South Gippsland Shire Council News

Council's unsealed roads Re-Sheet Program

South Gippsland Shire Council's Road Re-sheeting Program renews approximately 80 kilometres of Council's unsealed road network each year.

For road maintenance, the Shire is divided into North and South areas, each containing eight zones. One zone in each area is selected for the annual program, generally following a multi-year rotation. Individual roads are assessed to determine when re-sheeting is needed.

The program begins in July, with road selection informed by our teams' assessments of road condition, traffic levels and maintenance needs.

Roads carrying higher volumes of traffic may require more frequent grading and re-sheeting. Road inspections are undertaken in accordance with Council's Road Management Plan.

Before re-sheeting, the team undertakes drainage work and trims overhanging vegetation where required. This preparation helps water drain away from the road and provides clearance for trucks to unload gravel.

Re-sheeting approximately 80 kilometres of gravel road annually supports Council's asset renewal and key performance indicators which help ensure investment in existing infrastructure and restoring our gravel roads.

In short, the Re-sheeting Program helps maintain the condition of Council's unsealed roads and supports safer travel for the community.

Green Waste Amnesty now open

Council's Green Waste Amnesty started on 31 October and is now open until 31 December.

During the Amnesty, South Gippsland residents can dispose of green waste free of charge at any Council Transfer Station.

This initiative encourages property owners to prepare for the upcoming high risk weather season by removing potential fire hazards such as excess vegetation, branches, leaves, and garden clippings.

Some plant species and materials are not accepted under the Amnesty due to composting limitations, such as blackberry, ragwort, palm fronds and tree stumps.

Find a full list of exclusions here:
