General's representative. The external auditors attended the 10 September 2019, 10 March 2020 and 9 June 2020 Audit Committee meetings to present the annual audit plan and Independent Audit Report. The external audit management letter and responses are also provided to the Audit Committee.

Dr John (AJ) Purcell (<i>Chair</i>)	4
Mr Homi Burjorjee	4
Mr Chris Badger	4
Council Members	
Rick Brown (Administrator)	4
Auditors	
Internal Auditor (<i>RSD Chartered Accountants</i>)	4
External Auditors (VAGO)	3

INTERNAL AUDIT

Council's internal audit function provides independent and objective assurance that the appropriate processes and controls are in place across Council. This function is outsourced to RSD Chartered Accountants, who were appointed on 1 July 2016 following a public tender, for an initial term of three years, which concluded on 30 June 2019.

Following consultation with the Audit Committee, the Council exercised the first and final three-year extension under the contract with RSD which will conclude on 30 June 2022.

A risk based Internal Audit Program (IAP) is revised annually to ensure the audit resources remain focused on the appropriate areas. The review process considers Council's Risk Management Framework, the Council Plan, the impact of any change on operations, systems or the business environment, prior audit outcomes and management input. The IAP is reviewed and approved by the Audit Committee annually.

The Internal Auditor attends each Audit Committee meeting to report on the status of the IAP, to provide an update on the implementation of audit recommendations and to present findings of completed reviews. The responsible Director for each area reviewed attends the Audit Committee meeting to respond to questions in relation to the review. All audit issues identified are risk rated. Recommendations are assigned to the responsible Manager and tracked in Council's Internal Audit Action Plan.

The IAP for 2019/20 was completed with the following reviews conducted:

- Budget Maintenance including Capital Works & Major Projects; and
- Occupational Health & Safety and Return to Work.

RISK & OH&S

MANAGEMENT

In May 2012, Council adopted a *Risk Management Framework and Policy in line with best practice in the management of business enterprise risks and current International Risk Management Standard AS/NZ ISO 31000.*

During the 2016/17 and 2018/19 financial year Council conducted a review of its *Risk Management Framework and Policy*. This review culminated on 27 February 2019 with Council adopting a revised *Risk Management Framework and Policy*.

These are next due for formal review in February 2023.

The *Risk Management Framework and Policy* addresses items such as:

- Risk management culture;
- Communication and training;
- Best practice in risk management;
- Responsibilities of and to internal and external stakeholders;
- Risk registers; and Business Continuity Plan review.

Council's risk management objectives are to:

- Ensure that we achieve our strategic objectives as set out in the Council Plan;
- Highlight which areas of Council's risk profile have the capacity to deliver the maximum benefit or maximum harm and to identify those areas which should receive priority action;
- Establish a reliable basis for decision making and ensure that risk is included as a fundamental component in the planning process;

- Ensure the effective allocation of resources;
- Determine how risk should be reported to Council, Auditors, Audit Committee and Strategic Risk Committee;
- Foster an organisational culture which promotes proactive behaviour regarding the identification and treatment of risk;
- Identify and prepare for emerging risks, future events and change; and
- Improve stakeholder confidence and trust.

OCCUPATIONAL HEALTH & SAFETY

Council continues to focus on ensuring the health, safety and wellbeing of all employees, contractors, volunteers and other people who may be affected by their operations.

Council continues to focus on ensuring the health, safety and wellbeing of all employees, contractors, volunteers and other people who may be affected by their operations.

This is being achieved through:

- Proactive identification and management of health and safety hazards and risks;
- Developing the health and safety knowledge and capability of recently elected Health & Safety Representatives;
- Active post incident reviews and the implementation of safe work practices and engineering to prevent reoccurrences; and
- Sharing the knowledge and lessons learned.

In addition to continuance of our MAV Workcare OH&S Improvement Program and review of incidents and performance, we have reinvigorated the Health & Safety Committee, with new Health & Safety Representatives elected, trained, and active in their Designated Workgroups.

Training & Development

Training and the personal development of all employees remains a priority to Council. Training continues with numerous regulatory and development training for employees on an as required basis. Specific training is offered to employees who will use these skills within the workplace.

Training delivered includes:

- Occupational Health & Safety
- Manual Handling
- Traffic Management
- First Aid
- Confined Space
- Chainsaw operation
- Working at heights
- Conflict resolution
- Effective Assertive Communication

Council continues to invest in internal education sessions, OH&S inductions and training for new staff and new Assets (equipment and machine) inductions and operation is provided by the distributor.

Lag Indicators

Our WorkCover premium has reduced over the past two years based on improved performance. The number of injuries has decreased from 54 to 30 in the last twelve months.

Lost time injuries, where employees that have injured themselves at work have not been able to return for their next shift, has lifted from 4 to 8 over the same period. However, total days lost has reduced from 247 days to 88 days, a little more than 1 in 1,000 or 0.1% of total workforce availability.

Overall incidents, near misses and hazards reported has decreased despite a lift in specific hazard reporting (which is generally a positive indicator).

	Incidents, Near Misses & Hazards	Injuries	Injuries resulting on lost time
2017/18	127	47	17
2018/19	158	54	4
2019/20	112	30	8

Number of reported incidents, near misses, hazards and injuries.

Lead Indicators

Focus on reporting Hazards and Near misses has seen an increase of 152% on the previous year. This increase in positive Safety reporting has benefited in contributing to a reduction of injuries across the Council.

Workplace inspections are down in total numbers due mainly to the COVID-19 Pandemic and the primary facilities not being in use since March 2020.

	Workplace Inspection Completed	Equipment Pre-start Checks
2017/18	70	11,000+
2018/19	43*	10,705
2019/20	13*	11,656

Statutory Information

DOCUMENTS AVAILABLE FOR Public Inspection

The following information is provided in accordance with legislative and other requirements applying to Council.

In accordance with regulation 12 of the *Local Government (General) Regulations 2015*, the following are prescribed documents that are available for public inspection or copies of the documents can be obtained for the purposes of section 222 of the Act at 9 Smith Street, Leongatha, Victoria:

- A document containing details of overseas or interstate travel (other than interstate travel by land for less than three days) undertaken in an official capacity by any Councillor or member of Council staff in the previous 12 months.
- The agendas for, and minutes of ordinary and Special Meetings held in the previous 12 months which are kept under section 93 of the Act, other than those agendas and minutes relating to a part of a meeting which was closed to members of the public under section 89 of the Act and are confidential information within the meaning of section 77(2) of the Act.
- The minutes of meetings of special committees established under section 86 of the Act and held in the previous 12 months, other than those minutes relating to a part of a meeting which was closed to members of the public under section 89 of the Act and are confidential information within the meaning of section 77(2) of the Act.
- A register of delegations kept under sections 87(1) and 98(4) of the Act, including the date on which the last review took place under sections 86(6) and 98(6), respectively, of the Act.
- A document containing details of all leases involving land which were entered into by the Council as lessor, including the lessee and the terms and the value of the lease.
- A register maintained under section 224(1A) of the Act of authorised officers appointed under that section.
- A list of donations and grants made by the Council in the previous 12 months, including the names of persons who, or bodies which, have received a donation or grant and the amount of each donation or grant.

BEST VALUE

In accordance with section 208B(f) of the Act, Council is required to report annually to its community on its initiatives carried out in relation to the Best Value Principles.

The Council incorporates Best Value Principles through regular business planning and performance monitoring processes and through a commitment to continuous improvement and innovation.

Process mapping has been undertaken within many departments looking for ways to streamline the operations, improve customer service and improve efficiencies and/or reduce costs.

