Introduction

South Gippsland Shire Council was established by an order of the Governor in Council on 2nd December 1994 and is a body corporate. Council's main office is located at 9 Smith Street, Leongatha.

Statement of compliance

These financial statements are a general purpose financial report that consists of a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows, Statement of Capital Works and notes accompanying these financial statements. The general purpose financial report complies with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1989*, and the *Local Government (Planning and Reporting) Regulations 2014*.

Note 1 Significant accounting policies

(a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to note 1 (k))

- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to note 1 (I))
- the determination of employee provisions (refer to note 1 (r))
- the determination of landfill provisions (refer to note 1 (s))

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

(b) Changes in accounting policies

There have been no changes in accounting policies from previous period.

(c) Committees of management

All entities controlled by Council that have material revenues, expenses, assets or liabilities, such as committees of management, have been included in this financial report. Any transactions between these entities and Council have been eliminated in full.

(d) Accounting for investments in associates

Associates are all entities over which Council has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

e) Revenue Recognition

Income is recognised when the Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to the Council and the amount of the contribution can be measured reliably.

Rates and Charges

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

Note 1 Significant accounting policies (cont.) e) Revenue Recognition (cont.)

Statutory fees and fines

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

User fees

User fees are recognised as revenue when the service has been provided or the payment is received, whichever first occurs.

Grants

Grant income is recognised when Council obtains control of the contribution. This is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.

Where grants or contributions recognised as revenues during the financial year were obtained on condition that they be expended in a particular manner or used over a particular period and those conditions were undischarged at balance date, the unused grant or contribution is disclosed in note 6. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.

Contributions

Monetary and non monetary contributions are recognised as revenue when Council obtains control over the contributed asset.

Sale of property, infrastructure, plant and equipment

The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer. *Interest*

Interest is recognised as it is earned.

Dividends

Dividend revenue is recognised when the Council's right to receive payment is established.

Other Income

Other income is measured at the fair value of the consideration received or receivable and is recognised when Council gains control over the right to receive the income.

(f) Fair value measurement

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 *Fair value measurement*, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

For the Year Ended 30 June 2017

Note 1 Significant accounting policies (cont.)

(h) Trade and other receivables

Short term receivables are carried at invoice amount as amortised cost using the effective interest rate method would not impact the carrying value. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred. Long term receivables are carried at amortised cost using the effective interest rate method.

(i) Other financial assets

Other financial assets are valued at fair value, being market value, at balance date. Term deposits are measured at amortised cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

(j) Inventories

Inventories held for distribution are measured at cost adjusted when applicable for any loss of service potential. All other inventories, including land held for sale, are measured at the lower of cost and net realisable value. Where Inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

(k) Recognition and measurement of property, infrastructure plant and equipment Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the price that would be received to sell the asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads. In accordance with Council's policy, the threshold limits detailed in Note 1 (I) have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year. *Revaluation*

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use on an asset result in changes to the permissible or practical highest and best use of the asset. Further details regarding the fair value hierarchy are disclosed at Note 22, Property, infrastructure, plant and equipment.

In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis every 2 years. The valuation is performed either by experienced council officers or independent experts. Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Land under roads

Council recognises land under roads it controls at fair value since 30 June 2008.

Attachment 2.2.1 Notes to the Financial Statements

For the Year Ended 30 June 2017

Note 1 Significant accounting policies (cont.)

(I) Depreciation of property, infrastructure, plant and equipment

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life. Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are listed below and are consistent with the prior year unless otherwise stated.

Asset recognition thresholds and depreciation periods	Depreciation Period	Threshold Limit
<u>Property</u>		\$'000
land	-	No Threshold
land improvements	-	10
<u>Buildings</u>		
heritage buildings	100 years	15
buildings	20 to 50 years	15
building improvements	20 to 50 years	15
Plant and Equipment		
major plant, machinery and equipment	1 to 20 years	No Threshold
fixtures, fittings and furniture	1 to 5 years	15
computers / software and telecommunications	1 to 5 years	15
Infrastructure		
road pavements	130 years	No Threshold
road seals	15 years	No Threshold
road formation and earthworks	-	No Threshold
road kerbs & channel	120 years	15
bridges	150 Years	15
major culverts	120 years	15
footpaths and cycleways	90 years	15
off street car parks pavement	130 years	15
off street car parks seal	15 years	15
drainage	120 Years	15
waste management	4 to 50 years	15
other structures	10 to 40 Years	15

(m) Repairs and maintenance

Routine maintenance, repair costs, and minor renewal costs are expensed as incurred. Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

(n) Investment property

Investment property is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to the Council. Subsequent to initial recognition at cost, investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the comprehensive income statement in the period that they arise. Rental income from the leasing of investment properties is recognised in the comprehensive income statement on a straight line basis over the lease term.

For the Year Ended 30 June 2017

Note 1 Significant accounting policies (cont.)

(o) Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

(p) Trust funds and deposits

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited (refer to Note 25).

(q) Borrowings

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method. The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition. *Borrowing costs*

Borrowing costs are recognised as an expense in the period in which they are incurred, except where they are capitalised as part of a qualifying asset constructed by Council. Except where specific borrowings are obtained for the purpose of specific asset acquisition, the weighted average interest rate applicable to borrowings at balance date, excluding borrowings associated with superannuation, is used to determine the borrowing costs to be capitalised.

Borrowing costs include interest on bank overdrafts and interest on borrowings.

(r) Employee costs and benefits

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement. *Long service leave*

Liability for long service leave (LSL) is recognised in the provision for employee benefits.

Current Liability - unconditional LSL is disclosed as a current liability even when the council does not expect to settle the liability within 12 months because it will not have the unconditional right to defer settlement of the entitlement should an employee take leave within 12 months

The components of this current liability are measured at :

- present value - component that is not expected to be wholly settled within 12 months.

- nominal value - component that is expected to be wholly settled within 12 months.

Classification of employee costs

Non-current liability - conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non - current liability. There is an unconditional right to defer settlement of the entitlement until the employee has completed the requisite years of service. This non-current LSL liability is measured at present value.

For the Year Ended 30 June 2017

Note 1 Significant accounting policies (cont.)

(s) Landfill restoration provision

Council is obligated to restore its Koonwarra landfill site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

(t) Leases

Operating leases

Lease payments for operating leases are required by the accounting standard to be recognised on a straight line basis, rather than expensed in the years in which they are incurred.

Leasehold improvements

Leasehold improvements are recognised at cost and are amortised over the unexpired period of the lease or the estimated useful life of the improvement, whichever is the shorter.

(u) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the Statement of Cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(v) Financial guarantees

Financial guarantee contracts are not recognised as a liability in the balance sheet unless the lender has exercised their right to call on the guarantee or Council has other reasons to believe that it is probably that that right will be exercised. Details of guarantees that Council has provided, that are not recognised in the balance sheet are disclosed at Note 34 Contingent Liabilities and Contingent Assets.

(w) Contingent assets and contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed by way of a note and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Balance Sheet. Commitments are disclosed at their nominal value by way of note and presented inclusive of the GST payable.

(x) Pending accounting standards

Certain new AAS's have been issued that are not mandatory for the 30 June 2017 reporting period. Council has assessed these pending standards and has identified the following potential impacts will flow from the application of these standards in future reporting periods.

Revenue from contracts with customers (AASB 15) (applies 2019/20)

The standard shifts the focus from the transaction-level to a contract-based approach. Recognition is determined based on what the customer expects to be entitled to (rights and obligations), while measurement encompasses estimation by the entity of the amount expected to be entitled for performing under the contract. The full impact of this standard is not known however it is most likely to impact where contracts extend over time, where there are rights and obligations that may vary the timing or amount of the consideration, or where there are multiple performance elements. This has the potential to impact on the recognition of certain grant income. *Leases (AASB 16) (applies 2019/20)*

The classification of leases as either finance leases or operating leases is eliminated for lessees. Leases will be recognised in the Balance Sheet by capitalising the present value of the minimum lease payments and showing a 'right-of-use' asset, while future lease payments will be recognised as a financial liability. The nature of the expense recognised in the profit or loss will change. Rather than being shown as rent, or as leasing costs, it will be recognised as depreciation on the 'right-of-use' asset, and an interest charge on the lease liability. The interest charge will be calculated using the effective interest method, which will result in a gradual reduction of interest expense over the lease term.

Council does not have significant operating leases that will be impacted as a result of this change.

(y) Rounding

Unless otherwise stated, amounts in the financial report have been rounded to the nearest thousand dollars. Figures in the financial statement may not equate due to rounding.

Note 2 Budget comparison

The budget comparison notes compare Council's financial plan, expressed through its annual budget, with actual performance. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variances. Council has adopted a materiality threshold of the lower of 5 percent or \$100K where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

The budget figures detailed below are those adopted by Council on 22 June 2016. The Budget was based on assumptions that were relevant at the time of adoption of the Budget. Council sets guidelines and parameters for revenue and expense targets in this budget in order to meet Council's planning and financial performance targets for both the short and long-term. The budget did not reflect any changes to equity resulting from asset revaluations, as their impacts were not considered predictable.

These notes are prepared to meet the requirements of the Local Government Act 1989 and the Local Government (Planning and Reporting) Regulations 2014.

