

Works happening along Bridge Street, Korumburra

Bridge Street in Korumburra will be closed to traffic between Princes Street and Queen Street from Monday 21 September to Friday 2 October to undertake vital road works. Pedestrian access won't be affected.

The works are being undertaken during school holidays to minimise the disruption to the schools in the area.

To help the community navigate the closure, VMS boards are in place either side of the closure as well as detour signage during the closure.

The road will briefly reopen on Thursday 24 September and close again on Monday 28 September for the AFL Grand Final long weekend to reduce impacts to those travelling.

Council thanks the community for their patience and understanding as we undertake these works.