Outcomes achieved from these activities include:

- Improvements to the rates processing process significantly reduced the overall time to process refunds by an average 80%;
- Standardised application forms and letters leading to an increase in capacity by the environmental health team by 500 hours;
- Animal registration renewals made available via BPay making it easier to pay for community member;
- Captured and mapped over 271 processes within Council leading to optimisation opportunities and updated service outcomes.

Improvements to service provision introduced or still underway include:

- A published *Public Facing Map Portal* to assist with the location of services, activities and aid the public consultation process;
- Physically scanning and indexing 2,000 boxes (40 metres of shelving) of paper documents and images into Council's documentation management system, enabling the closure of Council's storage facility. This will reduce costs, minimise risk and improve time to retrieve information when required;
- Replaced over 100 depreciated computer screens across Council. Council refactored these screens and donated them to community groups across the Shire.
- Fire notice improvements by using the 'geo' location services to enable mobile updates and processing. This will greatly improve efficiency and inspection times for staff.

CARERS RECOGNITION

In accordance with the *Carers Recognition Act 2012*, Council is required to report annually on its care measurement obligations under section 11 of the Act.

Council has promoted the principles of the Act to people in care relationships who receive Council services and to the wider community by:

- Distributing printed material through relevant Council services;
- Providing information to organisations represented in Council/community networks.

Council has taken all practicable measures to ensure staff, Council agents and volunteers working for Council are informed about the principles and obligations of the Act by including information on the care relationship in:

- Council induction and training programs for staff working in Regional Assessment Service, Community Services and front-line positions with the general community; and
- Induction and training programs for volunteers working directly with the community.

Council has taken all practicable measures to review and modify policies, procedures and supports to include recognition of the carer relationship and has provided the following additional activities and resources to recognise the care relationship.

The Intake and Assessment Team continue to work with carers and recognise the significant role they play in supporting loved ones. With consent, carers are supported to link in with services and supports that may be helpful to assist them with the important role they do and to look after their own health and wellbeing.

DISABILITY ACTION PLAN

In accordance with section 38 of the *Disability Act 2006*, Council is required to prepare a Disability Action Plan, and must report on its implementation in the Annual Report.

The Disability Action Plan 2018-2021 was adopted at the Council Meeting 30 May 2018. The Disability Action Plan outlines Council's approach to building a more inclusive community and to meet both Council's obligations and community aspirations in doing so.

Actions that have been completed or that are completed on an ongoing basis are outlined below:

- Development and implementation of an inclusive drama project, called *(it's no) drama*;
- Council business is now more accessible: an improved website, focus on communication access and Council meetings being available via live stream;
- Access auditing of Council's community assets, including buildings and reserves, and designated accessible parking, undertaken on a priority basis.

DOMESTIC ANIMAL MANAGEMENT PLAN

In accordance with section 68A of the *Domestic Animals Act 1994*, Council is required to prepare a Domestic Animal Management Plan (DAMP) at four-yearly intervals and evaluate its implementation in the Annual Report.

The DAMP 2017-2021 was adopted at the Council Meeting of 27 September 2017 and outlines the services, programs and policies established to address the administration of the Act and the management of dog and cat issues in the community.

Actions that have been completed or that are conducted on an ongoing basis are outlined below:

- Introduced 'lifetime tags' for animal identification;
- Developed an enforcement follow up process;
- Preliminary investigations conducted into the financial viability of appointing consultants to conduct animal registration compliance audits;
- Developed an 'infringement matrix' for issuing domestic animal infringement notices to ensure consistency;
- Animal information articles provided for the public on a quarterly basis and made available via press releases, Facebook and Council's website;
- Lost/found dogs and cats advertised on Council's website, Facebook and local newspapers;
- Annual audits undertaken of premises where declared menacing, dangerous and restricted breed dogs are housed;
- Annual audits of properties housing excess domestic animals via Local Law permits;
- Animal registration database used to identify unregistered Domestic Animal Businesses;
- Press releases prepared and issued for successful dog attack prosecutions;
- Menacing, dangerous and restricted breed dog legislation actively enforced;
- Training register maintained for individual officers;
- Officers attend at least one training/networking session per year; and
- Officers provided with access to the Bureau of Animal Welfare extranet site.

FOOD ACT MINISTERIAL DIRECTIONS

In accordance with section 7E(6) of the *Food Act 1984*, if a Council, or the CEO of a Council, is given a direction under subsection (1), a copy of the direction must be published in the Annual Report under section 131 of the Act. No such Ministerial Directions were received by Council during this financial year.

FREEDOM OF INFORMATION

The *Freedom of Information Act 1982* (the FOI Act) gives the community a legally enforceable right to apply for access to documents held by Council. This access is limited only by the application of exceptions and exemptions provided for under the legislation.

A valid request for access must be in writing, be accompanied by payment of the application fee and must provide enough information to enable the documents to be identified. Access charges may also apply once documents have been processed and a decision on access is made (e.g. photocopying and search and retrieval charges).

Council's Freedom of Information Officer assists the applicant in accordance with the provisions of the FOI Act and handles all requests for FOI access.

There were 27 applications under the FOI Act in 2019/20. Access was granted (in full or in part) for two requests. A further eight applications were deemed to be enquiries only and three applications were processed outside the Act. Two applications resulted with nil documents discovered. Nine applications were not proceeded with. Eleven applications had not been finalised before the end of the financial year and will be completed in the next financial year.

Further information regarding FOI can be found at www.foi.vic.gov.au and on Council's website.

FOI requests can be lodged online via Council's website or in writing and addressed to the:

PROTECTED DISCLOSURE PROCEDURES

A new *Public Interest Disclosures Act 2012* replaced the *Protected Disclosures Act 2012*. It provides the way for people to make a disclosure of improper conduct and detrimental action by Councillors/ Administrators and Council staff.

Council takes seriously its responsibilities to those persons who may make a disclosure about improper conduct. Council has established guidelines to ensure the confidentiality of the identity of the person making the disclosure, and their welfare, are protected, and has established a system for matters of improper conduct to be investigated.

During the 2019/20 financial year there were no disclosures received by Council's Public Interest Disclosure Coordinators to which the Public Interest Disclosure Guidelines applied. As such there were no assessable disclosures referred to the Independent Broad-based Anti-corruption Commission (IBAC) for assessment.

CONTRACTS

Council is required by section 186 of the *Local Government Act 1989* to not enter into contracts valued at \$150,000 (incl. GST) or more for goods and services or \$200,000 (incl. GST) or more for works of a kind specified in section 186(5)(a) and (c) of the *Local Government Act 1989* without engaging in a competitive process.

During the 2019/20 financial year, all contracts Council entered into exceeding these amounts followed a competitive process with the exception of one contract, for which Council sought and received ministerial exemption under section 186(5)(c) of the *Local Government Act 1989*. This contract related to telecommunications works associated with the Bair Street Redevelopment. This contract, valued at \$230,093, was awarded to Telstra, who were the telecommunications infrastructure monopoly owner in accordance with the *Federal Communications Act 1934*.

NATIONAL COMPETITION POLICY

Council has a *National Competition Policy* and Council. To the best of its knowledge, Council, has not undertaken any anti-competitive behaviour and has complied with the requirements of Council's *National Competition Policy* during 2019/20.

ROAD MANAGEMENT ACT MINISTERIAL DIRECTION

In accordance with section 22 of the *Road Management Act 2004*, Council must publish a copy or summary of any Ministerial direction in its Annual Report. No such Ministerial Directions were received by Council during the financial year.

INFRASTRUCTURE AND DEVELOPMENT CONTRIBUTIONS

In accordance with section 46GM and 46QD of the *Planning and Environment Act 1987*, a Council that is a collecting or development agency must prepare and give a report to the Minister for Planning on infrastructure and development contributions including levies and works in kind. The report must be published in a Council's Annual Report.

There were no infrastructure and development contributions disclosed for this financial year for South Gippsland Shire Council.

DESCRIPTION OF MUNICIPALITY

South Gippsland Shire was formed in 1994 from the amalgamation of four municipalities. Located 90 minutes south east of Melbourne, the Shire has an expanding population of 29,914 (ABS estimated resident population 25 March 2020).

The Council covers an area of 3,300 square kilometres with substantial coastal frontage. South Gippsland Shire is a spectacular region, with communities nestled among the rolling green hills, and along the coast, linking the mountains to the sea.

The Shire's major centres are Leongatha, Korumburra, Mirboo North and Foster, and other significant townships include Nyora, Toora, Venus Bay, Sandy Point, Poowong, Port Welshpool, Loch, Dumbalk, Welshpool, Meenyan, Fish Creek, Port Franklin, Koonwarra, Kongwak and Tarwin Lower.

Key industry sectors by employment in the South Gippsland Shire at the last census in 2016 were Agriculture, Forestry and Fishing, Health Care and Social Assistance, Retail Trade, and Construction.

IMPACT OF COVID-19 PANDEMIC ON SOUTH GIPPSLAND SHIRE COUNCIL

On 30 January 2020, COVID-19 was declared a global pandemic by the World Health Organisation. Since then, various measures have been taken by all three levels of Government in Australia to reduce the spread of COVID-19. This crisis and the measure taken to mitigate it has impacted Council operations in the following areas for the financial year ended 30 June 2020:

- In response to government directive amidst the COVID-19 outbreak, the leisure centre facilities, caravan parks and Coal Creek Community Park and Museum were closed at the end of March 2020. These closures resulted in an estimated decrease in Council user fee revenue by \$188K and also decreased associated expenses by \$83K based on 2018/19 results.
- Council suspended rent payments for rent agreements of impacted businesses from April 2020. This resulted in decreased rent revenue of \$26K.
- Financial impact from deferral of rates revenue/ interest free period is \$2K. This has also resulted in the debtor balance as at 30 June 2020 to increase by \$86K compared to last year.
- Due to Pandemic the aquatic facilities were closed from 20 March to the end of May 2020. This largely impacted the Shire's indoor aquatic facility.
- The VCAT hearings were not held from March 2020 to 30 June 2020 due to the COVID-19 restrictions, which may have impacted the Planning Service indicator.

Other Information

for the year ended 30 June 2020

1. Basis of preparation

Council is required to prepare and include a performance statement within its Annual Report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the *Local Government Act 1989* and *Local Government (Planning and Reporting) Regulations 2014*.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from Council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the Council's Strategic Resource Plan. The *Local Government (Planning and Reporting) Regulations 2014* requires explanation of any material variations in the results contained in the performance statement. Council has adopted materiality thresholds relevant to each indicator and measure and explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material because of its nature.

The forecast figures included in the performance statement are those adopted by Council in its Strategic Resource Plan annually and which forms part of the Council Plan. The Strategic Resource Plan includes estimates based on key assumptions about the future that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The Strategic Resource Plan 2017-2021 can be obtained by contacting Council.

Certification of the Performance Statement for the year ended 30 June 2020

In my opinion, the accompanying performance statement has been prepared in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

In our opinion, the accompanying performance statement of the South Gippsland Shire Council for the year ended 30 June 2020 presents fairly the results of Council's performance in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

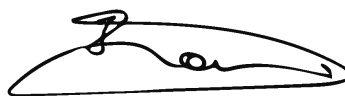

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the Council and the *Local Government (Planning and Reporting) Regulations 2014* to certify this performance statement in its final form.

Independent Auditor's Report

To the Councillors of South Gippsland Shire Council

<p>Opinion</p>	<p>I have audited the accompanying performance statement of South Gippsland Shire Council (the council) which comprises the:</p> <ul style="list-style-type: none"> • description of municipality for the year ended 30 June 2020 • sustainable capacity indicators for the year ended 30 June 2020 • service performance indicators for the year ended 30 June 2020 • financial performance indicators for the year ended 30 June 2020 • other information and • the certification of the performance statement. <p>In my opinion, the performance statement presents fairly, in all material respects, the performance of the council for the year ended 30 June 2020 in accordance with the performance reporting requirements of Part 6 of the <i>Local Government Act 1989</i>.</p>
<p>Basis for Opinion</p>	<p>I have conducted my audit in accordance with the <i>Audit Act 1994</i> which incorporates the Australian Standards on Assurance Engagements. I further describe my responsibilities under that Act and those standards in the <i>Auditor's Responsibilities for the Audit of the performance statement</i> section of my report.</p> <p>My independence is established by the <i>Constitution Act 1975</i>. I and my staff are independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 <i>Code of Ethics for Professional Accountants</i> (the Code) that are relevant to my audit of the performance statement in Victoria and have also fulfilled our other ethical responsibilities in accordance with the Code.</p> <p>I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.</p>
<p>Councillors' responsibilities for the performance statement</p>	<p>The Councillors are responsible for the preparation and fair presentation of the performance statement in accordance with the performance reporting requirements of the <i>Local Government Act 1989</i> and for such internal control as the Councillors determines is necessary to enable the preparation and fair presentation of the statement of performance that is free from material misstatement, whether due to fraud or error.</p>
<p>Auditor's responsibilities for the audit of the performance statement</p>	<p>As required by the <i>Audit Act 1994</i>, my responsibility is to express an opinion on the performance statement based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the performance statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion.</p> <p>Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Standards on Assurance Engagements will always detect a material misstatement when it exists.</p>

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of this performance statement.

As part of an audit in accordance with the Australian Standards on Assurance Engagements, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the performance statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council's internal control
- evaluate the overall presentation, structure and content of the performance statement, including the disclosures, and whether performance statement represents the underlying events and results in a manner that achieves fair presentation.

I communicate with the Councillors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Independent Auditor's Report

To the Councillors of South Gippsland Shire Council

Opinion	<p>I have audited the financial report of South Gippsland Shire Council (the council) which comprises the:</p> <ul style="list-style-type: none">• balance sheet as at 30 June 2020• comprehensive income statement for the year then ended• statement of changes in equity for the year then ended• statement of cash flows for the year then ended• statement of capital works for the year then ended• notes to the financial statements, including significant accounting policies• certification of the financial report. <p>In my opinion the financial report presents fairly, in all material respects, the financial position of the council as at 30 June 2020 and their financial performance and cash flows for the year then ended in accordance with the financial reporting requirements of Part 6 of the <i>Local Government Act 1989</i> and applicable Australian Accounting Standards.</p>
Basis for Opinion	<p>I have conducted my audit in accordance with the <i>Audit Act 1994</i> which incorporates the Australian Auditing Standards. I further describe my responsibilities under that Act and those standards in the <i>Auditor's Responsibilities for the Audit of the Financial Report</i> section of my report.</p> <p>My independence is established by the <i>Constitution Act 1975</i>. My staff and I are independent of the council in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 <i>Code of Ethics for Professional Accountants</i> (the Code) that are relevant to my audit of the financial report in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.</p> <p>I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.</p>
Other Information	<p>The Councillors of the council are responsible for the Other Information, which comprises the information in the council's annual report for the year ended 30 June 2020 but does not include the financial report and my auditor's report thereon.</p> <p>My opinion on the financial report does not cover the Other Information and accordingly, I do not express any form of assurance conclusion on the Other Information. However, in connection with my audit of the financial report, my responsibility is to read the Other Information and in doing so, consider whether it is materially inconsistent with the financial report or the knowledge I obtained during the audit, or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude there is a material misstatement of the Other Information, I am required to report that fact. I have nothing to report in this regard.</p>

Councillors’s responsibilities for the financial report The Councillors of the council are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the *Local Government Act 1989*, and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Councillors are responsible for assessing the council’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is inappropriate to do so.

Auditor’s responsibilities for the audit of the financial report As required by the *Audit Act 1994*, my responsibility is to express an opinion on the financial report based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the council’s internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Councillors
- conclude on the appropriateness of the Councillors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the council’s ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor’s report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor’s report. However, future events or conditions may cause the council to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Councillors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Significant accounting policies

(a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets, liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to Note 6.1)
- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to Note 6.1)
- the determination of employee provisions (refer to Note 5.5)
- the determination of landfill provisions (refer to Note 5.5)
- the determination of whether performance obligations are sufficiently specific so as to determine whether an arrangement is within the scope of *AASB 15 Revenue from Contracts with Customers* or *AASB 1058 Income of Not-for-Profit Entities* (refer to Note 3)
- the determination, in accordance with *AASB 16 Leases*, of the lease term, the estimation of the discount rate when not implicit in the lease and whether an arrangement is in substance short-term or low value (refer to Note 5.8)
- other areas requiring judgements

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation (except where transitional requirements of *AASB 15 Revenue from Contracts with Customers*, *AASB 16 Leases* and *AASB 1058 Income of Not-for-Profit Entities* do not require restatement of comparatives under the modified retrospective approach adopted by the Council), and disclosure has been made of any material changes to comparatives.

Note 1 Performance against budget

The performance against budget notes compare Council's financial plan, expressed through its annual budget, with actual performance. The *Local Government (Planning and Reporting) Regulations 2014* requires explanation of any material variances. Council has adopted a materiality threshold of the lower of 10 percent or \$100,000 where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

These notes are prepared to meet the requirements of the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014*.

(i) Explanation of material variations

Variance Ref	Item	Explanation
1	User fees	Decrease in user fees received at Coal Creek (\$37.5K), Caravan Parks (\$99K), animal registrations (\$60K) and landfills (\$70K) compared to original budget as a result of COVID-19 closures.
2	Grants - operating	50% of Victorian Grants Commission allocation (\$5.7M) relating to 2019-20 was received in advance. In addition, grants for the Long Jetty Restoration (\$971K) and various storm events \$1.2M were carried forward from the prior year and received in 2020.
3	Grants - capital	Grants originally budgeted for, but not received in 2019-20 include Leongatha Business Precinct Project (\$850K), Community Hub - Korumburra (\$354K), Great Southern Rail Trail (\$1.5M), Timms Road Bridge (\$240K), Mirboo North Pool Refurbishment (\$435K) and Baromi Park (\$205K). These projects have been carried forward to 2020-21.
4	Contributions - monetary	Contributions for the Mirboo North Pool Refurbishment (\$700K), Poowong Netball Court (\$50K) and Leongatha Netball Court (\$75K) in the original budget have not been received. These projects have been carried forward to 2020-21.

Notes to the Financial Report

For the Year Ended 30 June 2020

5	Contributions - non-monetary	Original budget consistent with non-monetary contributions received in 2018-19. No developments were completed in 2019-20. Contributions received largely relate to Waterway infrastructure donated.
6	Net gain/(loss) on disposal of property, infrastructure, plant and equipment	Sale of various plant and equipment carried forward to 2020-21. In addition, proceeds of sale lower than expected for a number of disposals.
7	Fair value adjustments for investment property	Fair value adjustments for investment property are not budgeted for.
8	Share of net profits/(losses) of associates and joint ventures	Council share of surplus or deficit is not budgeted for.
9	Other income	Reduced legal costs in pursuing unpaid rates than originally budgeted, resulting in a corresponding lower reimbursement (through other income) of these fees.
10	Employee costs	Administrator wages (\$300K) were not included in the original budget. Remaining variance due to capital wages reclassified to operating.
11	Materials and services	Lower materials and services is due to major projects, Leongatha Soccer Club Lights and Pitch Upgrade (\$102K) and Leongatha Gymnastics Extension (\$203K) carried forward to 2020-21, and Agnes Falls (\$426K) not continuing.
12	Depreciation	Increased depreciation compared to the original budget is due to additions and changes in valuation of fixed assets.
13	Amortisation - Right of use assets	Amortisation of Right of use assets is new in 2020 due to a new accounting standard. Amortisation of Right of use assets were not previously budgeted for.
14	Assets impaired	Impairment loss on land under roads was not budgeted for.
15	Bad and doubtful debts	Bad and doubtful debts were not budgeted for.
16	Borrowing costs	The original budget included interest and loan repayments on a loan for the Mirboo North Pool construction. As the majority of the works were carried forward to 2020-21, the loan has been deferred to 2020-21 as well.
17	Finance costs - Leases	Finance costs on leases were new in 2020 due to a new accounting standard. Finance costs on leases were not previously budgeted for.
18	Other expenses	The original budget included \$315K for Councillor allowances that were not paid and \$400K for projects for the West Gippsland Regional Library that were not spent of which half has been carried forward to 2020-21.

Note 2 Analysis of Council results by program

Council delivers its functions and activities through the following programs.

2 (a) Corporate and Community Services Management

The Corporate and Community Services Directorate Management is accountable for ensuring that Council's objectives for the Directorate are achieved through the following Departments:

- Community Services;
- Finance, Risk & Procurement; and
- Innovation & Council Business.

Together these Departments provide strategic policy advice to Councillors/Administrators to inform their decisions, coordinate the preparation of the four year Council Plan, plan for long term financial sustainability, facilitate community strengthening programs, manage corporate technologies and systems and implement strategic directions relevant to the Directorate once set by Council. This department also contains Community Strengthening and Community Grants that connect and support community groups, volunteers, committees and other Council Departments, to provide services beyond those that Council, by itself, can deliver.

Community Services

The Community Services Department provide policy advice and program delivery for the following services:

- Aged & Disability Services, including Home and Community Care and Disability Service support;
- Children and Family Services; including Maternal and Child Health; Immunisation, Pre-school and Playgroup support;
- Libraries; and
- Create the Municipal Public Health and Wellbeing Plan.

Together these teams work towards creating a collaborative, self-supporting community.

Finance, Risk and Procurement

The Finance, Risk and Procurement Department deliver financial planning, budget management oversight, risk management coordination and procurement coordination for the organisation. The Department comprises:

- Accounting which includes strategic financial advice, accounting systems and services, management accounting support and financial reporting;
- Rates and Valuations which includes property valuations for rating purposes and administration of rate collection; and
- Risk and Procurement which includes contract and quotation management, risk and insurance management, internal audit and regulatory compliance and responds to Freedom of Information requests and Privacy enquiries.

Together the teams improve the financial sustainability of Council by pursuing continuous improvement in processes and procedures, pro-actively managing risks, sustainably managing finances and gaining efficiencies through procurements.