Surplus for the year

(i) Explanation	of material variations	
Variance Ref.	ltem	Explanation
1	Statutory fees and fines	New and amendment applications received for statutory planning fees was higher than expected.
2	User fees	User fees were marginally higher than budget by \$116K. This was mainly due to more than expected revenue from Caravan Parks.
3	Grants - Operating	50% of Grants commission allocation (\$4.5M) relating to 2017-18 was received in advance.
4	Grants - Capital	Favourable variance mainly due to receipt of additional funding from Department of Infrastructure and Regional Development towards Roads to Recovery Projects.
5	Contributions - monetary	Contributions to Capital (\$199K) was classified as Grants Capital in the Budget
6	Contributions - non monetary	Developer contributed infrastructure assets were marginally higher than estimate by \$24K.
7	Net gain on disposal of property, infrastructure plant and equipment	Plant & Fleet sales were expected to return a net profit but resulted in a loss of \$54K for the year. Land sales resulted in a marginal profit of \$36K.The net result was a loss of \$18K.
8	Share of net profits / (losses) of associates and joint ventures	Council share of \$133K surplus from Library was unexpected and not budgeted for.
9	Other Income	Interest on rates and charges (\$190K), reclassified as Rates and charges but goes under other income in the budget.
10	Materials and services	Some of the major projects that were budgeted in 2016-17 were not carried out during the year. Significant among them are Long Jetty Restoration (\$1M), Dredging Toora Channel (\$602K), Korumburra Showgrounds (\$593K), Black Spur Investigation (\$344K). Additional expenses included \$590K on storm events for which natural disaster claims will be made.
11	Bad and doubtful debts	New Provision for doubtful debts is based on current status of Caravan park debtors.
12	Depreciation	Depreciation expense was marginally lower than budget by \$146K due to timing difference of Capital expenditure.
13	Other expenses	Community grants which were budgeted for payment in 2016-17 were either reduced or carried forward to 2017-18.

(i) Explanation of material variations

Variance Ref.	Item	Explanation
1	Land	Land acquisitions during 2016-17 were Jupiter Boulevard Venus Bay (\$303K) and Sheens Road, Mirboo North (\$95K). Total additions were below budget by \$164K as some of the acquisitions could not be completed and were carried
		forward.
2	Buildings	Variance is due to carry forward of some projects to 2017-18 due to revised projects plans. Projects carried forward include Caravan Park Toilet Block (\$377K) and Building renewal program (\$229K)
3	Plant, machinery and equipment	Variance is due to carry forward of some projects to 2017-18.
4	Computers and telecommunications	Expenditure on some of the projects were above original budgets. The budgets were revised and approved during the year.
5	Roads	Various projects such as Anderson Street Town entrance (\$1080K), Hudsons Road(\$1039K) and Roads Reseals (\$423K) were carried forward to 2017-18 due to revised project plans. Federal Blackspot program (\$2.3M) which is fully grant funded was not part of the original budget
6	Bridges	Bridges rehabilitation program was above budget by \$32K. Expenditure on a few new projects also commenced during the year.
7	Major Culverts	Major Culverts renewal program has been partly carried forward to 2017-18.
8	Footpaths and cycleways	Expenditure on some of the footpath projects were above original budgets. The budgets were revised and approved during the year.
9	Drainage	Expenditure on Drainage rehabilitation program was above original budget. The budget was revised and approved during the year.
10	Waste management #	Capital expenditure includes provision of \$1041K for Landfill rehabilitation of Cell 4.Additional expenditure on Cell construction of \$269K was approved in the revised budget. The Leachate Evaporation system budget of \$432K was carried forward to 2017-18
11	Other infrastructure	Projects carried forward to future years due to changes to project plans include Pools refurbishment \$191K, Pools renewal program \$232K, Splash Pool \$70K and Community Infrastructure projects \$182K

Attachment 2.2.1 Ager Notes to the Financial Statements

For the Year Ended 30 June 2017

	2017	2016
	\$'000	\$'000
Note 3 Rates and charges		

Council uses Capital Improved Value (CIV) as the basis of valuation of all properties within the municipal district. The capital value of a property is the value that it could be reasonably expected to sell for on the open market.

The valuation base used to calculate general rates for 2016/17 was \$7,574 million (2015/16 \$7,083 million)

General Rates	21,676	20,785
Industrial Rates	1,379	1,197
Commercial Rates	1,471	1,381
Farm Rates	9,991	9,709
Rural Residential Rates	71	87
Vacant Land Rates	2,321	2,366
Cultural & Recreational Land Rates	22	23
Supplementary Rates & Rate Adjustments	147	598
Interest on rates and charges	190	181
Garbage Charges	2,736	2,438
Total rates and charges	40,004	38,765

The date of the latest general revaluation of land for rating purposes within the municipal district was 1 January 2016, and the valuation first applies to the rating year commencing 1 July 2016.

