South Gippsland Shire Council News Regional Profile Community Survey Open

South Gippsland Shire Council is currently undertaking a community survey to help us gain an in-time snapshot of our community's priorities, likes and challenges. We want to hear about your current experience in South Gippsland.

The survey results will help create a regional profile that will be used by Councillors and Council staff to inform future planning, decision making, and strategy and program development.

In contrast to the Community Vision which explores aspirations for what the community think South Gippsland should look like in the year 2040, the Community Survey is seeking feedback on what residents are experiencing right now. The two pieces of work complement each other and together will provide a complete 'now and then' picture of our local community.

To ensure a wide range of views are received, 7,800 households have been randomly selected from across the region and sent a survey invite to participate in this research.

If you have received a direct invite through the mail or email, please complete that version of the survey (using your email link, direct access code or paper form), so that your responses are recorded in the important random sample part of the research. Participation is voluntary, however we urge you to participate so the data covers a good mix of experiences from across the Shire.

If you haven't received a direct invite, we welcome your participation in this 15-20 minute anonymous research by visiting:
