

Nyora public toilet opening

This week South Gippsland Shire Council officially opened a new public toilet block in Nyora at RSL Park, Mitchell Street.

The works included:

- Construction of a new public toilet facility, comprising three standard toilets, one ambulant toilet and one accessible toilet.
- Demolition of existing toilet facility.
- New access pathways within the Park.
- New accessible parking bay.

In 2025, community consultation gathered feedback on potential locations for a new public toilet in Nyora. The consultation ran for four weeks, with 165 people sharing their thoughts.

The toilet block is now open for community use.

Quote attributable to South Gippsland Shire Mayor, Cr Nathan Hersey:

“Nyora is steadily growing and the central area of town is being used more often by locals and visitors. The new public toilets are another step forward in improving the facilities available in the township, servicing users of the park and the nearby Great Southern Rail Trail.”

Quote attributable to Toby Garnham, local resident:

“It is great to see a new fully accessible and family friendly toilet in the park.”