Innovation & Council Business

The Innovation and Council Business Department leads organisation wide planning and implementation of good governance, innovation, technology and corporate information management practices. The Department comprises:

- Corporate Planning and Council Business incorporating policy development and review, Council elections, Council meetings, briefings and public presentation coordination, corporate planning and reporting and community engagement to inform the Council Plan and annual initiatives for the Budget;
- Innovation incorporates information technology strategy, policy, planning, project development and delivery, systems management and on-going management of hardware and software; and
- Corporate Information Management incorporates strategy, policies, systems' coordination and operational support to capture, and manage and archive corporate records.

Development Services Management

The Development Services Management unit is accountable for ensuring that Council's objectives for the Development Services Directorate are achieved through the following Departments:

- Planning;
- Regulatory Services; and
- Economic Development and Tourism

Together these Departments provide strategic policy advice to Councillors/Administrators to inform their decisions, undertake regional advocacy to facilitate planned growth in the Shire, education and enforcement activities and implement the strategic directions set by Council relevant to the Directorate.

Notes to the Financial Report

For the Year Ended 30 June 2020

Economic Development and Tourism Management

The Economic Development and Tourism Department strategically plans for and facilitates economic expansion and investment within the Shire by actively promoting and supporting sustainable industry and business and tourism development. The Department manages Council's Coal Creek Community Park & Museum which aims to enhance the liveability of the Shire as the largest cultural heritage site in South Gippsland.

Planning

The Planning Department provides statutory, strategic and social planning services to the community to provide for development, land use and community policy. The Department actively supports planned growth across the municipality, protects and enhances the unique identity and liveability of local districts and advocates to other levels of government and stakeholders for developments that will prosper the Shire.

Regulatory Services

The Regulatory Services Department is responsible for administration, education and enforcement of varied Victorian legislation along with Council's General Local Laws. Services include

- animal management;
- building and planning enforcement;
- fire prevention;
- Local Law development and enforcement;

- wastewater.

Executive Services

The Executive Office is accountable for ensuring that Council's objectives for the Council Plan are achieved through the allocation of appropriate resources, the provision of strategic policy and legal advice to Council and the establishment of good government practices to guide the management of the organisation.

Community Information

The Community Information Unit plays a pivotal role in raising community awareness of Council services and strategic directions. It creates a working interface between Council, Council Departments and the Community through customer services, media management, publishing material, social media, website management and internal liaison.

People & Culture

People & Culture ensures our people are developed and supported so they have the opportunity to deliver services to the best of their ability for the benefit of the community. The team's contribution to employee and organisation success is achieved through business partnership with Directorates using People & Culture processes and systems; developing employee work environment, mindset and culture; providing People & Culture expertise in role, work design, staffing, professional development, performance, remuneration, recognition, OHS, return to work, and wellbeing.

Infrastructure Management

The Infrastructure Directorate is accountable for ensuring that Council's objectives for the Directorate are achieved through the following Departments:

- Infrastructure Planning;
- Infrastructure Delivery; and
- Operations.

Together these Departments provide strategic policy advice to Councillors/Administrators to inform their decisions, prepare and deliver the Capital Works Program and Asset Management Plans, along with maintaining infrastructure, parks, gardens and public places.

Infrastructure Planning

The Infrastructure Planning Department assists Council in achieving the objectives of its strategies and plans by providing services that contribute to a closely connected and engaged community.

Services include managing Council's property portfolio (acquisition, disposal, leasing, and licensing of property), planning for and managing Council's building and recreational assets, managing waste disposal services, and promotion of a sustainable environment and solutions.

The teams support and partner with a strong volunteer base to deliver a variety of community projects and education programs for all age groups and abilities.

Notes to the Financial Report

For the Year Ended 30 June 2020

Infrastructure Delivery

The Infrastructure Delivery Department assists Council in achieving the objectives of its strategies and plans by planning for and providing integrated services and community infrastructure. Services include coordinating and delivering Council's civil works design program for community infrastructure, determining future capital / community infrastructure projects for inclusion in the 15 Year Capital Works Program, and delivery of the annual Capital Works Program including community infrastructure projects (Major Capital Projects). The department also delivers a range of services including contract management, preparing funding submissions for community projects, issuing engineering conditions for developments referred from Planning, and managing Council's infrastructure assets which incorporates the collection, management, and analysis of asset data.

Operations

The Operations Department assists Council in achieving the objectives of its strategies and plans by planning for and providing integrated services and infrastructure in order to meet current and future needs of the community. Services include delivering maintenance, construction, replacements and capital programs for roads, streets, drainage, culverts, bridges, parks, gardens, and playgrounds. The Department is also responsible for cleaning Council owned and managed public toilets and BBQ amenities, workshop operations, fleet and plant and the after-hours operations call out service. All services are to be in accordance with the Road Management Act, Road Management Plan, and associated Asset Management Plans.

Note 3 Funding for the delivery of our services

3.1 Rates and charges

2020
\$'000

2019
\$'000

Council uses Capital Improved Value (CIV) as the basis of valuation of all properties within the municipal district. The capital value of a property is the value that it could be reasonably expected to sell for on the open market.

The valuation base used to calculate general rates for 2019/20 was \$8,876 million (2018/19 \$8,080 million).

General rates	39,966	38,714
Waste management charge	3,261	3,159
Special rates and charges	7	5
Supplementary rates and rate adjustments	305	227
Interest on rates and charges	179	175
Revenue in lieu of rates	190	186
Total rates and charges	43,908	42,466

The date of the latest general revaluation of land for rating purposes within the municipal district was 1 January 2020, and the valuation will be first applied in the rating year commencing 1 July 2020.

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

3.2 Statutory fees and fines

Land information certificates	36	39
Local laws	109	107
Building services	177	183
Statutory planning	460	532
Supervision fees	72	82
Others	13	12
Total statutory fees and fines	867	955

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

3.3 User fees

Aged and health services	306	617
Leisure centre and recreation	22	75
Local Laws	439	420
Waste management services	2,261	2,264
Caravan parks	826	918

User fees by timing of revenue recognition

User fees recognised over time	826	918
User fees recognised at a point in time	3,145	3,540
Total user fees	3,971	4,458

User fees are recognised as revenue at a point in time, or over time, when (or as) the performance obligation is satisfied. Recognition is based on the underlying contractual terms.

Councils cash and cash equivalents are subject to external restrictions that limit amounts available for discretionary use. These include:

- Trust funds and deposits (Note 5.3)	1,332	1,025
Total restricted funds	1,332	1,025
Total unrestricted cash and cash equivalents	6,460	5,975

Intended allocations

Although not externally restricted the following amounts have been allocated for specific future purposes by Council:

- cash held to fund carried forward capital works	18,059	11,865
- grants recognised as revenue and obtained on the condition that they be expended in a specified manner that had not occurred at balance date (Note 3.4c)	1,137	1,991
- reserve funds allocated for specific future purpose (Note 9.1b)	274	4,979
Total funds subject to intended allocations	19,470	18,835

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

Other financial assets are valued at fair value, at balance date. Term deposits are measured at original cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

Short term receivables are carried at invoice amount. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred. Long term receivables are carried at amortised cost using the effective interest rate method.

(d) Ageing of Receivables

The ageing of the Council's trade and other receivables (excluding statutory receivables) that are not impaired was:

Current (not yet due)	788	543
Past due by up to 30 days	257	1,219
Past due between 31 and 180 days	653	171
Past due between 181 and 365 days	45	18
Past due by more than 1 year	10	10
Total trade and other receivables	<u>1,753</u>	<u>1,961</u>

(e) Ageing of individually impaired Receivables

At balance date, other debtors representing financial assets with a nominal value of \$145K (2019: \$145K) were impaired. The amount of the provision raised against these debtors was \$161K (2019: \$160K). They individually have been impaired as a result of their doubtful collection. Many of the long outstanding past due amounts have been lodged with Council's debt collectors or are on payment arrangements.

The ageing of receivables that have been individually determined as impaired at reporting date was:

Inventories held for distribution are measured at cost, adjusted when applicable for any loss of service potential. All other inventories, including land held for sale, are measured at the lower of cost and net realisable value. Where inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

Intangible assets with finite lives are amortised as an expense on a systematic basis over the asset's useful life. Amortisation is generally calculated on a straight line basis, at a rate that allocates the asset value, less any estimated residual value over its estimated useful life. Estimates of the remaining useful life and amortisation method are reviewed at least annually, and adjustments made where appropriate.

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited. Trust funds that are forfeited, resulting in Council gaining control of the funds, are to be recognised as revenue at the date of forfeiture.

Purpose and nature of items

Refundable deposits - Deposits are taken by Council as a form of surety in a number of circumstances, including in relation to building works, tender deposits and the use of civic facilities.

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a monthly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

Other refundable deposits - Other deposits held in trust.

Council has a construction drawdown facility that is interest-only until the final drawdown has occurred. At the time of the final drawdown the facility will convert to a 10 year principal & interest loan.

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method.

The classification depends on the nature and purpose of the interest bearing liabilities. Council determines the classification of its interest bearing liabilities at initial recognition.

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at the present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits. LSL is measured at present value. Unconditional LSL is disclosed as a current liability. Conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non-current liability.

Council is obligated to restore its Koonwarra site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

5.8 Leases

Policy applicable before 1 July 2019

As a lessee, council classifies leases as operating or finance leases based on its assessment of whether the lease transferred significantly all of the risks and rewards incidental to ownership of the underlying asset to council.

Operating lease payments, including any contingent rentals, were recognised as an expense in the comprehensive income statement on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern of the benefits derived from the use of the leased asset. The leased asset was not recognised in the balance sheet.

All incentives for the agreement of a new or renewed operating lease were recognised as an integral part of the net consideration agreed for the use of the leased asset, irrespective of the incentive's nature or form or the timing of payments.

In the event that lease incentives were received to enter into operating leases, the aggregate cost of incentives were recognised as a reduction of rental expense over the lease term on a straight-line basis, unless another systematic basis was more representative of the time pattern in which economic benefits from the leased asset were consumed.

Notes to the Financial Statements

For the Year Ended 30 June 2020

Policy applicable after 1 July 2019

Council has applied *AASB 16 Leases* using a modified retrospective approach with the cumulative effect of initial application recognised as an adjustment to the opening balance of accumulated surplus at 1 July 2019, with no restatement of comparative information. The council applied the approach consistently to all leases in which it is a lessee.

On transition to *AASB 16 Leases*, Council elected to apply the practical expedient to 'grandfather' the assessment of which transactions are leases. The council has applied this practical expedient to all of its contracts and therefore applied *AASB 16 Leases* only to contracts that were previously identified as leases.

At inception of a contract, all entities would assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To identify whether a contract conveys the right to control the use of an identified asset, it is necessary to assess whether:

- The contract involves the use of an identified asset;
- The customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The customer has the right to direct the use of the asset.

This policy is applied to contracts entered into, or changed, on or after 1 July 2019.

As a lessee, Council recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for:

- any lease payments made at or before the commencement date less any lease incentives received; plus
- any initial direct costs incurred; and
- an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, an appropriate incremental borrowing rate. Generally, Council uses an appropriate incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that Council is reasonably certain to exercise, lease payments in an optional renewal period if Council is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless Council is reasonably certain not to terminate early.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Council has elected to apply the temporary option available under *AASB 16 Leases* which allows not-for-profit entities to not measure right-of-use assets at initial recognition at fair value in respect of leases that have significantly below-market terms.

Notes to the Financial Statements

For the Year Ended 30 June 2020

i. Leases classified as operating leases under AASB 117 Leases

At transition, lease liabilities were measured at the present value of the remaining lease payments, discounted at Council's incremental borrowing rate as at 1 July 2019. Right-of-use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments. Council applied this approach to all applicable leases.

Council used the following practical expedients when applying AASB 16 Leases to leases previously classified as operating leases under AASB 117 Leases .

- Applied a single discount rate to a portfolio of leases with similar characteristics.
- Adjusted the right-of-use assets by the amount of AASB 137 Provisions, Contingent Liabilities and Contingent Assets onerous contract provision immediately before the date of initial application, as an alternative to an impairment review.
- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

ii. Leases previously classified as finance leases

For leases that were classified as finance leases under AASB 117 Leases , the carrying amount of the right-of-use asset and the lease liability at 1 July 2019 are determined at the carrying amount of the lease asset and lease liability under AASB 117 Leases immediately before that date.

Council is not required to make any adjustments on transition to AASB 16 Leases for leases in which it acts as a lessor, except for a sub-lease. Council accounted for its leases in accordance with AASB 16 Leases from the date of initial application.

Impact on financial statements

On transition to AASB 16 Leases , Council recognised an additional \$254K of right-of-use assets and \$254K of lease liabilities, recognising the difference in retained earnings.

When measuring lease liabilities, Council discounted lease payments using its incremental borrowing rate at 1 July 2019. The weighted-average rate applied is 4.24%.

Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition. Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

In accordance with Council's policy, the threshold limits have been applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

Land under roads

Council recognises land under roads it controls at fair value.

Depreciation and amortisation

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life.

Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are listed above and are consistent with the prior year unless otherwise stated.

Repairs and maintenance

Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

For the Year Ended 30 June 2020

Valuation of land and buildings

Valuation of land and buildings were undertaken by a qualified valuer Joshua Kilgour, FAPI (council employee). The valuation of land and buildings is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movements in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

The market is being impacted by the uncertainty caused by the COVID-19 pandemic. This valuation is current at the date of valuation only. The value reported may change significantly and unexpectedly over a relatively short period of time including as a result of factors that the Valuer could not reasonably have been aware of as at the date of valuation.

The date of the current valuation is detailed in the following table.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2020 are as follows:

	Level 1	Level 2	Level 3	Date of Valuation

Valuation of infrastructure

Valuation of infrastructure assets has been determined in accordance with a valuation undertaken by Tony Peterson, BE Civil Engineering (Council). The date of the current valuation is detailed in the following table.

The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2020 are as follows:

Description of significant unobservable inputs into level 3 valuations

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 10% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$1 and \$524 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs are calculated on a square metre basis and ranges from \$2 to \$150,000 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 20 years to 100 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 4 years to 150 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

<i>Background</i>		
Council has a 30.55% equity interest in the West Gippsland Regional Library Corporation in 2019/20 (30.55% in 2018/19). The equity interest is calculated based on the proportion it contributes to the operating costs of the services.

Balance at beginning of financial year	587	763
Fair value adjustments	33	(176)
Balance at end of financial year	<u>620</u>	<u>587</u>

Investment property is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to the Council. Subsequent to initial recognition at cost, investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the comprehensive income statement in the period that they arise.

Valuation of investment property

Valuation of investment property as at 30 June 2020 has been determined in accordance with a valuation by Andrew Begg, AAPI (Council Employee) who has recent experience in the location and category of the property being valued. The valuation is at fair value, based on the current market value for the property.

7.2 Related party disclosure

(a) Transactions with related parties

During the period Council entered into the following transactions with related parties:

Council made contributions to West Gippsland Regional Library Corporation in 2020 of \$1.4M (2019 - \$1.4M).

Employee remuneration under normal employment terms of \$32K (2019 - \$29K).

