

South Gippsland ~ Our People Podcasts

South Gippsland Shire Council is keen to hear from local people who have an interesting and positive story that they would like to share about living in South Gippsland. The stories will be recorded on podcast and shared online for prospective new residents and locals to enjoy.

Council is keen to hear from people who have recently moved or invested in South Gippsland or from born and bred locals who are passionate about where they live. The podcasts will be used to help encourage, energise and advise people who are considering moving to South Gippsland.

Podcasts will be recorded and produced by local podcast specialist Jet Streamer. Each selected podcast participant will be featured in a personalised photoshoot by a South Gippsland photographer. Expressions of interest from local photographers are invited.

Quotes attributable to South Gippsland Shire Council CEO, Kerry Ellis:

"We know that a lot of city-based people are considering a move to the country right now, which I'm sure is both an exciting and daunting prospect. Although there is a lot of information available on the benefits of making a tree or sea change, it can be reassuring to hear the real-life stories of people who are happy living in South Gippsland and the stories of people who have successfully relocated. We hope that people will be considering putting their hand up to have their story told."