Note 16 Investments in associates

Investment in West Gippsland Regional Library Corporation is accounted for using the equity method. Background

Council has a 30.55% equity interest in the West Gippsland Regional Library Corporation in 2016/17 (30.55% in 2015/16). The equity interest is calculated on the basis of the proportion it contributes to the operating costs of the services.

Note 22 Property, Infrastructure Plant and Equipment (cont.)

Valuation of land and buildings

Valuation of Land and buildings were undertaken by Andrew Begg, AAPI (Council Employee). The basis of valuation is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movement in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

The date of the current valuation is detailed in the following table. No revaluation was conducted in the current year, however assets have been reviewed and no abnormal changes in values were observed.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2017 are as follows:

	Level 1	Level 2	Level 3	Date of Valuation
Land Specialised	-	-	45,402	01-January-2016
Land under roads	-	-	32,966	01-January-2016
Heritage buildings	-	-	1,293	01-January-2016
Building specialised	-	-	45,132	01-January-2016
Total	-	-	124,793	

Valuation of infrastructure

Valuation of Council's, infrastructure assets was performed by John Moylan, BE Civil Engineering, MBA (Tech Mgt) (Council employee). The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

The date of the current valuation is detailed in the following table. No revaluation was conducted in the current year, however assets have been reviewed and no abnormal changes in values were observed.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2017 are as follows:

	Level 1	Level 2	Level 3	Date of Valuation
Roads	-	-	275,461	30-June-2016
Bridges	-	-	37,333	30-June-2016

Waste Management	-	-	4,155	30-June-2016
Other infrastructure	-	-	4,309	30-June-2016
Total	-	-	393,195	

Description of significant unobservable inputs into level 3 valuation

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 5% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$1 and \$826 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs is calculated on a square metre basis and ranges from \$500 to \$5000 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 20 years to 50 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 4 years to 150 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

Reconciliation of specialised land	2017	2016
Specialised land	45,402	45,616
Land under roads	32,966	32,966

Note 23 Investment Property		
Balance at the beginning of the year	729	716
Fair value adjustment	-	13
Balance at end of financial year	729	729

Valuation of investment property

Valuation of investment property has been determined in accordance with a valuation by Marc Babos, AAPI (Council employee) who has recent experience in the location and category of the property being valued. The valuation is at fair value, based on the current market value for the property.

Note 24 Trade and other payables

Other Deposits held in Trust	324	282
Total trust funds and deposits	899	873

Purpose and nature of items

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a quarterly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

Agenda - 27 September 2017

Notes to the Financial Statements

For the Year Ended 30 June 2017

Note 32 Operating Leases (a) Operating lease commitments	2017 \$'000	2016 \$'000
At the reporting date, the Council had the following obligations under non-cancellable operating lease of plant and equipment and land and buildings for use within Council's activities (these oblig not recognised as liabilities).		
Not later than one year	186	197
Later than one year and not later than five years	196	345
Later than five years	-	1
Total operating lease commitments	382	543

(b) Operating lease receivables

The Council has entered into commercial property leases on its investment property, consisting of surplus freehold office complexes and a quarry site. These properties held under operating leases have remaining non-cancellable lease terms of between 1 and 10 years. All leases include a CPI based revision of the rental charge annually.

Future minimum rentals receivable under non-cancellable operating leases are as follows:

Not later than one year	200	139
Later than one year and not later than five years	206	296
Later than five years	390	408
Total operating lease receivables	796	843

Note 33 Superannuation

Council makes majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund (the Fund). This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2017, this was 9.5% as required under Superannuation Guarantee legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

For the Year Ended 30 June 2017

Note 33 Superannuation (cont.)

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2016, an interim actuarial investigation was held as the Fund provides lifetime pensions in the Defined Benefit category. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 102%. To determine the VBI, the fund Actuary used the following long-term assumptions:

Net investment returns 7.0% pa Salary information 4.25% pa Price inflation (CPI) 2.5% pa.

Vision Super has advised that the estimated VBI at quarter ended 30 June 2017 was 103.1 %. The VBI is to be be used as the primary funding indicator. Because the VBI was above 100%, the 2016 interim actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Employer contributions

Regular contributions

On the basis of the results of the 2016 interim actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2017, this rate was 9.5% of members' salaries (9.5% in 2015/2016). This rate will increase in line with any increase to the SG contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

The Fund's interim actuarial investigation as at 30 June 2016 identified the following in the defined benefit category of which Council is a contributing employer:

A VBI surplus of \$40.3 million; and A total service liability surplus of \$156 million.