Administrator Julie Eisenbise is a member of the Victorian Local Government Grants Commission. Council received \$10.6M in 2020 in Financial Assistance grants allocated by commission.

All transactions are in line with normal commercial practice.

(b) Outstanding balances with related parties

There were no balances outstanding at the end of the reporting period in relation to transactions with related parties.

(c) Loans to/from related parties

There were no loans in existence at balance date that have been made, guaranteed or secured by the council to a related party.

(d) Commitments to/from related parties

The aggregate amount of commitments in existence at balance date that have been made, guaranteed or secured by the council to a related party was \$1.5M (2019 - \$1.4M) in relation to the West Gippsland Regional Library Corporation.

Note 8 Managing uncertainties

8.1 Contingent assets and liabilities

(a) Contingent assets

Operating lease receivables

The Council has entered into commercial property leases on its investment and other properties. These properties consist of surplus land and building, including two caravan parks and a quarry. These properties held under operating leases have remaining non-cancellable lease terms of between 1 and 10 years. All leases include a CPI based revision of the rental charge annually.

Future undiscounted minimum rentals receivable under non-cancellable operating leases are as follows:

	2020	2019
	\$'000	\$'000
Not later than one year	268	223
Later than one year and not later than five years	556	654
Later than five years	275	325
	<u>1,099</u>	<u>1,202</u>

As a result of COVID-19, Council has suspended rent on a month-to-month basis for a number of properties that is ongoing and will reduce the future minimum rentals actually received.

(b) Contingent liabilities

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed and if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable, respectively.

Superannuation

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined below. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists.

Landfill

Council operates a landfill. Council will have to carry out site rehabilitation works in the future. At balance date, Council has made necessary provisions for rehabilitation of Landfills that are currently in operation. However, the estimates of provision required is dependent on the accuracy of the forecast, timing of work, work required and related costs.

Liability Mutual Insurance

Council is (was) a participant of the MAV Liability Mutual Insurance (LMI) Scheme. The LMI scheme provides public liability and professional indemnity insurance cover. The LMI scheme states that each participant will remain liable to make further contributions to the scheme in respect of any insurance year in which it was a participant to the extent of its participant's share of any shortfall in the provision set aside in respect of that insurance year, and such liability will continue whether or not the participant remains a participant in future insurance years.

MAV Workcare

Council is a participant of the MAV WorkCare Scheme. The MAV WorkCare scheme provides workers compensation insurance. The MAV WorkCare Scheme states that each participant will remain liable to make further contributions to the scheme in respect of any insurance year in which it was a participant to the extent of its participant's share of any shortfall in the provision set aside in respect of that insurance year, and such liability will continue whether or not the participant remains a participant in future insurance years.

(c) Guarantees

Council has the following bank guarantees with Commonwealth Bank of Australia for contract performance and security deposits.

Description	Favouree	Amount
Contract Performance Guarantee	Department of Energy and Minerals	\$15,000
Contract Performance Guarantee	Department of Natural Resources &	\$20,000
Security Deposit Guarantee	Environment Protection Authority	\$425,000
Security Deposit Guarantee	State of Victoria - Environment	\$451,296
Total		\$911,296

Guarantees are not recognised as a liability in the balance sheet unless the favouree has exercised their right to call on the guarantee or Council has other reasons to believe that it is probable that the right will be exercised.

8.2 Change in accounting standards

The following new AAS's have been issued that are not mandatory for the 30 June 2020 reporting period. Council has assessed these pending standards and has identified the following potential impacts will flow from the application of these standards in future reporting periods.

AASB 1059 Service Concession Arrangements: Grantors (AASB 1059) (applies 2020/21 for LG Sector)

AASB 1059 addresses the accounting for a service concession arrangement by a grantor that is a public sector entity by prescribing the accounting for the arrangement from the grantor's perspective. It requires the grantor to:

- recognise a service concession asset constructed, developed or acquired from a third party by the operator, including an upgrade to an existing asset of the grantor, when the grantor controls the asset;
- reclassify an existing asset (including recognising previously unrecognised identifiable intangible assets and land under roads) as a service concession asset when it meets the criteria for recognition as a service concession asset;
- initially measure a service concession asset constructed, developed or acquired by the operator or reclassified by the grantor at current replacement cost in accordance with the cost approach to fair value in *AASB 13 Fair Value Measurement*. Subsequent to the initial recognition or reclassification of the asset, the service concession asset is accounted for in accordance with *AASB 116 Property, Plant and Equipment* or *AASB 138 Intangible Assets*, as appropriate, except as specified AASB 1059;
- recognise a corresponding liability measured initially at the fair value (current replacement cost) of the service concession asset, adjusted for any other consideration between the grantor and the operator; and
- disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of assets, liabilities, revenue and cash flows arising from service concession arrangements.

Based on the Council's current assessment, there is expected to be no impact on the transactions and balances recognised in the financial statements as the Council is not a grantor in a service concession arrangement.

AASB 2018-7 Amendments to Australian Accounting Standards - Definition of Material (applies 2020/21 for LG Sector)

The Standard principally amends *AASB 101 Presentation of Financial Statements* and *AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors*. The amendments refine the definition of material in AASB 101. The amendments clarify the definition of material and its application by improving the wording and aligning the definition across AASB Standards and other publications. The impacts on the local government sector are expected to be minimal.

AASB 2019-1 Amendments to Australian Accounting Standards - References to the Conceptual Framework (applies 2020/21 for LG Sector)

This Standard sets out amendments to Australian Accounting Standards, Interpretations and other pronouncements to reflect the issuance of the Conceptual Framework for Financial Reporting (Conceptual Framework) by the AASB. The impacts on the local government sector are expected to be minimal.

8.3 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables) and payables (excluding statutory payables). Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in the notes of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of council financial instruments will fluctuate because of changes in market prices. The Council's exposure to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rates.

Investment of surplus funds is made with approved financial institutions under the *Local Government Act 1989*. Council manages interest rate risk by adopting an investment policy that ensures:

- diversification of investment product;
- monitoring of return on investment; and
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

Notes to the Financial Statements

For the Year Ended 30 June 2020

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council have exposure to credit risk on some financial assets included in the balance sheet. Particularly significant areas of credit risk exist in relation to outstanding fees and fines as well as loans and receivables from sporting clubs and associations. To help manage this risk:

- council have a policy for establishing credit limits for the entities council deal with;
- council may require collateral where appropriate; and
- council only invest surplus funds with financial institutions which have a recognised credit rating specified in council's investment policy.

Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

Council may also be subject to credit risk for transactions which are not included in the balance sheet, such as when council provide a guarantee for another party. Details of our contingent liabilities are disclosed in Note 8.1(b).

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of council's operational liquidity requirements it will not have sufficient funds to settle a transaction when required or will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments; and
- monitor budget to actual performance on a regular basis;

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed on the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 8.1(c), and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 5.4.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

(e) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of + 1% and -1% in market interest rates (AUD) from year-end rates of 1.41%.

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

Notes to the Financial Statements

For the Year Ended 30 June 2020

8.4 Fair value measurement

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy, Council's financial assets and liabilities are measured at amortised cost.

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 Fair value measurement, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use of an asset result in changes to the permissible or practical highest and best use of the asset. In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis every 2 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

8.5 Events occurring after balance date

Council approved a \$2M community support package for COVID-19 relief in the 2020-21 annual budget.

As a result of the ongoing COVID-19 crisis, the Caravan Parks and Coal Creek Historical Village have continued to remain closed and suspended rent payments for affected business have also continued. Due to regional Victoria returning to Stage 3 restrictions, leisure centres were closed again from 6 August 2020.

