Strategies adopted

The Economic Development and Visitor Economy Strategies were adopted by Council at last week's meeting.

These strategies are the culmination of extensive research, consultation and engagement. Their implementation marks the start of a new phase of economic and tourism development in South Gippsland.

Both strategies extend from 2021 to 2031 and are designed to be a blueprint for Council to create a thriving, diverse and sustainable local economy that is built on our region's natural advantages, of which we have plenty!

While it isn't possible to identify every possibility and challenge we will face

in the next 10 years, these strategies are action-focused around six strategic themes to maximise positive impacts on the community.

Both strategies include action plans that will be turned into an Annual Action Plan that stipulates the budgets and timelines for each action.

We would like to thank the hundreds of community members who provided feedback on these strategies. Over 400 pieces were collected and incorporated into the final strategies.