For the Year Ended 30 June 2017

Note 33 Superannuation (cont.)

2016 Interim actuarial investigation surplus amounts

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2016. The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses. Council was notified of the 30 June 2016 VBI during August 2016.

2017 Full triennial actuarial investigation

A full actuarial investigation is being conducted for the Fund's position as at 30 June 2017. It is anticipated that that this actuarial investigation will be completed in December 2017.

Superannuation contributions

Contributions by South Gippsland Shire (excluding any unfunded liability payments) to the above superannuation plans for the financial year ended 30 June 2017 are detailed below:

Scheme	Type of Scheme	Rate	2007	2007
			\$000	\$000
Vision Super	Defined benefits	9.50%	144	142
Vision Super/Others	Accumulation	9.50%	1876	1773

In addition to the disclosed contributions, South Gippsland Shire Council has paid unfunded liability payments to Vision Super totalling \$ Nil during 2016/17 (2015/16 \$ Nil). There were \$4865 contributions outstanding and [\$Nil] loans issued from or to the above schemes as at 30 June 2017. The expected contributions to be paid to the Defined Benefit category of Vision Super for the year ending 30 June 2018 is \$ 148,000.

Note 34 Contingent liabilities and contingent assets Contingent liabilities

Superannuation

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined in Note 33. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists. At this point in time it is not known if additional contributions will be required, their timing or potential amount.

Landfills

Under requirement of the Environmental Protection Authority (EPA), Council has a present obligation to perform site rehabilitation works for landfills that it operates on a progressive basis. At balance date Council has made necessary provisions for rehabilitation of Landfills that are currently in operation (Refer note 26 (b)). However the estimates of provision required is dependent on the accuracy of the forecast, timing of the work, work required, and related costs.

Guarantees

Council has taken out Bank Guarantees with Commonwealth Bank of Australia as per details below:

Description	Favouree		Amount
Contract Performance Guarantee	South Gippsland Regional Water Board	\$	40,000
Contract Performance Guarantee	Department of Energy and Minerals	\$	15,000
Contract Performance Guarantee	Department of Natural Resources & Minerals	\$	20,000
Security Deposit Guarantee	Environment Protection Authority	\$	425,000
Security Deposit Guarantee	State of Victoria - Environment Protection Authority	\$	451,296
Total contingent liability as at 30 June 2017		\$	951,296

Contingent assets

Developer contributions to be received by Council in respect of estates currently under development total \$379K (2016 \$413K).

Note 35 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in Note 1 of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of our financial instruments will fluctuate because of changes in market prices. The Council's exposures to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Our interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes us to fair value interest rate risk / Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rate.

Investment of surplus funds is made with approved financial institutions under the *Local Government Act 1989*. We manage interest rate risk by adopting an investment policy that ensures:

- diversification of investment product,
- monitoring of return on investment,
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause us to make a financial loss. We have exposure to credit risk on some financial assets included in our balance sheet. To help manage this risk:

- we have a policy for establishing credit limits for the entities we deal with;

- we may require collateral where appropriate; and

- we only invest surplus funds with financial institutions which have a recognised credit rating specified in our investment policy. Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

We may also be subject to credit risk for transactions which are not included in the balance sheet, such as when we provide a guarantee for another party. Details of our contingent liabilities are disclosed in note 34.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of our operational liquidity requirements or we will not have sufficient funds to settle a transaction when required, we will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and

- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue.

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed in the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 34, and is deemed insignificant based on prior periods' data and current assessment of risk.

Note 35 Financial instruments (cont.)

(d) Liquidity risk (cont.)

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period. With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 27. Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

e) Fair value

Unless otherwise stated, the carrying amount of financial instruments reflect their fair value

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy , Council's financial assets and liabilities are measured at amortised cost.

(f) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months: - A parallel shift of + 1% and -1% in market interest rates (AUD) from year-end rates of 2.64%. These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a

Note 36 Related party disclosures

material impact on the results of Council's operations.

Jan Martin	Ex Director Corporate and Community Service	Gippsland Southern Health Service	Payment for goods & services	73

All transactions are in line with normal commercial practice.

(vi) Loans to/from related parties

The aggregate amount of loans in existence at balance date that have been made, guaranteed or secured by the council to a related party was NIL.