9.3 Superannuation

Council makes the majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund (the Fund). This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in Comprehensive Operating Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receives both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2020, this was 9.5% as required under Superannuation Guarantee (SG) legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of South Gippsland Shire Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

A triennial actuarial review is currently underway for the Defined Benefit category as at 30 June 2020 and is expected to be completed by 31 December 2020.

As at 30 June 2019, an interim actuarial investigation was held as the Fund provides lifetime pensions in the Defined Benefit category. The vested benefit index (VBI) of the Defined Benefit category of which South Gippsland Shire Council is a contributing employer was 107.1%. The financial assumptions used to calculate the VBIs were:

- Net investment returns 6.0% pa
- Salary information 3.5% pa
- Price inflation (CPI) 2.0% pa.

Vision Super has advised that the VBI at June 2020 was 104.6%.

The VBI is used as the primary funding indicator. Because the VBI was above 100%, the 30 June 2019 interim actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Employer contributions

Regular contributions

On the basis of the results of the 2017 full actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2020, this rate was 9.5% of members' salaries (9.5% in 2018/2019). This rate will increase in line with any increases in the SG contribution rate and reviewed as part of the 30 June 2020 triennial valuation.

In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

Notes to the Financial Statements

For the Year Ended 30 June 2020

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall.

Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up.

If there is a surplus in the Fund, the surplus cannot be returned to the participating employers.

In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

The 2019 interim actuarial investigation surplus amounts

An actuarial investigation is conducted annually for the Defined Benefit category of which South Gippsland Shire Council is a contributing employer. Generally, a full actuarial investigation conducted every three years and interim actuarial investigations are conducted for each intervening year. An interim investigation was conducted as at 30 June 2019 and a full actuarial investigation was conducted as at 30 June 2017.

The Fund's actuarial investigations identified the following for the Defined Benefit category of which Council is a contributing employer:

	2019 \$m	2017 \$m
- A VBI Surplus	151.3	69.8
- A total service liability surplus	233.4	193.5
- A discounted accrued benefits surplus	256.7	228.8

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2019.

The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses as at 30 June 2019.

The discounted accrued benefit surplus means that the current value of the assets in the Fund's Defined Benefit category exceeds the value of benefits payable in the future but accrued in respect of service to 30 June 2019.

Council was notified of the 30 June 2019 VBI during August 2019 (2018: August 2018).

The 2020 triennial actuarial investigation

An triennial actuarial investigation is being conducted for the Fund's position as at 30 June 2020. It is anticipated that this actuarial investigation will be completed by 31 December 2020. The financial assumptions for the purposes of this investigation are:

	2020 Triennial investigation	2017 Triennial investigation
Net investment return	5.6% pa	6.5% pa
Salary inflation	2.5% pa for the first two years and 2.75% pa after	3.5% pa
Price inflation	2.0% pa	2.5% pa

Contributions by Council (excluding any unfunded liability payments) to the above superannuation plans for the financial year ended 30 June 2020 are detailed below:

Scheme	Type of Scheme	Rate	2020 \$,000	2019 \$,000
Vision super	Defined benefit	9.50%	88	136
Vision super	Accumulation fund	9.50%	2,018	2,040

There were \$20K contributions outstanding and no loans issued from or to the above schemes as at 30 June 2020.

The expected contributions to be paid to the Defined Benefit category of Vision Super for the year ending 30 June 2021 is \$105K.

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall.

Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up.

If there is a surplus in the Fund, the surplus cannot be returned to the participating employers.

In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

9.4 Correction of prior period error

During the year, Council identified that Guard Rails had been inadvertently excluded from the value of the Roads asset class. In addition, Council identified assets in two new asset classes, Waterway Infrastructure and Land Stabilisation, that were previously unreported as a result of inspections and a review of the asset management system.

Council has since adjusted the errors. The impact of the restatement in the financial statements is as follows:

10 Change in accounting policy

Council has adopted *AASB 15 Revenue from Contracts with Customers*, *AASB 16 Leases* and *AASB 1058 Income of Not-for-Profit Entities*, from 1 July 2019. This has resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements.

Due to the transition methods chosen by Council in applying these standards, comparative information throughout these financial statements has not been restated to reflect the requirements of the new standards except in relation to contracts that were not complete at 1 July 2019. The transition impact of these are detailed below.

a) AASB 15 Revenue from Contracts with Customers - Impact of Adoption

AASB 15 Revenue from Contracts with Customers applies to revenue transactions where Council provides services or goods under contractual arrangements.

Council adopted *AASB 15 Revenue from Contracts with Customers* using the modified (cumulative catch up) method. Revenue for 2019 as reported under *AASB 118 Revenue* is not adjusted, because the new standard is only applied from the date of initial application.

AASB 15 Revenue from Contracts with Customers requires revenue from contracts with customers to be recognised as Council satisfies the performance obligations under the contract.

b) AASB 16 Leases

AASB 16 Leases requires right of use assets and related liabilities for all lease agreements to be recognised on the balance sheet. The Statement of Comprehensive Income is to separately recognise the amortisation of the right of use asset, and the finance costs relating to the lease. Council has elected to adopt the modified (cumulative catch up) method under the standard and as such has not adjusted 2019 disclosures. The transition impact of these are detailed below.

c) AASB 1058 Income of Not-for-Profit Entities

AASB 1058 Income of Not-for-Profit Entities applies to income received where no contract is in place. This includes statutory charges (such as rates) as well as most grant agreements.

Council adopted *AASB 1058 Income of Not-for-Profit Entities* using the modified (cumulative catch up) method. Income for 2019 is not adjusted, because the new standard is only applied from the date of initial application.

AASB 1058 Income of Not-for-Profit Entities requires income to be recognised as Council satisfies the performance obligations under the contract.

d) Transition impacts

The following table summarises the impact of transition to the new standards on retained earnings at 1 July 2019.

	2019 \$'000
Retained earnings at 30 June 2019	227,658
Revenue adjustment - impact of <i>AASB 15 Revenue from Contracts with Customers</i>	(33)
Income Adjustment - impact of <i>AASB 1058 Income of Not-for-Profit Entities</i>	(1,981)
Retained earnings at 1 July 2019	<u>225,644</u>

Council adopted the practical expedient of deeming the lease asset to be equal in value to the lease liability at 1 July 2019. As such there was no impact on retained earnings on the adoption of *AASB 16*

The following table summarises the impacts of transition to the new standards on Council's balance sheet for the year ending 30 June 2019.

	As reported 30 June 2019 \$'000	Adjustments \$'000	Post adoption \$'000
Assets

11 Impact of COVID 19 crisis on South Gippsland Shire Council operations and 2019-20 financial report

On 30 January 2020, COVID 19 was declared a global pandemic by the World Health Organisation. Since then, various measures have been taken by all three levels of Government in Australia to reduce the spread of COVID-19. This crisis and the measure taken to mitigate it has impacted Council operations in the following areas for the financial year ended 30 June 2020:

- In response to government directive amidst the COVID-19 outbreak, the leisure centre facilities, caravan parks and Coal Creek Historical Village were closed at the end of March 2020. These closures resulted in an estimated decrease in council user fee revenue by \$188K and also decreased associated expenses by \$83K based on 2018-19 results.
- Council suspended rent payments for rent agreements of impacted businesses from April 2020. This resulted in decreased rent revenue of \$26K.
- Financial impact from deferral of rates revenue/interest free period is \$2K. This has also resulted in the debtor balance as at 30 June 2020 to increase by \$86K compared to last year.