(vii) Commitments to/from related parties

The aggregate amount of commitments in existence at balance date that have been made, guaranteed or secured by the council to a related party was \$1.38M. All transactions are in line with normal commercial practice.

vii) Senior Officer Remuneration

A Senior Officer is an officer of Council, other than Key Management Personnel, who: a) has management responsibilities and reports directly to the Chief Executive; or b) whose total annual remuneration exceeds \$142,000

The number of Senior Officers are shown below in their relevant income bands:

Income Range	2017 No.	2016 No.
below \$142,000	1	1
\$140,000 - \$149,999	1	3
\$150,000 - \$159,999	2	1
\$160,000 - \$169,999	2	-
	6	5
	\$'000	\$'000
Total Remuneration for the reporting year for Senior Officers included above, amounted to: Some of the Council staff classified as Senior Officers in previous year have been re-classifie	900 d as Key	718

Note 37 Events occurring after balance date

Management Personnel in 2016-17

No matters have occurred after balance date that require disclosure in the financial report.

Attachment 2.2.1 Agenda - 27 September 2017 Certification of Financials Statements

For the Year Ended 30 June 2017

South Gippsland Shire Council Certification of Financial Statements For the Year Ended 30 June 2017

In my opinion the accompanying financial statements have been prepared in accordance with the *Local Government Act 1989, the Local Government (Planning and Reporting) Regulations 2014,* Australian Accounting Standards and other mandatory professional reporting requirements.

Acting Finance Manager : Stuart Smith, CPA

Location : Leongatha

Dated : 27 / 09 / 2017

In our opinion the accompanying financial statements present fairly the financial transactions of South Gippsland Shire Council for the year ended 30 June 2017 and the financial position of the Council as at that date.

As at the date of signing, we are not aware of any circumstances which would render any particulars in the financial statements to be misleading or inaccurate.

We have been authorised by the Council on 27 September 2017 to certify the financial statements in their final form.

Councillor :	Ray Argento

Ordinary Meeting of Council No. 4164427 September 2017 ippslandshirecouncil

Agenda - 27 September 2017

SECTION four PERFORMANCE

Ordinary Meeting of Council No. 416 - 27 September 2017

4.1 PERFORMANCE STATEMENT

DESCRIPTION OF MUNICIPALITY

South Gippsland Shire was formed in 1994 from the amalgamation of four municipalities. Located 90 minutes south east of Melbourne, the Shire has an expanding population of 28,936 (*ABS estimated resident population 2016*).

The Council covers an area of 3,300 square kilometres with substantial coastal frontage. South Gippsland Shire is a spectacular region, with communities nestled among the rolling green hills, and along the coast, linking the mountains to the sea. The Shire's major centres are Leongatha, Korumburra, Mirboo North and Foster, and other significant townships include Nyora, Toora, Venus Bay, Sandy Point, Poowong, Port Welshpool, Loch, Dumbalk, Welshpool, Meeniyan, Fish Creek, Port Franklin, Koonwarra, Kongwak and Tarwin Lower.

Agenda - 27 September 2017

Key industry sectors by employment in the South Gippsland Shire at the last census in 2011 were Agriculture, Forestry and Fishing, Health Care and Social Assistance, Retail Trade, and Construction.

SUSTAINABLE CAPACITY INDICATORS for the year ended 30 June 2017

Service	Results 2015	Results 2016	Results 2017	Material Variation
Population	\$2,013	\$2,128	\$2,091	
Expenses per head of municipal population [Total expenses / Municipal population]				
<i>Infrastructure per head of municipal population</i> [Value of infrastructure / Municipal population]	\$14,743	\$16,042	\$15,611	
<i>Population density per length of road</i> [Municipal population / Kilometres of local roads]	13	13	24	
Own-source revenue				
Own-source revenue per head of municipal population	\$1,522	\$1,670	\$1,630	
[Own-source revenue / Municipal population]				
<i>Recurrent grants</i> <i>Recurrent grants per head of municipal</i> <i>population</i> [Recurrent grants / Municipal population]	\$607	\$414	\$684	Receipt of \$4.5M of Grants Commission allocation in advance in 2016/17 while \$4.3M of allocation related to 2015/16 was received in
				advance in 2014/15.
Disadvantage				
Relative socio-economic disadvantage	6	6	6	
[Index of Relative Socio-economic Disadvantage by decile]				

Definitions

"Adjusted underlying revenue" means total income other than:

(a) non-recurrent grants used to fund capital expenditure; and

- (b) non-monetary asset contributions; and
- (c) contributions to fund capital expenditure from sources other than those referred to above
- "Infrastructure" means non-current property, plant and equipment excluding land

"Local road" means a sealed or unsealed road for which the Council is the responsible road authority under the *Road Management Act 2004*

"Population" means the resident population estimated by Council

"Own-source revenue" means adjusted underlying revenue other than revenue that is not under the control of Council (including government grants)

"Relative socio-economic disadvantage", in relation to a municipality, means the relative socio-economic disadvantage, expressed as a decile for the relevant financial year, of the area in which the municipality is located according to the Index of Relative Socio-Economic Disadvantage (Catalogue Number 2033.0.55.001) of SEIFA

"SEIFA" means the Socio-Economic Indexes for Areas published from time to time by the Australian Bureau of Statistics on its Internet website

"Unrestricted cash" means all cash and cash equivalents other than restricted cash.

Service	Results 2015	Results 2016	Results 2017	Material Variation
Aquatic Facilities				
Utilisation				
Utilisation of aquatic facilities	6	6	6	
[Number of visits to aquatic facilities / Municipal population]				
Animal management				Serious dog attacks form
Health and safety				the majority of these figures. There has been a substantial
Animal management prosecutions	20	23	9	decrease in reported serious
[Number of successful animal management prosecutions]				dog attacks during this financial year.
Food safety				From 1 July 2016, 'Critical
Health and safety				and major non-compliance outcome notifications' will
Critical and major non-compliance notifications	94%	95%	100%	be reported by calendar year.
[Number of critical non-compliance notifications and major non-compliance notifications about a food premises followed up / Number of critical non-compliance notifications and major non-compliance notifications about food premises] x 100				Previously this indicator was reported by financial year. This has been implemented to better align reporting with the Department of Health and Human Services. This may result in some variances year on year.
Governance				
Satisfaction				
Satisfaction with Council decisions	44	47	45	
[Community satisfaction rating out of 100 with how Council has performed in making decisions in the interest of the community]				
Home and Community Care (HACC)				Reporting on HACC
Participation				ceased on 1 July 2016 due to the introduction
Participation in HACC service	26%	26%	N/A	of the Commonwealth
[Number of people that received a HACC service / Municipal target population for HACC services] x 100				Government's NDIS and CHSP programs.
Participation				Reporting on HACC
Participation in HACC service by CALD people				ceased on 1 July 2016 due to the introduction
[Number of CALD people who receive a HACC service / Municipal target population in relation to CALD people for HACC services] x 100	23%	22%	N/A	of the Commonwealth Government's NDIS and CHSP programs.

Service	Results 2015	Results 2016	Results 2017	Material Variation
Libraries				
Participation				
Active library members	25%	23%	21%	
[Number of active library members / Municipal population] x 100				
Maternal and Child Health (MCH)				
Participation				
Participation in the MCH service	79%	75%	76%	
[Number of children who attend the MCH service at least once (in the year) / Number of children enrolled in the MCH service] x 100				
Participation				
Participation in the MCH service by Aboriginal children	76%	62%	67%	
[Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x 100				
Roads				More roads have been
Satisfaction				rehabilitated and/or resealed leading to an increased
Satisfaction with sealed local roads	27	30	36	satisfaction result.
[Community satisfaction rating out of 100 with how Council has performed on the condition of sealed local roads]				
Statutory Planning				Council had one less VCAT
Decision making				decision overall and two more decisions set aside by
Council planning decisions upheld at VCAT	0%	71%	50%	VCAT compared to 2015/16,
[Number of VCAT decisions that did not set aside Council's decision in relation to a planning application / Number of VCAT decisions in relation to planning applications] x 100				which has impacted the overall variance. The overall volume of applications that are appealed to VCAT is exceptionally low at South Gippsland so even one application difference can create a significant percentage variance.
Waste Collection				
Waste diversion				
Kerbside collection waste diverted from landfill	33%	50%	51%	
[Weight of recyclables and green organics collected from kerbside bins / Weight of garbage, recyclables and green organics collected from kerbside bins] x 100				

Definitions

"Aboriginal child" means a child who is an Aboriginal person "Aboriginal person" has the same meaning as in the Aboriginal Heritage Act 2006

"Active library member" means a member of a library who has borrowed a book from the library

"Annual report" means an annual report prepared by a Council under Sections 131, 132 and 133 of the Act

"CALD" means culturally and linguistically diverse and refers to persons born outside Australia in a country whose national language is not English

"Class 1 food premises" means food premises, within the meaning of the *Food Act 1984*, that have been declared as class 1 food premises under section 19C of that Act

"Class 2 food premises" means food premises, within the meaning of the *Food Act 1984*, that have been declared as class 2 food premises under section 19C of that Act

"Community Care Common Standards "means the Community Care Common Standards for the delivery of HACC services, published from time to time by the Commonwealth

"Critical non-compliance outcome notification" means a notification received by Council under section 19N(3) or (4) of the *Food Act 1984*, or advice given to Council by an authorised officer under that Act, of a deficiency that poses an immediate serious threat to public health

"Food premises" has the same meaning as in the Food Act 1984

"HACC program" means the Home and Community Care program established under the Agreement entered into for the purpose of the *Home and Community Care Act 1985* of the Commonwealth "HACC service" means home help, personal care or community respite provided under the HACC program

"Local road" means a sealed or unsealed road for which the Council is the responsible road authority under the *Road Management Act 2004*

"Major non-compliance outcome notification" means a notification received by a Council under section 19N(3) or (4) of the *Food Act 1984*, or advice given to Council by an authorised officer under that Act, of a deficiency that does not pose an immediate serious threat to public health but may do so if no remedial action is taken

"MCH" means the Maternal and Child Health Service provided by a Council to support the health and development of children within the municipality from birth until school age "Population" means the resident population estimated by Council "Target population" has the same meaning as in the Agreement entered into for the purposes of the *Home and Community Care Act 1985* of the Commonwealth

"WorkSafe reportable aquatic facility safety incident" means an incident relating to a Council aquatic facility that is required to be notified to the Victorian WorkCover Authority under Part 5 of the *Occupational Health and Safety Act 2004*.

Attachment 2.2.2

			\$4.5M Victorian Grants Commission allocation was received in advance in 2016/17. This had a positive impact on the 2016/17 ratio.
N	_	~	
206,1\$	\$3,19	10.819	143.03%
\$1,883	\$3,195	10.81%	196.51%

	Efficiency Reverue level Average residential rate \$1,607 \$1,752 \$1,789 \$1,847 \$1,865 per residential property assessment Residential rate revenue / Number of residential property assessments]	EfficiencyReveneelevelNeurage residential rateVerage residential rateNumber of residentialNumber of residentialVoumber of residentialVoumber of residentialNumber of residentialState revenueNumber of residentialState revenueState reve	\$1,607 \$1,752 \$1,789 \$1,847 \$1,865 \$1833 ue \$2,913 \$3,038 \$3,105 \$3,297 \$3,061 \$3,195 to \$2,998 13,13% 11,19% 10,81% 10,81% 10,81%

st Material Variation	The reclassification of \$16.5M of highly liquid 'cash and cash equivalent assets' to 'other financial assets' which have a maturity date of greater than 90 days has reduced the amount of Cash and Cash equivalents. This does not present as a strategic concern.	The nature of capital renewal expenditure is expected to fluctuate over the years.		Increase in Non-current Liabilities is due to provision of \$1M for Landfill rehabilitation.

Attachment 2.2.2

Definitions

"Adjusted underlying revenue" means total income other than:

(a) non-recurrent grants used to fund capital expenditure; and

(b) non-monetary asset contributions; and

(c) contributions to fund capital expenditure from sources

other than those referred to above

"Adjusted underlying surplus (or deficit)" means adjusted underlying revenue less total expenditure

"Asset renewal expenditure" means expenditure on an existing asset or on replacing an existing asset that returns the service capability of the asset to its original capability

"Current assets" has the same meaning as in the AAS

"Current liabilities" has the same meaning as in the AAS

"Non-current assets" means all assets other than current assets

"Non-current liabilities" means all liabilities other than current liabilities

"Non-recurrent grant" means a grant obtained on the condition that it be expended in a specified manner and is not expected to be received again during the period covered by a Council's Strategic Resource Plan

"Own-source revenue" means adjusted underlying revenue other than revenue that is not under the control of Council (including government grants)

"Population "means the resident population estimated by Council "Rate revenue" means revenue from general rates, municipal charges, service rates and service charges

"Recurrent grant "means a grant other than a non-recurrent grant "Residential rates" means revenue from general rates, municipal charges, service rates and service charges levied on residential properties

"Restricted cash" means cash and cash equivalents, within the meaning of the AAS, that are not available for use other than for a purpose for which it is restricted, and includes cash to be used to fund capital works expenditure from the previous financial year "Unrestricted cash" means all cash and cash equivalents other than restricted cash.

OTHER INFORMATION for the year ended 30 June 2017

1. Basis of preparation

Council is required to prepare and include a performance statement within its Annual Report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the Local Government Act 1989 and Local Government (Planning and Reporting) Regulations 2014.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from Council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the Council's Strategic Resource Plan. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variations in the results contained in the performance statement. Council has adopted materiality thresholds relevant to each indicator and measure and explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material because of its nature.

The forecast figures included in the performance statement are those adopted by Council in its Strategic Resource Plan annually and which forms part of the Council Plan. The Strategic Resource Plan includes estimates based on key assumptions about the future that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The Strategic Resource Plan 2015–2018 can be obtained by contacting Council.

In my opinion, the accompanying performance statement has been prepared in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

Stuart Smith, CPA Principal Accounting Officer Dated: 27 September 2017

In our opinion, the accompanying performance statement of the South Gippsland Shire Council for the year ended 30 June 2017 presents fairly the results of Council's performance in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the Council and by the Local Government (Planning and Reporting) Regulations 2014 to certify this performance statement in its final form.

Ray Argento
